Our laTest MS-721 Pdf file materials will ease your annoyance while preparing & reading, and then get better benefits and good opportunities.

Microsoft Collaboration Communications Systems Engineer Sample Questions (Q136-Q141):

NEW QUESTION # 136

You have a Microsoft Teams Phone deployment.

You are deploying Direct Routing by using a certified Session Border Controller (SBC). The FQDN of the SBC is sbc1.contoso.com. You use signaling port 5067.

You cannot place calls and receive an error message in the Microsoft Teams admin center as shown in the following exhibit.

What is a possible cause of the issue?

- A. Calling plan licenses are not assigned to users.
- **B. The Digicert root certificate is missing on the SBC.**
- C. The Forward P-Asserted Identify (PAI) header is disabled.
- D. Location-Based Routing is enabled for the SBC.

Answer: B

NEW QUESTION # 137

You have a Microsoft Teams deployment.

You have the users shown in the following table.

You need to identify which users meet the following requirements:

* Can assign watermarks to meetings.

* Can configure end-to-end meeting encryption.

Which users should you identify?

- A. User3 only
- **B. User2only**
- C. User2 and User3 only
- D. User1 only
- E. User1, User2, and User3

Answer: B

NEW QUESTION # 138

You have a Microsoft 365 E5 subscription.

You need to compare the Microsoft 365 E5 subscription with a Microsoft Teams Premium license.

Which feature is included in Microsoft 365 E5, and which feature is exclusive with Teams Premium? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 139

You have a Microsoft Teams Phone deployment.

You have a call queue named Customer Service.

You need to ensure that when the agents of Customer Service make calls, the outbound calling name appears as Contoso, and the caller ID shows the phone number of Customer Service. Other users must NOT be affected.

Which three actions should you perform? Each correct answer presents a part of the solution.

NOTE: Each correct selection is worth one point.

- A. Set Calling Party Name to the organization name.
- B. From the Microsoft Teams admin center, modify the global (Org-wide default) caller ID policy.
- C. From the Microsoft Teams admin center configure a new caller ID policy
- D. Set Override the caller ID policy to On.
- E. Set Replace the caller ID with to Resource account

Answer: C,D,E

Explanation:

You can manage caller ID policies by going to Voice > Caller ID policies in the Microsoft Teams admin center. You can use the global (Org-wide default) policy or create and assign custom policies. Users in your organization automatically get the global policy unless you create and assign a custom policy.

Create a custom caller ID policy

* In the left navigation of the Microsoft Teams admin center, go to Voice > Caller ID policies. (A)

* Select Add.

* Enter a name and description for the policy.

* Turn on or off Block incoming caller ID and Override the caller ID policy. (E)

* Enter a Calling Party Name.

* Under Replace the caller ID with, set which caller ID is displayed for users by selecting one of the following: (D) User's number: Display the user's number.

Anonymous: Display the caller ID as Anonymous.

Resource account: Set a resource account associated with an Auto Attendant or Call Queue.

If you choose Resource account, you're prompted to specify a resource account for the next field, called Replace the caller ID with this resource account. Only resource accounts with an assigned phone number will be displayed. If you just assigned a phone number to the resource account, it may take a few minutes before the resource account is available for selection.

7. Select Save.

NEW QUESTION # 140

Drag and Drop Question

You have a Teams Phone deployment.

You port your company's main phone number from Teams Calling Plans to an Operator Connect provider.

Currently, the number is assigned to a resource account named Reception1. Reception1 is assigned to an auto attendant named Attendant1.

You need to reconfigure the phone number to work with Operator Connect.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:
