Juniper JN0-1103 Practice Questions

Design, Associate (JNCIA-Design)

Order our JN0-1103 Practice Questions Today and Get Ready to Pass with Flying Colors!

JN0-1103 Practice Exam Features | QuestionsTube

- Latest & Updated Exam Questions
- Subscribe to FREE Updates
- Both PDF & Exam Engine
- Download Directly Without Waiting

<https://www.questionstube.com/exam/jn0-1103/>

At QuestionsTube, you can read JN0-1103 free demo questions in pdf file, so you can check the questions and answers before deciding to download the Juniper JN0-1103 practice questions. These free demo questions are parts of the JN0-1103 exam questions. Download and read them carefully, you will find that the JN0-1103 test questions of QuestionsTube will be your great learning materials online. Share some JN0-1103 exam online questions below.

1.Which two statements are true regarding greenfield projects? (Choose two.)

What's more, part of that Itbraindumps JN0-1103 dumps now are free: <https://drive.google.com/open?id=1CM-N0Qwz2qzhTYHp3tCl2RoFuJxrdpnK>

We would like to benefit our customers from different countries who decide to choose our JN0-1103 study guide in the long run, so we cooperation with the leading experts in the field to renew and update our study materials. Our leading experts aim to provide you the newest information in this field in order to help you to keep pace with the times and fill your knowledge gap. We can assure you that you will get the latest version of our JN0-1103 Training Materials for free from our company in the whole year after payment. Do not miss the opportunity to buy the best JN0-1103 preparation questions in the international market which will also help you to advance with the times.

Juniper JN0-1103 Exam Syllabus Topics:

Topic	Details

Topic 1	<ul style="list-style-type: none"> Network Management or Reliability: This section of the exam measures skills of Network Operations Center (NOC) Engineers and covers design considerations for ensuring business continuity. Topics include high-resiliency design, implementing link and device-level redundancy, and utilizing technologies like Multihomed Ethernet Segment Identifier Link Aggregation Groups (ESI LAGs) and virtual chassis. The section also explores Juniper SRX firewall redundancy and best practices for campus network redundancy.
Topic 2	<ul style="list-style-type: none"> Campus and Branch LAN Design: This section of the exam measures skills of LAN Infrastructure Specialists and covers considerations for designing wired campus or branch LANs. It addresses best practices in campus LAN design, modular design approaches, subnet and VLAN planning, and access control mechanisms. The section also introduces Ethernet VPN-Virtual Extensible LAN (EVPN-VXLAN) architectures and discusses campus oversubscription ratios and design architectures.
Topic 3	<ul style="list-style-type: none"> Securing the Network: This section of the exam measures the skills of Security Architects and covers essential security design principles. It encompasses general security considerations, strategies for securing data centers and campus WANs, and the implementation of zero-trust security models. Additionally, it delves into Secure Access Service Edge (SASE) frameworks to enhance network security posture.
Topic 4	<ul style="list-style-type: none"> Customer Network Design Requirements: This section of the exam measures skills of Network Design Engineers and covers the foundational aspects of network design. It includes understanding Juniper's life-cycle service approach, defining proposal boundaries, and considerations for both greenfield and brownfield deployments. The section also addresses top-down network design methodologies and capacity planning to ensure scalable and efficient network infrastructures.
Topic 5	<ul style="list-style-type: none"> Campus and Branch WAN Design: This section of the exam measures skills of WAN Solutions Architects and covers considerations for designing campus or branch WANs. It includes understanding WAN connectivity functions, best practices for WAN design, performance optimization, VPN design, and implementing high availability through active active and active passive configurations. The section also explores Software-Defined WAN (SD-WAN) design considerations, devices, assurance models, and intersite connectivity.

Verified Exam JN0-1103 Forum | Amazing Pass Rate For JN0-1103: Design - Associate (JNCIA-Design) | Correct JN0-1103 Exam Reference

We have a team of experts curating the real JN0-1103 questions and answers for the end users. We are always working on updating the latest JN0-1103 questions and providing the correct JN0-1103 answers to all of our users. We provide free updates for one year from the date of purchase. You can benefit from the updates JN0-1103 Preparation material, and you will be able to pass the JN0-1103 exam in the first attempt.

Juniper Design - Associate (JNCIA-Design) Sample Questions (Q268-Q273):

NEW QUESTION # 268

A local university has decided to expand their research capabilities and build a new research facility.

You have been hired to design and install the new network in this building.

The research team expects to generate massive amounts of data, which must be shared with other facilities located on the same campus. Physical access to the building is restricted, and the connection to the other buildings is private and direct.

What is your primary concern in the design of the network?

- A. security
- B. resiliency
- C. encryption
- D. scalability

Answer: A

NEW QUESTION # 269

Which three steps are part of business continuity planning? (Choose three.)

- A. Test the plan
- B. Understand your tools.
- C. Assess the risks
- D. Know your network.
- E. Know your staff.

Answer: C,D,E

NEW QUESTION # 270

Which two data center network architectures might be proposed by other vendors to compete with Juniper Networks Virtual Chassis Fabric (VCF) solution? (Choose two.)

- A. three-tier architecture
- B. SON ET 1
- C. TRILL
- D. FCoE

Answer: A,C

NEW QUESTION # 271

Which two statements describe why the executive summary section of an RFP so important? (Choose two.)

- A. It is an overview of Juniper's value proposition to the customer.
- B. It is likely to be read by all decision makers.
- C. It outlines the technical benefits of the proposed design.
- D. It addresses the customer's goals, scope, and requirements.

Answer: A,B

NEW QUESTION # 272

You are designing network connectivity into a mission critical site.

What are three design elements required to complete this design? (Choose three.)

- A. diverse entrance facilities
- B. DSL/cable modem service
- C. redundant Internet border routers
- D. 802.11 wireless point-to-point
- E. firewall cluster

Answer: A,C,E

NEW QUESTION # 273

.....

If you purchase our JN0-1103 preparation questions, it will be very easy for you to easily and efficiently find the exam focus. More importantly, if you take our products into consideration, our JN0-1103 study materials will bring a good academic outcome for you. At the same time, we believe that our JN0-1103 training quiz will be very useful for you to have high quality learning time during your learning process.
