## Unparalleled Exam CMMC-CCP Reference - Find Shortcut to Pass CMMC-CCP Exam

Since our company's establishment, we have devoted mass manpower, materials and financial resources into CMMC-CCP exam materials and until now, we have a bold idea that we will definitely introduce our study materials to the whole world and make all people that seek fortune and better opportunities have access to realize their life value. Our CMMC-CCP Practice Questions, therefore, is bound to help you pass though the exam and win a better future. We will also continuously keep a pioneering spirit and are willing to tackle any project that comes your way.

## Cyber AB Certified CMMC Professional (CCP) Exam Sample Questions (Q67-Q72):

### NEW QUESTION # 67

When a conflict of interest is unavoidable, a CCP should NOT:

- A. Inform their organization
- B. Disclose it to affected stakeholders
- C. Take action to minimize its impact
- **D. Conceal it from the Assessment Team lead**

**Answer: D**

Explanation:

CMMC Assessment Process (CAP) and CMMC Code of Professional Conduct emphasize that conflicts of interest (COI) must be disclosed and managed transparently. A Certified CMMC Professional (CCP) is required to:

- \* Inform their organization,
- \* Disclose the COI to the affected stakeholders, and
- \* Take reasonable steps to minimize the impact.

What they must NOT do is conceal it from the Assessment Team Lead or others. Concealing a COI violates the CMMC Code of Professional Conduct and compromises the integrity of the assessment.

Reference Documents:

- \* CMMC Assessment Process (CAP), v1.0
- \* CMMC Code of Professional Conduct, CMMC-AB

### NEW QUESTION # 68

While conducting a CMMC Level 2 Assessment, the Lead Assessor determines that the OSC has badge readers, pin code pads, and keys for various access points as well as documentation to demonstrate meeting the practice. Which CMMC practice has the OSC MET?

- A. PS.L2-3.9.2: Ensure that organizational systems containing CUI are protected during and after personnel actions such as terminations and transfers
- **B. PE.L1-3.10.5: Control and manage physical access devices**
- C. SI.L2-3.14.3: Monitor system security alerts and advisories and take action in response
- D. MP.L2-3.8.5: Mark media with necessary CUI markings and distribution limitations

**Answer: B**

Explanation:

The presence of badge readers, PIN code pads, and keys directly corresponds to controlling and managing physical access devices, which maps to PE.L1-3.10.5 under the Physical Protection (PE) domain. This practice ensures that only authorized individuals have access to physical areas containing information systems.

The other options address unrelated requirements:

- \* MP.L2-3.8.5 addresses marking CUI media,
- \* SI.L2-3.14.3 addresses monitoring security alerts,
- \* PS.L2-3.9.2 addresses protections during personnel changes.

Reference Documents:

- \* CMMC Model v2.0, Level 1-3 Practices
- \* NIST SP 800-171 Rev. 2, Control PE-3

### NEW QUESTION # 69

Contractor scoping requirements for a CMMC Level 2 Assessment to document the asset in an inventory, in the SSP and on the network diagram apply to:

- A. Contractor Risk Managed Assets and Specialized Assets.
- B. GUI Assets.
- **C. all asset categories except for the Out-of-scope Assets.**
- D. CUI and Security Protection Asset categories.

**Answer: C**

### NEW QUESTION # 70

During the planning phase of a CMMC Level 2 Assessment, the Lead Assessor is considering what would constitute the right evidence for each practice. What is the Assessor attempting to verify?

- A. Process mapping
- B. Adequacy
- C. Assessment scope
- **D. Sufficiency**

**Answer: D**

Explanation:

Understanding Evidence Sufficiency in CMMC Level 2 Assessments During a CMMC Level 2 Assessment, the Lead Assessor must determine whether the evidence collected for each practice is sufficient to support an assessment finding. This aligns with the CMMC Assessment Process (CAP) Guide, which requires assessors to evaluate:

- \* Examinations- Reviewing documents, configurations, and system records.
- \* Interviews- Speaking with personnel to confirm implementation and understanding.
- \* Testing- Observing security controls in action to validate effectiveness.

