No matter you are exam candidates of high caliber or newbies, our Cisco 400-007 exam quiz will be your propulsion to gain the best results with least time and reasonable money. Not only because the outstanding content of 400-007 Real Dumps that produced by our professional expert but also for the reason that we have excellent vocational moral to improve our 400-007 learning materials quality.

In order to meet the need of all customers, there are a lot of professionals in our company. We can promise that we are going to provide you with 24-hours online efficient service after you buy our Cisco Certified Design Expert (CCDE v3.0) Written Exam guide torrent. We are willing to help you solve your all problem. If you purchase our 400-007 test guide, you will have the right to ask us any question about our products, and we are going to answer your question immediately, because we hope that we can help you solve your problem about our 400-007 Exam Questions in the shortest time. We can promise that our online workers will be online every day. If you buy our 400-007 test guide, we can make sure that we will offer you help in the process of using our 400-007 exam questions. You will have the opportunity to enjoy the best service from our company.

Cisco Certified Design Expert (CCDE v3.0) Written Exam exam test torrent & 400-007 updated training vce & 400-007 test study dumps

The software boosts varied self-learning and self-assessment functions to check the results of the learning. The software can help the learners find the weak links and deal with them. Our 400-007 exam torrent boosts timing function and the function to stimulate the

exam. Our product sets the timer to stimulate the exam to adjust the speed and keep alert. Our 400-007 study questions have simplified the complicated notions and add the instances, the stimulation and the diagrams to explain any hard-to-explain contents.

Cisco 400-007 certification exam covers a wide range of topics, including network design methodologies, network performance analysis, network security, network virtualization, and network automation. 400-007 exam is a rigorous test of the candidate's knowledge and skills, and requires a deep understanding of the Cisco networking technologies. 400-007 Exam consists of multiple-choice questions, which are designed to test the candidate's understanding of the topics. 400-007 exam is available in English and Japanese, and can be taken at any Pearson VUE testing center around the world.

Cisco Certified Design Expert (CCDE v3.0) Written Exam Sample Questions (Q178-Q183):

NEW QUESTION # 178

A network architect must redesign a service provider edge, where multiservice and multitenant PEs are currently present. Which design feature should be minimized in the new design to achieve reliability?

- A. fate sharing
- B. unicast overlay routing
- C. bridging
- D. redundancy

Answer: A

NEW QUESTION # 179

A network attacker exploits application flaws to compromise critical systems in the organization with these objectives:

- Obtain sensitive data and export the data out of the network
- Compromise developer and administrator credentials to potentially gain access

What is the next step after application discovery is completed in Zero Trust networking?

- A. Ensure trustworthiness of systems
- B. Assess real-time security health
- C. Establish visibility and behavior modeling
- D. Enforce policies and microsegmentation

Answer: D

Explanation:

NEW QUESTION # 180

Drag and drop the optical technology design characteristics on the left to the correct optical technologies on the right. Not all options are used

suited for short-haul and long-haul distances

number of channels can be 40 or more

large channel spacing (2500 GHz)

small channel spacing (100 or 50 GHz)

suited for short-haul, typically limited to Metro networks

maximum of 16 channels

only suitable for ring or dual-ring topology

CWDM (Coarse Wavelength Division Multiplexing)

target 1

target 2

target 3

DWDM (Dense Wavelength Division Multiplexing)

