Which workers are assigned tasks for the query ID13127? (Choose two.)

- A. Worker1 has no tasks for query ID 13127*.
- B. Worker3 has four tasks for query ID 13127*.
- C. Worker3 has two tasks for query ID 13127*.
- D. Worker2 has two tasks for query ID 13127*.
- E. Worker1 has one task for query ID 13127*.

Answer: A,C

Explanation:

The exhibit shows the directory listings for three different workers (worker1, worker2, and worker3) under the /querywkr/active/13127* path, which indicates active query tasks assigned to each worker.

1. Worker1 (worker1)

The output does not show any subdirectories or task files (13127t0, 13127t1, etc.), meaning Worker1 is not assigned any tasks.*

2. Worker2 (worker2)

The output shows one task (13127t1) under /querywkr/active/13127*.

The worker has only one assigned task, not two, so options C and D are incorrect.

3. Worker3 (worker3)

The output shows two tasks (13127t0 and 13127t1), indicating that Worker3 is processing two tasks for query ID 13127.*
