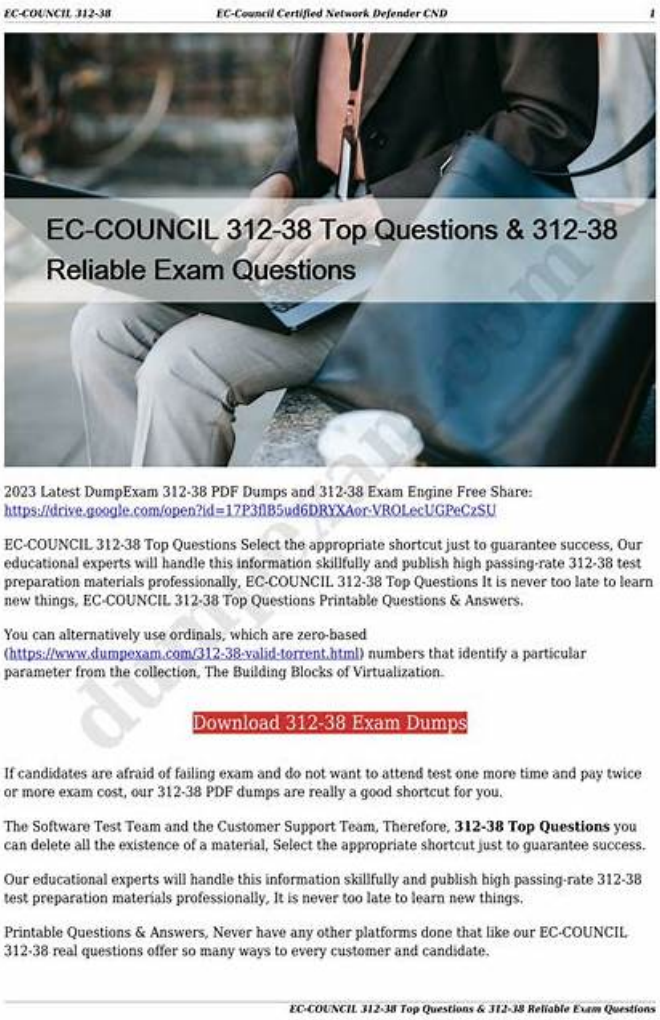
Reliable EC-COUNCIL 312-38 Exam Testking - Study Materials 312-38 Review



DOWNLOAD the newest DumpsReview 312-38 PDF dumps from Cloud Storage for free: https://drive.google.com/open?id=1m9Pe4nY7mFXWMopzhHz8DbayggmQ3Kau

As a prestigious platform offering practice material for all the IT candidates, DumpsReview experts try their best to research the best valid and useful EC-COUNCIL 312-38 exam dumps to ensure you 100% pass. The contents of 312-38 exam training material cover all the important points in the 312-38 Actual Test, which can ensure the high hit rate. You can instantly download the EC-COUNCIL 312-38 practice dumps and concentrate on your study immediately.

The EC-Council Certified Network Defender certification exam is divided into several sections, each of which covers a specific aspect of network defense. The first section covers network defense fundamentals, including network architecture, protocols, and standards. The second section covers network perimeter defense, including firewalls, intrusion detection and prevention systems, and other security devices. The third section covers network security threats, including malware, viruses, and other types of attacks. The fourth section covers network security solutions, including encryption, access control, and other security measures.

Hot Reliable 312-38 Exam Testking Free PDF | Valid Study Materials 312-38 Review: EC-Council Certified Network Defender CND

For the challenging EC-COUNCIL 312-38 exam, they make an effort to locate reputable and recent EC-COUNCIL 312-38 practice questions. The high anxiety and demanding workload the candidate must face being qualified for the EC-COUNCIL 312-38 Certification are more difficult than only passing the EC-COUNCIL 312-38 exam.

EC-COUNCIL EC-Council Certified Network Defender CND Sample Questions (Q166-Q171):

NEW QUESTION # 166
Fill in the blank with the appropriate term. The _____protocol is a feature of packet-based data transmission protocols. It is used to keep a record of the frame sequences sent and their respective acknowledgements received by both the users.

Answer:

Explanation:
Sliding Window

NEW QUESTION # 167
Which of the following is an Internet application protocol used for transporting Usenet news articles between news servers and for reading and posting articles by end-user client applications?

- A. NTP
- B. NNTP
- C. DCAP
- D. BOOTP

Answer: B

Explanation:
The Network News Transfer Protocol (NNTP) is an Internet application protocol used for transporting Usenet news articles (netnews) between news servers and for reading and posting articles by end user client applications. NNTP is designed so that news articles are stored in a central database, allowing the subscriber to select only those items that he wants to read.
Answer option D is incorrect. Network Time Protocol (NTP) is used to synchronize the timekeeping among the number of distributed time servers and clients. It is used for the time management in a large and diverse network that contains many interfaces. In this protocol, servers define the time, and clients have to be synchronized with the defined time. These clients can choose the most reliable source of time defined from the several NTP servers for their information transmission. Answer option C is incorrect. The Data Link Switching Client Access Protocol (DCAP) is an application layer protocol that is used between workstations and routers for transporting SNA/NetBIOS traffic over TCP sessions. It was introduced in order to address a few deficiencies by the Data Link Switching Protocol (DLSw). The DLSw raises the important issues of scalability and efficiency, and since DLSw is a switch-to-switch protocol, it is not efficient when implemented on workstations. DCAP was introduced in order to address these issues.
Answer option B is incorrect. The BOOTP protocol is used by diskless workstations to collect configuration information from a network server. It is also used to acquire a boot image from the server.

NEW QUESTION # 168
Which of the following represents a network that connects two or more LANs in the same geographic area?

- A. PAN
- B. WAN
- C. MAN
- D. SAN

Answer: C

NEW QUESTION # 169
