The certificate is of significance in our daily life. At present we will provide all candidates who want to pass the PRINCE2-Practitioner exam with three different versions for your choice. APP version of our PRINCE2-Practitioner exam questions can work in an offline state. If you use the quiz prep, you can use our latest PRINCE2-Practitioner exam torrent in anywhere and anytime. How can you have the chance to enjoy the study with our PRINCE2-Practitioner Practice Guide in an offline state? You just need to download the version that can work in an offline state, and the first time you need to use the version of our PRINCE2-Practitioner quiz torrent online.

To be eligible for the PRINCE2 Practitioner certification exam, candidates must have already obtained the PRINCE2 Foundation certification. The Practitioner exam is the next step on the PRINCE2 certification ladder and is designed for individuals who want to further their understanding of the PRINCE2 methodology and gain a deeper insight into project management best practices.

PRINCE2 Practitioner is an advanced level certification that validates the candidate's understanding of PRINCE2 methodology. PRINCE2 (PProjects IN Controlled Environments) is a widely used project management methodology that provides a structured approach to project management. It is widely recognized and used in both the public and private sectors around the world.

Besides, we also provide the free update for one year, namely you can get the latest version freely for 365 days.

### PRINCE2 Practitioner Exam Sample Questions (Q221-Q226):

#### NEW QUESTION # 221

##### HOTSPOT

##### Scenario

A central government department, the Ministry of Food Hygiene (MFH), faces increasing pressure to cut costs, better manage suppliers' performance and reduce the confusion caused by inadequate internal controls, outdated standards and outdated technology. External consultants were employed to conduct a feasibility study to identify options to address the problems, and the likely costs and benefits. The following options were considered:

- Do nothing
- Re-engineer selected business functions.
- Outsource selected business functions.

The feasibility study concluded that there was a case for outsourcing the MFH Information Technology Division and the Facilities Division (maintenance of buildings and grounds). The recommendations were:

- One service provider should be contracted to provide the services currently provided by the Information Technology Division and the Facilities Division.
- A 10-year service contract should be agreed with the selected service provider.

The feasibility study developed high-level designs of the current organization, processes, systems and operating models, plus an outline Business Case for the required project. The external consultants also made the following recommendations for the management of the project:

- Use PRINCE2.
- Set up the project with 4 management stages:

Stage 1. Standard PRINCE2 initiation activities.

Stage 2. Create detailed designs (future organization, processes, systems and operating models) and the service level agreement between MFH and the future service provider.

Stage 3. Request and evaluate proposals, select service provider and agree contract.

Stage 4. Transfer equipment and staff, transfer responsibility for service provision and run trial period.

Initial estimates indicated that the project would cost £2.5m and take two years to complete.

MFH senior management agreed that there was a case for outsourcing, and accepted the recommendations as a basis for the project. There is an expected saving of £20m over 10 years.

The Outsourcing project has completed the Starting up a Project process and is now in the initiation stage.

Because of the strategic importance of the project, the MFH Chief Executive Officer has taken the role of Executive. A PRINCE2-experienced Project Manager has been appointed from within MFH. Staff within the business functions being outsourced will work with the external consultants who conducted the feasibility study to define the detailed designs.

Lines 1 to 6 in the table below consist of an assertion statement and a reason statement. For each line identify the appropriate option, from options A to E, that applies. Each option can be used once, more than once or not at all.

Hot Area:

	Assertion		Reason	
1	The selected service provider should have their own Business Case for the work they are doing on the Outsourcing project.	True-False A	All project costs, including the cost of work carried out by external suppliers on the project should be included in the customer's Business Case.	True-False
2	The cost of managing the outsourcing contract should be included in the Business Case.	True-False B	The information in the Business Case is used to compare the development, maintenance and operational costs with the value of the benefits over a period of time.	True-False
3	The Business options section of the Business Case will need to be updated if the industry standards for outsourcing are changed.	True-False	The Business options section of the Business Case describes options that have been considered to address the business problem.	True-False
4	Any expected benefit from increasing staff flexibility should be included in the Business Case.	True-False D	The Business Case should list each benefit that it is claimed would be achieved by the project's outcome.	True-False
5	The End Project Report should identify whether the expected savings of £2 over 10 years have been achieved.	True-False E	All benefits in the Business Case should be achieved before a project is closed.	True-False
6	The Project Board should ensure that the Benefits Review Plan includes the mechanisms for measuring all the claimed benefits of outsourcing.	True-False F	The Benefits Review Plan is created in the initiation stage.	True-False

