Are you a new comer in your company and eager to make yourself outstanding? Our Category-7A-General-and-Household-Pest-Control exam materials can help you. After a few days' studying and practicing with our products you will easily pass the Category-7A-General-and-Household-Pest-Control examination. God helps those who help themselves. If you choose our Category-7A-General-and-Household-Pest-Control Study Guide, you will find God just by your side. The only thing you have to do is just to make your choice and study. Isn't it very easy? So know more about our Category-7A-General-and-Household-Pest-Control practice engine right now!

If you think you can face unique challenges in your career, you should pass the OCPPE Category-7A-General-and-Household-Pest-Control exam. ITexamReview is a site that comprehensively understand the OCPPE Category-7A-General-and-Household-Pest-Control exam. Using our exclusive online OCPPE Category-7A-General-and-Household-Pest-Control exam questions and answers, will become very easy to pass the exam. ITexamReview guarantee 100% success. ITexamReview is recognized as the leader of a professional certification exam, it provides the most comprehensive certification standard industry training methods. You will find that ITexamReview OCPPE Category-7A-General-and-Household-Pest-Control Exam Questions And Answers are most thorough and the most accurate questions on the market and up-to-date practice test. When you have ITexamReview OCPPE Category-7A-General-and-Household-Pest-Control questions and answers, it will allow you to have confidence in passing the exam the first time.

100% Pass 2026 Category-7A-General-and-Household-Pest-Control: Unparalleled New Pesticide Applicator Category 7A General and Household Pest Control Exam Dumps Questions

You may urgently need to attend Category-7A-General-and-Household-Pest-Control certificate exam and get the certificate to prove you are qualified for the job in some area. If you buy our Category-7A-General-and-Household-Pest-Control study materials you will pass the test almost without any problems. Our Category-7A-General-and-Household-Pest-Control study materials boost high passing rate and hit rate so that you needn't worry that you can't pass the test too much. We provide free tryout before the purchase. To further understand the merits and features of our Category-7A-General-and-Household-Pest-Control Practice Engine you could look at the introduction of our product in detail.

OCPE Pesticide Applicator Category 7A General and Household Pest Control Exam Sample Questions (Q18-Q23):

NEW QUESTION # 18

The yellow jacket is a:

- A. Ant with wings
- B. Social bee usually nesting in trees
- C. Social wasp usually nesting in the ground
- D. Solitary wasp nesting in the ground

Answer: C

Explanation:

Yellow jackets are social wasps that typically nest in the ground, often in abandoned rodent burrows or other cavities. They live in colonies with a queen and workers, as described in the General Pest Management: Guide for Commercial Applicators - Category 7A (Chapter 7: Wasps). Option B (social bee) is incorrect, as yellow jackets are wasps, not bees, and they do not typically nest in trees. Option C (solitary wasp) is incorrect, as yellow jackets are social. Option D (ant with wings) is incorrect, as yellow jackets are distinct from ants.

NEW QUESTION # 19

The ___ stage of the flea feeds on blood.

- A. Adult
- B. Egg and larva
- C. Adult and larva

Answer: A

Explanation:

Only the adult stage of a flea feeds on blood, typically from a host like a pet or human. Flea larvae feed on organic debris and flea feces (dried blood), not directly on blood. The General Pest Management: Guide for Commercial Applicators - Category 7A (Chapter 7: Fleas) details this life cycle. Option B (adult and larva) is incorrect, as larvae do not feed on blood. Option C (egg and larva) is incorrect, as eggs are non-feeding, and larvae do not consume blood.

NEW QUESTION # 20

When used in integrated bed bug elimination programs, TEMPRID:

- A. Efficacy is affected by heat treatments
- B. Applications cannot be made prior to heat treatments
- C. Efficacy is not affected by heat treatment; therefore TEMPRID can be applied before heat treatments

Answer: C

Explanation:

TEMPRID SC's efficacy is not affected by heat treatments, as its active ingredients (imidacloprid and beta-cyfluthrin) remain stable under high temperatures used in bedbug heat treatments. The TEMPRID SC label and the General Pest Management: Guide for

Commercial Applicators - Category

7A(Chapter 7: Bedbugs) confirm that TEMPRID can be applied before heat treatments as part of an integrated approach, as heat drives bedbugs out of hiding, increasing their contact with the pesticide.

Option A (cannot be made prior to heat treatments) is incorrect, as the label allows this. Option B (efficacy affected by heat) is incorrect, as TEMPRID's performance is not diminished by heat.

NEW QUESTION # 21

___ sprayer is suggested for use in cracks and crevices.

- A. Thermal fogger
- B. Cold fogger
- C. Handheld compressed air

Answer: C

Explanation:

For cracks and crevices, a handheld compressed air sprayer is recommended because it allows precise application of pesticide into small, hard-to-reach areas where pests like roaches or ants hide. The General Pest Management: Guide for Commercial Applicators - Category 7A(Chapter 5: Pesticide Application) notes that these sprayers are ideal for targeted treatments in household pest control.

Option B (cold fogger) and Option C (thermal fogger) are used for larger areas or space treatments, not precise crack-and-crevice applications.

NEW QUESTION # 22

Which answer best completes the following statement?

At multi-family residences, if the specific date of application is requested by ___ it must be given.

- A. The contracting party only
- B. Tenants and/or the contracting party
- C. OPRA

Answer: B

Explanation:

NJDEP regulations (N.J.A.C. 7:30-9.13) require that the specific date of pesticide application at multi-family residences be provided if requested by tenants and/or the contracting party (e.g., property manager). This ensures transparency for those directly affected by the application. Option A (contracting party only) is too restrictive, as tenants have a right to know. Option C (OPRA) refers to the Open Public Records Act, which is not relevant to this specific notification requirement.

NEW QUESTION # 23

.....

As long as you buy our Category-7A-General-and-Household-Pest-Control practice materials and take it seriously consideration, we can promise that you will pass your Category-7A-General-and-Household-Pest-Control exam and get your certification in a short time.