To determine whether evidence is sufficient, the assessor ensures that it:

- \* Directly supports the assessment objective.
- \* Demonstrates that the practice is consistently implemented.
- \* Can be independently verified.
- \* Sufficiency refers to whether enough evidence has been collected to make an accurate determination about compliance.
- \* Option A (Adequacy) is incorrect because adequacy relates to the quality of evidence, while sufficiency focuses on whether enough evidence exists.
- \* Option C (Process Mapping) is incorrect because process mapping is used for understanding workflows but is not an assessment verification method.
- \* Option D (Assessment Scope) is incorrect because defining the scope happens before evidence collection, during the planning phase.

\* CMMC Assessment Process (CAP) Guide - Section 3.6 (Determining Sufficiency of Evidence)

\* CMMC Level 2 Assessment Guide - Evidence Collection and Evaluation

Why Option B (Sufficiency) is Correct Official CMMC Documentation References Final Verification Since the Lead Assessor is ensuring enough evidence is available to verify compliance, the correct answer is Option B: Sufficiency.

### NEW QUESTION # 71

What type of information is NOT intended for public release and is provided by or generated for the government under a contract to develop or deliver a product or service to the government, but not including information provided by the government to the public (such as on public websites) or simple transactional information, such as necessary to process payments?

- A. CDI
- B. CTI
- **C. FCI**
- D. CUI

**Answer: C**

Explanation:

Understanding Federal Contract Information (FCI) Federal Contract Information (FCI) is defined by 48 CFR 52.204-21 (Basic Safeguarding of Covered Contractor Information Systems). FCI refers to information that:

Is NOT intended for public release.

Is provided by or generated for the government under a contract.

Is necessary to develop or deliver a product or service to the government.

Excludes publicly available government information (such as information on public websites).

Excludes simple transactional information (e.g., necessary to process payments).

In the context of CMMC 2.0, organizations that process, store, or transmit FCI must meet CMMC Level 1 (Foundational), which requires implementing 17 basic safeguarding practices outlined in FAR 52.204-21.

A). CDI (Controlled Defense Information) # Incorrect

This term was used in DFARS 252.204-7012 but has been replaced by CUI (Controlled Unclassified Information) in CMMC discussions.

B). CTI (Cyber Threat Intelligence) # Incorrect

This refers to intelligence on cyber threats, tactics, and indicators, not contractual data.

C). CUI (Controlled Unclassified Information)# Incorrect

CUI is sensitive information requiring additional safeguarding but is a separate category from FCI.

D). FCI (Federal Contract Information)#Correct

The definition of FCI explicitly matches the description given in the question.

Why is the Correct Answer FCI (D)?

FAR 52.204-21 (Basic Safeguarding of Covered Contractor Information Systems) Defines FCI and the required safeguards.

Establishes 17 cybersecurity practices for FCI protection.

CMMC 2.0 Framework

Level 1 (Foundational) is required for contractors handling FCI.

Ensures compliance with basic safeguarding requirements outlined in FAR 52.204-21.

NIST SP 800-171 and DFARS 252.204-7012

FCI does not require compliance with NIST SP 800-171, but CUI does.

CMMC 2.0 References Supporting this Answer

## NEW QUESTION # 72

.....

Before buying our CMMC-CCP exam torrents some clients may be very cautious to buy our CMMC-CCP test prep because they worry that we will disclose their privacy information to the third party and thus cause serious consequences. Our privacy protection is very strict and we won't disclose the information of our clients to any person or any organization. The CMMC-CCP test prep mainly help our clients pass the CMMC-CCP exam and gain the certification. The certification can bring great benefits to the clients. The clients can enter in the big companies and earn the high salary. You may double the salary after you pass the CMMC-CCP Exam. If you own the certification it proves you master the CMMC-CCP quiz torrent well and you own excellent competences and you will be respected in your company or your factory. If you want to change your job it is also good for you.