**Answer:**

**Explanation:**

	Assertion		Reason	
1	The selected service provider should have their own Business Case for the work they are doing on the Outsourcing project.	True-False A	All project costs, including the cost of work carried out by external suppliers on the project should be included in the customer's Business Case.	True-False

6	The Project Board should ensure that the Benefits Review Plan includes the mechanisms for measuring all the claimed benefits of outsourcing.	True-False F	The Benefits Review Plan is created in the initiation stage.	True-False

## NEW QUESTION # 222

Scenario

A central government department, the Ministry of Food Hygiene (MFH), faces increasing pressure to cut costs, better manage suppliers' performance and reduce the confusion caused by inadequate internal controls, outdated standards and outdated technology. External consultants were employed to conduct a feasibility study to identify options to address the problems, and the likely costs and benefits. The following options were considered:

Do nothing.

Re-engineer selected business functions.

Outsource selected business functions.

The feasibility study concluded that there was a case for outsourcing the MFH Information Technology Division and the Facilities Division (maintenance of buildings and grounds). The recommendations were: One service provider should be contracted to provide the services currently provided by the Information Technology Division and the Facilities Division.

A 10-year service contract should be agreed with the selected service provider.

The feasibility study developed high-level designs of the current organization, processes, systems and operating models, plus an outline Business Case for the required project. The external consultants also made the following recommendations for the management of the project:

Use PRINCE2.

Set up the project with 4 management stages:

Stage 1. Standard PRINCE2 initiation activities.

Stage 2. Create detailed designs (future organization, processes, systems and operating models) and the service level agreement between MFH and the future service provider.

Stage 3. Request and evaluate proposals, select service provider and agree contract.

Stage 4. Transfer equipment and staff, transfer responsibility for service provision and run trial period.

Initial estimates indicated that the project would cost (GBP)2.5m and take two years to complete.

MFH senior management agreed that there was a case for outsourcing, and accepted the recommendations as a basis for the project. There is an expected saving of (GBP)20m over 10 years.

The Outsourcing project has completed the Starting up a Project process and is now in the initiation stage. Because of the strategic importance of the project, the MFH Chief Executive Officer has taken the role of Executive. A PRINCE2-experienced Project Manager has been appointed from within MFH. Staff within the business functions being outsourced will work with the external consultants who conducted the feasibility study to define the detailed designs.

Which 2 statements should be recorded under the Major risks heading?

- A. The management stages recommended by the consultants may not be appropriate, resulting in confusion in planning.
- **B. The initial estimates, taken from the feasibility study report, indicate that the project will take two years to complete, which means that the business problems would remain for this period.**
- C. MFH's operations may be reduced and the 1a-year contract may not achieve its estimated value of (GBP)80m, which would reduce the service provider's profit.
- **D. Owing to employment contract changes staff may resist outsourcing, which would make it difficult to transfer staff to the selected service provider.**
- E. Due to market conditions a suitable service provider may not be found, possibly leading to premature closure of the project.

**Answer: B,D**

### NEW QUESTION # 223

During the 'create the project plan' activity as part of the initiation stage, the project manager identifies several threats to the project timescales. These threats relate to stage 3 products. Therefore, the project manager decides to wait until the end of stage 2 to assess the risks to the project plan.

Is this an appropriate application of the plans theme, and why?

- A. No, because the risk actions to manage project-level threats should be recorded in the risk register.
- **B. No, because the risks inherent in the project plan should be assessed, and the plan modified to manage them.**
- C. Yes, because risk planning should take place in the stage plan before the risks occur, not in the project plan.
- D. Yes, because detailed planning of stage 3 should take place after completion of the stage 2 products.

**Answer: B**
