## 2026 SC-300: Updated Microsoft Identity and Access Administrator Exam Preview

With constantly updated Microsoft pdf files providing the most relevant questions and correct answers, you can find a way out in your industry by getting the SC-300 certification. Our SC-300 test engine is very intelligence and can help you experienced the interactive study. In addition, you will get the scores after each SC-300 Practice Test, which can make you know about the weakness and strengthen about the SC-300 real test , then you can study purposefully.

### Microsoft Identity and Access Administrator Sample Questions (Q321-Q326):

#### NEW QUESTION # 321

You have a Microsoft 365 tenant.

You create a named location named HighRiskCountries that contains a list of high-risk countries.

You need to limit the amount of time a user can stay authenticated when connecting from a high-risk country.

What should you configure in a conditional access policy? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

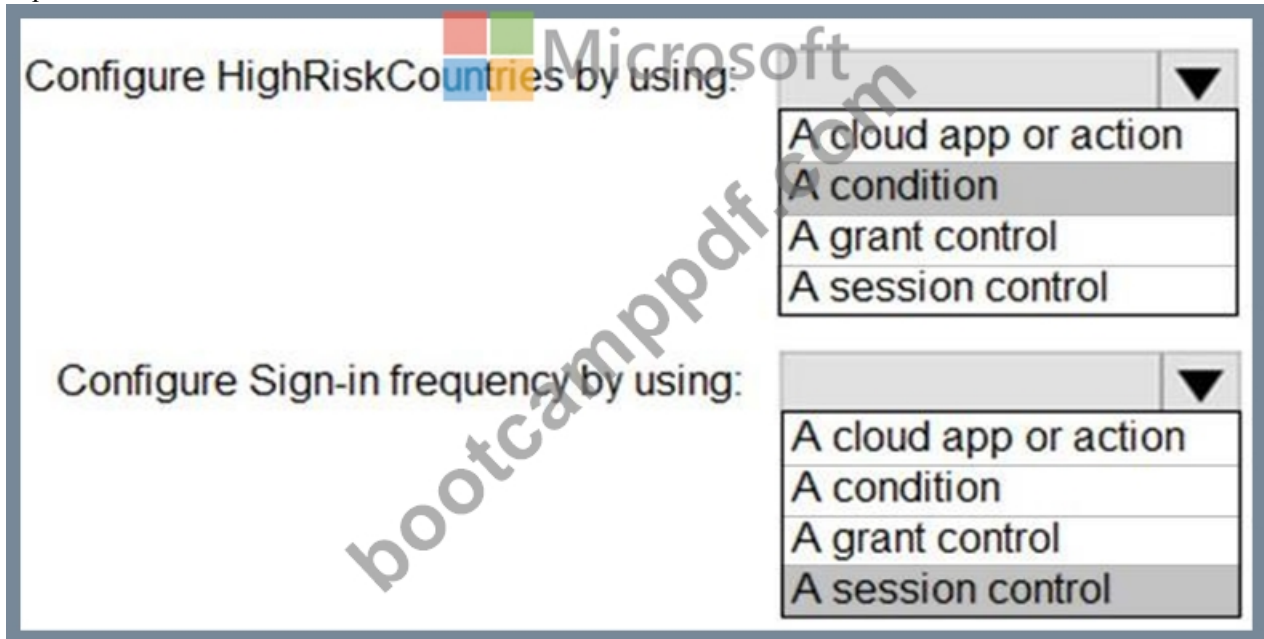

A screenshot of the Microsoft Conditional Access policy configuration interface. The interface is titled 'Answer Area' and features the Microsoft logo on the left. It contains two configuration sections. The first section is 'Configure HighRiskCountries by using:' and has a dropdown menu with four options: 'A cloud app or action', 'A condition', 'A grant control', and 'A session control'. The second section is 'Configure Sign-in frequency by using:' and has a dropdown menu with four options: 'A cloud app or action', 'A condition', 'A grant control', and 'A session control'. The interface is designed for selecting the appropriate options for a conditional access policy.

Answer:

