

FCSS_NST_SE-7.4 Exam Materials & FCSS_NST_SE-7.4 Latest Test Materials

2026 Latest DumpsMaterials FCSS_NST_SE-7.4 PDF Dumps and FCSS_NST_SE-7.4 Exam Engine Free Share:
https://drive.google.com/open?id=1RU0T1UQoX3M_LR8CTDnRKVa6AatYzf-Z

Our top priority is to help every customer in cracking the FCSS - Network Security 7.4 Support Engineer (FCSS_NST_SE-7.4) test. Therefore, we have created these formats so that every applicant can prepare successfully for the FCSS - Network Security 7.4 Support Engineer (FCSS_NST_SE-7.4) exam on the first attempt. We are aware that the cost for the registration of the Fortinet FCSS_NST_SE-7.4 examination is not what everyone can pay. After paying the hefty FCSS - Network Security 7.4 Support Engineer (FCSS_NST_SE-7.4) test registration fee, applicants usually run on a tight budget. This is why DumpsMaterials provides you with the FCSS - Network Security 7.4 Support Engineer (FCSS_NST_SE-7.4) real questions with up to 1 year of free updates.

DumpsMaterials has many FCSS - Network Security 7.4 Support Engineer (FCSS_NST_SE-7.4) practice questions that reflect the pattern of the real Fortinet FCSS_NST_SE-7.4 exam. DumpsMaterials allows you to create a FCSS - Network Security 7.4 Support Engineer (FCSS_NST_SE-7.4) exam dumps according to your preparation. It is easy to create the FCSS - Network Security 7.4 Support Engineer (FCSS_NST_SE-7.4) practice questions by following just a few simple steps. Our FCSS_NST_SE-7.4 exam dumps are customizable based on the time and type of questions.

Choosing FCSS_NST_SE-7.4 Exam Materials in DumpsMaterials Makes It As Relieved As Sleeping to Pass FCSS - Network Security 7.4 Support Engineer

If you have the certification the exam, you can enter a better company, and your salary will also be doubled. FCSS_NST_SE-7.4 training materials can help you pass the exam and obtain corresponding certification successfully. FCSS_NST_SE-7.4 exam materials are edited by experienced experts, and they possess the professional knowledge for the exam, and you can use it with ease. We have online and offline chat service, they possess the professional knowledge for the exam, and you can consult them any questions that bothers you. We offer you free update for one year for FCSS_NST_SE-7.4 Exam Dumps, and our system will send the latest version to you automatically.

Fortinet FCSS - Network Security 7.4 Support Engineer Sample Questions (Q45-Q50):

NEW QUESTION # 45

Refer to the exhibit, which shows a partial output of the fssod daemon real-time debug command.

```
# diagnose debug application fssod -1
# diagnose debug enable
[fssod_sv.c:save_result:579] event_id=4768, logon=bobby, domain=FSSTO workstation=, ip=10.124.2.90 port=49215, time=1372061722
```

What two conclusions can you draw from the output? (Choose two.)

- A. FSSO is using DC agent mode to detect logon events.
- B. The workstation with IP 10.124.2.90 will be polled frequently using TCP port 445 to see if the user is still logged on.
- C. FSSO is using agentless polling mode to detect logon events.
- D. The logon event can be seen on the collector agent installed on Windows.

Answer: B,C

NEW QUESTION # 46

Refer to the exhibit, which shows a partial output of `diagnose npu np6 port-list` on FortiGate 2000E.

Output of `diagnose npu np6 port-list` on FortiGate 2000E

| Chip | XAUI Ports | Max Speed | Cross-chip offloading |
|-------|------------|-----------|-----------------------|
| np6_1 | 0 | port1 | 1G |
| | 0 | port5 | 1G |
| | 0 | port9 | 1G |
| | 0 | port13 | 1G |
| | 0 | port17 | 1G |
| | 0 | port21 | 1G |

—omitted—

An administrator is unable to analyze traffic flowing between port1 and port17 using the `diagnose sniffer` command. Which two commands allow the administrator to view the traffic? (Choose two.) config firewall policy

- A. `diagnose npu np6 fastpath disable 1`
- B. `set fastpath disable`
`end`
`diagnose npu np6 port-list disable 5 17`
- C. `edit 17`
`set auto-asic-offload disable`
`end`
`config system npu`
- D. `edit 5`
`set auto-asic-offload disable`
`end`
`next`

Answer: A,B

Explanation:

`diagnose npu np6 port-list disable 5 17`

This command disables hardware offloading for traffic on ports 5 (port1) and 17 (port17) of the NP6 processor, ensuring the CPU path is used so that `diagnose sniffer` can capture the packets.

`diagnose npu np6 fastpath disable 1`

Disabling the fastpath on NP6 chip 1 (np6_1) forces all traffic through the regular processing path on that chip, which allows the sniffer to see the packets.

