NEW QUESTION # 181

Your organization does not permit the use of custom code for solutions.
You need to create a view that can be viewed by all users in an organization.
Where should you create the view?

- A. Maker portal
- B. List view of the entity
- C. Templates area
- D. Microsoft Visual Studio

Answer: A

Explanation:

Edit a public or system view in app designer

You can change the way a public or system view is displayed by adding, configuring, or removing columns.

* In the Views list for a table, select the Show list of references down arrow Drop Down. Edit View.

* Next to the view you want to edit, select Open the View Designer Open view Designer.

The view opens in the view designer.

When you edit a public or system view, you must save and publish your changes before they will be visible in the application.
