Free PDF Quiz SolarWinds - Marvelous SCP-NPM - Valid SolarWinds Network Performance Monitor (NPM) Exam Test Duration

Advancement in SCP-NPM information and communications technology generates huge potential for moving business and production up the value-chain, and improving the quality of life of citizens. And there is no doubt that you can get all kinds of information in cyber space now, SCP-NPM Latest Torrent is not an exception. I strongly recommend the study materials compiled by our company for you, the advantages of our SCP-NPM exam questions are too many to enumerate; I will just list three of them for your reference.

The SCP-NPM Certification is offered by SolarWinds, a leading provider of network performance monitoring and management software. SolarWinds Network Performance Monitor (NPM) Exam certification program is designed for network engineers, administrators, and other IT professionals who need to monitor and manage network performance. SolarWinds Network Performance Monitor (NPM) Exam certification is recognized globally and is a valuable asset for professionals looking to advance their careers in the networking field.

SolarWinds Network Performance Monitor (NPM) Exam Sample Questions (Q71-Q76):

NEW QUESTION # 71

All users can create their own Orion Maps. How do you limit a user from seeing or working with select monitored entities through the SolarWinds server?

- A. Unmanage entities to remove access to the Orion user account
- B. Configure Account limitations to remove access to the Orion user account
- C. Configure Alert imitations to remove access to the Orion user account
- D. Configure permissions on the monitored entity to remove access to the Orion user account

Answer: B

Explanation:
Account limitations are a way of restricting the access of Orion user accounts to specific network objects, such as nodes, interfaces, groups, maps, or alerts. You can use account limitations to prevent a user from seeing or working with select monitored entities through the SolarWinds server. For example, you can limit a user to see only the nodes in a certain group, or only the maps that they have created. You can apply account limitations to individual users or user groups, and you can choose from predefined limitations or create custom limitations based on custom properties. The other options are not effective ways of limiting user access to monitored entities, as they either affect the monitoring status of the entities (unmanage), the permissions of the entities themselves (configure permissions), or the alerting scope of the entities (configure alert limitations). Reference:
Limit user access to network areas with account limitations
Predefined Orion Platform account limitations
Create custom account limitations

NEW QUESTION # 72
When you configure a report, you can limit access to specific users.

- A. TRUE
- B. FALSE

Answer: A

Explanation:
When you configure a report in the SolarWinds Platform Web Console, you can limit access to specific users by assigning a report limitation category to the report and to the user account. A report limitation category is a custom label that defines which reports a user can see. For example, you can create a "finance" category and assign it to the reports and users related to the finance department. Users with the "finance" category can only access the reports with the same category, and not the reports with other categories, such as "marketing" or "IT". You can also prevent users from accessing any reports by applying the "No Reports" limitation to their account, or allow administrators to see all reports by applying the "No Limitation" category to their account. Reference: Restrict who can access reports in the SolarWinds Platform, Define what users can access and do in the SolarWinds Platform.

NEW QUESTION # 73
You configured devices to send SNMP traps to NPM, but do not see the messages in the Orion Web Console. You verified that the firewall ports are open and the devices are correctly configured.
What can you verify to troubleshoot the cause?

- A. Verify that you have the SNMP Trap module installed for NPM
- B. Verify the SNMP trap service is running
- C. Verify you use Log Analyzer to view traps
- D. Verify you configured the SNMP Traps view in the Orion Web Console

Answer: B

NEW QUESTION # 74
You receive traps from your network devices and want to alert on a select message. How do you accomplish this?

- A. You cannot alert on traps through the Orion Platform
- B. Configure Syslog alert actions on the Alert Actions tab
- C. Go to the Traps view and configure a new Log Viewer rule

- D. Use Traps in Orion Alerts to configure the default trap alert to fire on the trap message you select to alert on

Answer: C

Explanation:
https://documentation.solarwinds.com/en/success_center/orionplatform/content/core-configuring-trap-viewer-filters-and-alerts-sw272.htm https://documentation.solarwinds.com/en/success_center/orionplatform/content/lm/la-orion-log-viewer.htm

NEW QUESTION # 75
How many agents does NPM require for Quality of Experience, NetPath, and system monitoring on the same Windows server?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: D

NEW QUESTION # 76
......

As we all know, respect and power is gained through knowledge or skill. The society will never welcome lazy people. Do not satisfy what you have owned. Challenge some fresh and meaningful things, and when you complete SCP-NPM Exam, you will find you have reached a broader place where you have never reach. For instance, our SCP-NPM practice torrent is the most suitable learning product for you to complete your targets.