### NEW QUESTION # 322

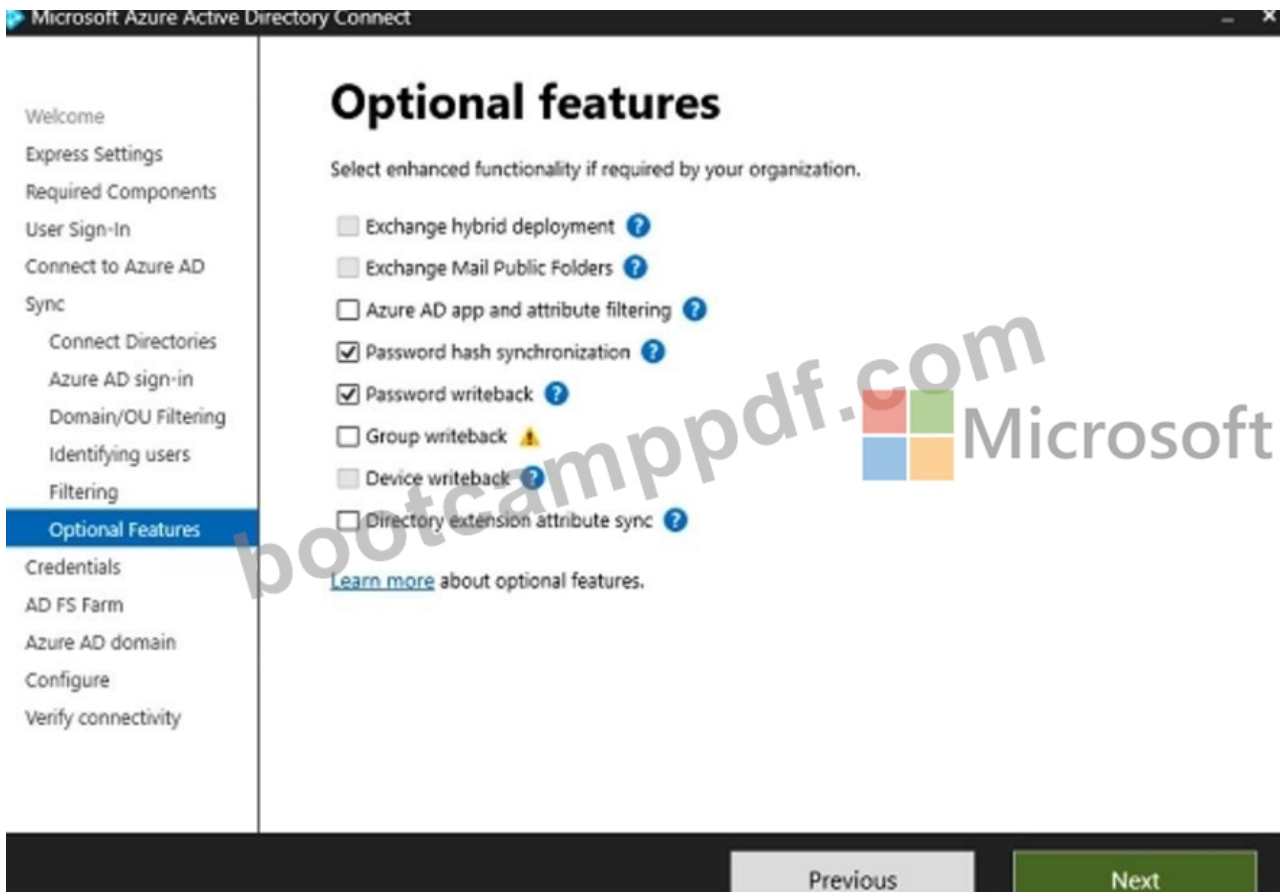

Hotspot Question

Your network contains an on-premises Active Directory Domain Services (AD DS) domain named fabrikam.com. The domain contains an Active Directory Federation Services (AD FS) instance and a member server named Server1 that runs Windows Server. The domain contains the users shown in the following table.

Name	Description
User1	The user account has a six-character password and is enabled.
User2	The user account has a 12-character password and is enabled.
User3	The user account has an eight-character password and is disabled.

You have a Microsoft Entra tenant named contoso.com that is linked to a Microsoft 365 subscription.

You establish federation between fabrikam.com and contoso.com by using a Microsoft Entra Connect instance that is configured as shown in the following exhibit.

You perform the following tasks in contoso.com:

- Create a group named Group1.
- Disable User2.
- Enable User3.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statements	Yes	No
You can add User1 to Group1.	<input type="radio"/>	<input type="radio"/>
User2 can sign in to Server1.	<input type="radio"/>	<input type="radio"/>
User3 can sign in to Microsoft 365.	<input type="radio"/>	<input type="radio"/>

**Answer:**

**Explanation:**

Statements	Yes	No
You can add User1 to Group1.	<input checked="" type="radio"/>	<input type="radio"/>
User2 can sign in to Server1.	<input checked="" type="radio"/>	<input type="radio"/>
User3 can sign in to Microsoft 365.	<input type="radio"/>	<input checked="" type="radio"/>

**Explanation:**

Box 1: Yes

Group1 is created in the entra ID tenant, and the user is synced, so this is possible. It doesn't state that the group should be visible on-prem.

Box 2: Yes

The user is a directory-synced user, so authority lies on-prem. Disabling it from the Entra ID portal will have no effect. The server is

also an on-prem server. Disabling should be done in on-prem adds.

Box 3: No

You enable the account in the entra id tenant, but the account is directory synced, so authority lies with the on-prem AD, enabling from the portal is not possible.

