

# Reliable JN0-460 Exam Preparation, Valid JN0-460 Exam Cram

DOWNLOAD the newest Pass4training JN0-460 PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1W7Iuf8CUBL1CWNLTFKaksWm2KTX4vS68>

In order to allow our customers to better understand our JN0-460 quiz prep, we will provide clues for customers to download in order to understand our JN0-460 exam torrent in advance and see if our products are suitable for you. As long as you have questions, you can send us an email and we have staff responsible for ensuring 24-hour service to help you solve your problems. If you use our JN0-460 Exam Torrent, we will provide you with a comprehensive service to overcome your difficulties and effectively improve your ability. If you can take the time to learn about our JN0-460 quiz prep, I believe you will be interested in our products. Our learning materials are practically tested, choosing our JN0-460 exam guide, you will get unexpected surprise.

Do you want to pass your exam with the least time? Our JN0-460 learning materials are high-quality, and you just need to spend 48 to 72 hours on learning, you can pass the exam successfully. What's more, free demo for JN0-460 exam dumps is available, and you can have a try before buying, so that you can have a deeper understanding of what you are going to buy. If you fail to pass the exam by using JN0-460 Exam Braindumps, we will give you full refund, and no other questions will be asked. We have online and offline chat service, and if you any questions for JN0-460 training materials, you can have a conversation with us.

## Juniper - High Pass-Rate Reliable JN0-460 Exam Preparation

We decided to research because we felt the pressure from competition. We must also pay attention to the social dynamics in the process of preparing for the JN0-460 exam. Experts at our JN0-460 simulating exam have been supplementing and adjusting the content of our products. So our JN0-460 Exam Questions are always the most accurate and authoritative. At the same time, our professional experts keep a close eye on the updating the JN0-460 study materials. That is why our JN0-460 training prep is the best seller on the market.

## Juniper Mist AI Wired, Specialist (JNCIS-MistAI-Wired) Sample Questions (Q53-Q58):

### NEW QUESTION # 53

Referring to the exhibit, what is the purpose of the Save button in the upper-right corner of the Mist dashboard?

- A. It previews the impact of the port configuration changes before applying them.

- B. It generates a backup of the current port configuration.
- C. It applies the port configuration changes to the switch.
- D. It resets the port configuration to its default settings.

**Answer: C**

Explanation:

In the Juniper Mist AI for Wired dashboard, administrators can select one or more switch ports (as shown in the exhibit, e.g., port ge-0/0/25 on an EX4100-48MP). Once configuration changes are made - such as VLAN assignment, port profiles, PoE settings, or administrative state - the Save button must be clicked to confirm and apply those changes to the device.

"When making configuration changes in the Mist switch interface, the Save button must be used to confirm the modifications.

Clicking Save applies the selected port settings to the switch through Mist Cloud." Option A is incorrect: saving does not create a backup. Backups and snapshots are handled through Mist's configuration archive, not via the Save button.

Option B is incorrect: Save does not reset configuration; instead, it commits changes.

Option C is incorrect: there is no preview function tied to Save.

Option D is correct: the Save button is explicitly for applying configuration changes to the selected switch or port(s).

## NEW QUESTION # 54

Which three steps should be part of the campus fabric deployment? (Choose three.)

- A. Define the physical connections.
- B. Configure the group-based policy (GBP) tag.
- C. Configure the DNS server.
- D. Choose the topology.
- E. Define the networks of interest.

**Answer: A,D,E**

Explanation:

According to the Juniper Mist AI for Wired - Campus Fabric IP Clos Deployment Workflow, deploying a campus fabric involves a defined sequence of planning and configuration steps within the Mist Cloud interface. The key stages include:

"To deploy a campus fabric, you must first define the topology type, identify the physical connections between devices, and define the networks of interest that will be extended across the fabric." Breaking this down:

Choose the topology (D): Selecting the correct fabric type (3-Stage or 5-Stage IP Clos) determines how access, distribution, and core switches will interconnect.

Define the physical connections (A): This step involves specifying the uplink and downlink relationships between switches so that Mist can auto-generate EVPN-VXLAN and routing configurations.

Define the networks of interest (E): These are the VLANs and subnets that need to be extended across the fabric for user and device connectivity.

Steps such as configuring DNS servers or defining GBP tags are not part of the campus fabric deployment workflow in Mist Wired; they are optional or separate configurations outside the main deployment flow.

## NEW QUESTION # 55

Which two statements are correct about adding CLI commands to the "Additional CLI Commands" input box on the switch configuration page? (Choose two.)

- A. To remove the command you must change the actual command from 'set' to 'delete'
- B. The commands are only applied the first time the configuration is saved.
- C. To remove the command from the switch, delete the command from the input box.
- D. The commands are applied to the switch every time the configuration is saved.

**Answer: A,D**

#### NEW QUESTION # 56

When deploying EVPN, which method of forwarding BUM traffic is supported by Mist?

- A. core-only replication
- B. underlay replication
- C. copy-on-write
- **D. ingress replication**

**Answer: D**

#### NEW QUESTION # 57

Which statement is correct about the Switch Insights section?

- A. The Switch Insights feature is only available for EX Series switches.
- **B. A user can view traffic per port on this page.**
- C. Only the top five switch events are available on this page.
- D. Users can rollback to a previously known configuration from this page.

**Answer: B**

Explanation:

The Switch Insights section in the Mist dashboard provides detailed switch telemetry, including interface statistics, port utilization, client count, and traffic analysis. It allows administrators to view real-time and historical traffic per port, identify top talkers, and detect anomalies.

"The Switch Insights page displays real-time and historical data such as traffic per port, PoE usage, connected clients, and interface errors for every switch managed by Mist." Option A: Correct - port-level traffic and utilization metrics are visible in Switch Insights.

Option B: Incorrect - available for all Mist-managed switches (EX and supported QFX).

Option C: Incorrect - displays complete event history, not limited to five events.

Option D: Incorrect - configuration rollback is done via the configuration history section, not Switch Insights.

#### NEW QUESTION # 58

.....

After years of operation, our platform has accumulated a wide network of relationships, so that we were able to learn about the changes in the exam at the first time. This is a benefit that students who have not purchased JN0-460 exam guide can't get. The team of experts hired by Mist AI Wired, Specialist (JNCIS-MistAI-Wired) study questions constantly updates and supplements the contents of study materials according to the latest syllabus and the latest industry research results. We also have dedicated staff to maintain JN0-460 Exam Material every day, and you can be sure that compared to other test materials on the market, Mist AI Wired, Specialist (JNCIS-MistAI-Wired) study questions are the most advanced. With JN0-460 exam guide, there will not be a situation like other students that you need to re-purchase guidance materials once the syllabus has changed. JN0-460 exam material not only helps you to save a lot of money, but also let you know the new exam trends earlier than others.