target 4

target 5

target 6

target 7

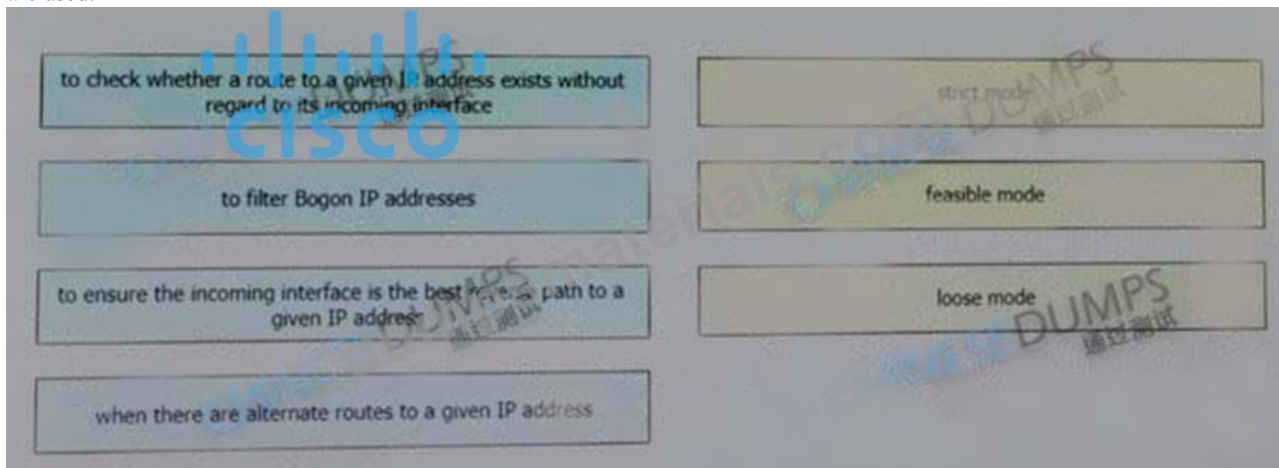

Answer:

Explanation:

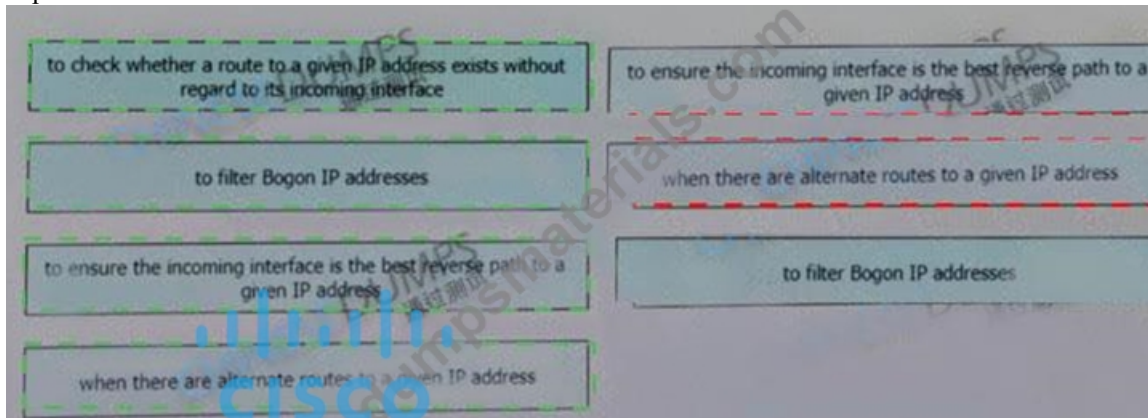

NEW QUESTION # 181

Drag and drop the design use cases from the left onto the correct uRPF techniques used to prevent spoofing attacks. Not all options are used.

Answer:

Explanation:

to check whether a route to a given IP address exists without regard to its incoming interface	strict mode
to filter Bogon IP addresses	feasible mode
to ensure the incoming interface is the best reverse path to a given IP address	loose mode
when there are alternate routes to a given IP address	

NEW QUESTION # 182

Drag and Drop Question

Drag and drop the FCAPS network management reference models from the left onto the correct definitions on the right.

Fault Management	ensures that network transit quality remains at acceptable levels
Configuration Management	gathers usage statistics for users and business units
Accounting Management	gathers and stores configuration code from network devices
Performance Management	recognizes, isolates, corrects, and logs events that occur in the network
Security Management	controls access to assets in the network

Answer:

Explanation:

Fault Management	Performance Management
Configuration Management	Accounting Management
Accounting Management	Configuration Management
Performance Management	Fault Management
Security Management	Security Management