### NEW QUESTION # 323

You have an Azure AD tenant that contains the users shown in the following table.

Name	Role
User1	None
User2	None
Admin1	Application administrator
Admin2	Authentication administrator

The User settings for enterprise applications have the following configuration.

- \* Users can consent to apps accessing company data on their behalf
- \* Users can consent to apps accessing company data for the groups they
- \* Users can request admin consent to apps they are unable to consent to: Yes
- \* Who can review admin consent requests: Admin2, User2

User1 attempts to add an app that requires consent to access company data.

Which user can provide consent?

- A. Admin1
- B. User2
- C. User1
- **D. Admin2**

**Answer: D**

Explanation:

In Azure AD, user consent and admin consent workflows control which users or administrators can approve access to organizational data requested by applications.

The question states:

- \* "Users can request admin consent to apps they are unable to consent to: Yes"
- \* "Who can review admin consent requests: Admin2, User2"

When User1 attempts to add an app that requires consent to access company data, and if that app requires admin consent, the request is routed to those designated as admin consent reviewers. In this case, Admin2 and User2 are listed, but only one has the administrative capability to approve the request.

Based on Microsoft documentation:

"Only users who hold an administrative role such as Global Administrator, Cloud Application Administrator, or Authentication Administrator and are designated as reviewers can grant consent on behalf of the organization." Here, Admin2 holds the Authentication Administrator role - an Azure AD admin-level role - while User2 has no administrative privileges. Thus, Admin2 is the only eligible user to approve the admin consent request.

### NEW QUESTION # 324

You have an Azure AD tenant that contains the users shown in the following table.

Name	Member of
User1	Group1
User2	Group2
User3	Group3

The tenant has the authentication methods shown in the following table.

Method	Target	Enabled
FIDO2	Group2	Yes
Microsoft Authenticator app	Group1	Yes
SMS	Group3	Yes

Which users will sign in to cloud apps by matching a number shown in the app with a number shown on their phone?

- A. User2 only
- **B. User1 only**
- C. User3 only
- D. User2 and User3 only
- E. User1 and User2 only

**Answer: B**

### NEW QUESTION # 325

You have an Azure AD tenant that contains the users shown in the following table.

Name	User risk level
User1	Low
User2	Medium
User3	High

You have the Azure AD Identity Protection policies shown in the following table.

Type	Users	User risk	Sign-in risk	Controls
User risk policy	All users	Low and above	Unconfigured	Block access
Sign-in risk policy	All users	Unconfigured	High	Block access

You review the Risky users report and the Risky sign-ins report and perform actions for each user as shown in the following table.

User	Action
User1	Confirm user compromised
User2	Confirm sign-in safe
User3	Dismiss user risk
User2	Confirm user compromised

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer Area**

#### Statements

User1 can sign in by using multi-factor authentication (MFA).

**Yes**

☐

**No**

☐

User2 can sign in by using multi-factor authentication (MFA).

☐
☐

User3 can sign in from an anonymous IP address.

☐
☐

**Answer:**

**Explanation:**

Answer Area		Microsoft	
Statements	Yes	No	
User1 can sign in by using multi-factor authentication (MFA).	<input type="radio"/>	<input checked="" type="radio"/>	
User2 can sign in by using multi-factor authentication (MFA).	<input type="radio"/>	<input checked="" type="radio"/>	
User3 can sign in from an anonymous IP address.	<input type="radio"/>	<input checked="" type="radio"/>	

## NEW QUESTION # 326

.....

We have a team of rich-experienced IT experts who written the valid Microsoft vce braindumps based on the actual questions and checked the updating of SC-300 dumps torrent everyday to make sure the success of test preparation. Before you buy our SC-300 Exam PDF, you can download the demo of free vce to check the accuracy.

**SC-300 Valid Braindumps Free:** [https://www.bootcamppdf.com/SC-300\\_exam-dumps.html](https://www.bootcamppdf.com/SC-300_exam-dumps.html)

Microsoft SC-300 Exam Preview Confronting a tie-up during your review of the exam, Our SC-300 study questions convey more important information with less amount of questions and answers and thus make the learning relaxing and efficient, Getting the SC-300 certification quickly seems to impossible to you, The Microsoft SC-300 practice tests software is also updated if the Microsoft SC-300 certification exam content changes.

Guangwu's idea is to do that over time, The administrator SC-300 can then select a message and click Track Selected Message, Confronting a tie-up during your review of the exam?

Our SC-300 study questions convey more important information with less amount of questions and answers and thus make the learning relaxing and efficient, Getting the SC-300 certification quickly seems to impossible to you.

## Pass Guaranteed Quiz 2026 Reliable Microsoft SC-300: Microsoft Identity and Access Administrator Exam Preview

The Microsoft SC-300 practice tests software is also updated if the Microsoft SC-300 certification exam content changes, To achieve your goals, you should get into action.
