Microsoft SC-900 Certification Exam is a relatively new exam, having been introduced in 2020. However, it has quickly gained popularity among IT professionals due to the increasing importance of security, compliance, and identity concepts in today's digital landscape. SC-900 exam is also a great way to prepare for other more advanced security and compliance exams, such as the Microsoft Certified: Azure Security Engineer Associate or the Microsoft Certified: Compliance Administrator Associate exams.

Microsoft SC-900 Exam is an entry-level certification exam that does not have any prerequisites. However, it is recommended that candidates have a basic understanding of cloud computing concepts and familiarity with the Microsoft platform. Microsoft Security Compliance and Identity Fundamentals certification is ideal for professionals who are just starting out in the field of security, compliance, and identity or for those who are looking to enhance their knowledge and skills in these areas. It is also a good starting point for those who are interested in pursuing higher-level certifications in these areas.