NEW QUESTION # 47

Refer to the exhibit showing a debug output.

```
# diagnose debug application authd 8256
# diagnose debug enable
....
[fsae_server_init_spec:116]: num 1, idx 0, 127.0.0.1:8000 disconnect_server_only
[FSSO]: disconnecting event error[Local FSSO Agent]: error occurred in read: Connection refused
```

An administrator deployed FSSO in DC Agent Mode but FSSO is failing on FortiGate. Pinging FortiGate from where the collector agent is deployed is successful.

The administrator then produces the debug output shown in the exhibit.

What could be causing this error message?

- A. The FortiGate and the collector agent are using different TCP ports.
- B. The FortiGate cannot resolve the active directory server name.
- C. The TCP port 445 is blocked between FortiGate and collector agent.
- D. The collector agent preshared password is mismatched.

Answer: A

NEW QUESTION # 48

Refer to the exhibit, which shows two entries that were generated in the FSSO collector agent logs. What three conclusions can you draw from these log entries? (Choose three.)

```
name_ip_match: failed to connect to workstation: <Workstation Name> (192.168.1.1)
failed to connect to registry: WORKSTATION02 (192.168.12.232)
```

- A. A firewall is blocking traffic to port 139 and 445.
- B. Remote registry is not running on the workstation.
- C. The FortiGate firmware version is not compatible with that of the collector agent.
- D. DNS resolution is unable to resolve the workstation name.
- E. The user's status shows as "not verified" in the collector agent.

Answer: A,B,E

Explanation:

Because the collector can't reach the workstation's registry, that host will remain in a "not verified" state in the FSSO collector agent. A failure to connect to the remote registry almost always means the Remote Registry service on the Windows box is stopped or disabled.

Alternatively (or additionally), a host based or network firewall blocking SMB/RPC ports 139 or 445 will produce exactly this "failed to connect" error.

NEW QUESTION # 49

Exhibit.

```

config system fortiguard
  set protocol udp
  set port 8888
  set load-balance-servers1
  set auto-join-forticloud enable
  set update-server-location any
  set sandbox-region ''
  set fortiguard-anycast disable
  set antispam-force-off disable
  set antispam-cache enable
  set antispam-cache-ttl 1800
  set antispam-cache-mpercent2
  set antispam-timeout 7
  set webfilter-force-off enable
  set webfilter-cache enable
  set webfilter-cache-ttl 3600
  set webfilter-timeout 15
  set sdns-server-ip "208.91.112.220"
  set sdns-server-port 53
  unset sdns-options
  set source-ip 0.0.0.0
  set source-iD6 ::1
  set proxv-server-ip 0.0.0.0
  set proxy-server-port 0
  set proxy-username
  set ddns-server-ip 0.0.0.0
  set d dns-server-port 443
end

```

Refer to the exhibit, which shows a FortiGate configuration.

An administrator is troubleshooting a web filter issue on FortiGate. The administrator has configured a web filter profile and applied it to a policy; however the web filter is not inspecting any traffic that is passing through the policy.

What must the administrator do to fix the issue?

- A. Enable fortiguard-anycast.
- B. Increase webfilter-timeout.
- **C. Disable webfilter-force-off.**
- D. Change protocol to TCP.

Answer: C

NEW QUESTION # 50

.....

DumpsMaterials has a huge Fortinet industry elite team. They all have high authority in the FCSS_NST_SE-7.4 area. They use professional knowledge and experience to provide training materials for people ready to participate in different IT certification exams. The accuracy rate of exam practice questions and answers provided by DumpsMaterials is very high and they can 100% guarantee you pass the exam successfully for one time. Besides, we will provide you a free one-year update service.

FCSS_NST_SE-7.4 Latest Test Materials: https://www.dumpsmaterials.com/FCSS_NST_SE-7.4-real-torrent.html

From the demo questions and the screenshot about the test engine, you can have a basic knowledge of our complete FCSS_NST_SE-7.4 Latest Test Materials - FCSS - Network Security 7.4 Support Engineer training material, If our candidates fail to pass the FCSS_NST_SE-7.4 exam unfortunately, you can show us the failed record, and we will give you a full refund, The design of our FCSS_NST_SE-7.4 guide training is ingenious and delicate.

Without proper capacity planning, it will become overloaded FCSS_NST_SE-7.4 and fail, Please visit the website associated with Introduction to Programming in Python at here, From the demo questions and the screenshot FCSS_NST_SE-7.4 Relevant Answers about the test engine, you can have a basic knowledge of our complete FCSS - Network Security 7.4 Support Engineer training material.

Pass Guaranteed 2026 Trustable FCSS_NST_SE-7.4: FCSS - Network Security 7.4 Support Engineer Exam Materials

If our candidates fail to pass the FCSS_NST_SE-7.4 Exam unfortunately, you can show us the failed record, and we will give you a full refund, The design of our FCSS_NST_SE-7.4 guide training is ingenious and delicate.

Not only can our FCSS_NST_SE-7.4 guide torrent offer the best service for every user with the totally free update for a year, which gets rid of the worries whether customers can acquire the latest learning material, but also almost 100% passing rate is guaranteed, our FCSS_NST_SE-7.4 exam guide is dedicated to helping everyone achieve the success of certification.

About some esoteric points, they illustrate with examples for you.
