## NEW QUESTION # 26

Which transformation journey is the right one for new SAP ERP customers?

- A. ACCELERATE with SAP journey
- B. RISE with SAP journey
- C. GROW with SAP journey
- D. ACTIVATE with SAP journey

**Answer: C**

Explanation:

The question asks which transformation journey is appropriate for new SAP ERP customers, meaning organizations that are adopting SAP ERP for the first time or have minimal prior SAP experience. According to official SAP documentation and the provided search results, GROW with SAP is the transformation journey specifically designed for new SAP ERP customers, particularly midmarket businesses or those seeking a rapid, standardized implementation of SAP S/4HANA Cloud, public edition. This makes Option C the correct answer.

Explanation of Correct answer:

Option C: GROW with SAP journey

This is correct because GROW with SAP is tailored for new SAP ERP customers, offering a streamlined, cloud-based journey to adopt SAP Business Suite, specifically SAP S/4HANA Cloud, public edition. It provides preconfigured best practices, a prescriptive methodology, and partner expertise to accelerate implementation, making it ideal for organizations starting fresh with SAP or those with simpler ERP needs. The Showcasing the Path for Customers to Adopt SAP Business Suite lesson on [learning.sap.com](https://learning.sap.com) states: "GROW with SAP supports new ERP customers in starting with SAP Business Suite, driving SAP's future growth alongside theirs. New customers always start with the public cloud. This journey provides an ever-green SAP Business Suite, always on the latest version and innovations." [learning.sap.com](https://learning.sap.com) The GROW with SAP journey is designed to help midmarket businesses or new SAP adopters modernize their ERP landscape quickly, leveraging SAP Cloud ERP and SAP Business Technology Platform (BTP) for scalability and efficiency. The How to Get Started With GROW with SAP Journey article from [datalark.com](https://datalark.com) further elaborates: "GROW with SAP is a digital transformation journey tailored to help mid-market businesses that aspire to enhance operational efficiency. ... Customers purchase one of the new SAP Business Suite packages (e.g., SAP Finance Base), then expand by adding further lines of business. ... GROW with SAP allows mid-market businesses to streamline their ERP journey to SAP Business Suite implementation." [datalark.com](https://datalark.com) Key features of GROW with SAP include standardized workflows, prebuilt content, and the SAP Activate methodology, which ensure a fast time-to-value without the complexities of legacy system migrations. This journey is particularly suited for greenfield implementations, where customers can start with a clean core and adopt cloud-native innovations like SAP Business AI from the outset.

Explanation of Incorrect Answers:

Option A: RISE with SAP journey

This is incorrect because RISE with SAP is designed for existing SAP ERP customers, particularly those with complex, on-premise landscapes (e.g., SAP ECC or SAP S/4HANA on-premise) looking to transition to the cloud, either via SAP S/4HANA Cloud, private edition or public edition. It is not tailored for new SAP customers who lack an existing SAP ERP footprint. The RISE with SAP page on [www.sap.com](https://www.sap.com) states:

"RISE with SAP is a guided transformation journey designed for SAP ERP customers to quickly realize the full potential of Business Suite, supported by proven methodologies, advanced tools, and expert guidance.

RISE with SAP is tailored for existing SAP ERP customers, enabling them to transition seamlessly from on-premises ERP to Business Suite while modernizing their processes and infrastructure at their own pace." [sap.com](https://www.sap.com)

The focus on legacy system modernization and complex transformations makes RISE with SAP unsuitable for new customers starting with a clean slate.

Option B: ACTIVATE with SAP journey

This is incorrect because SAP Activate is not a transformation journey but a methodology used within transformation journeys like RISE with SAP and GROW with SAP. It provides a structured framework, templates, and best practices for implementing SAP solutions, but it is not a standalone customer-facing journey. The GROW with SAP article from data.lark.com notes:

"Speed up deployment with SAP Activate. This methodology includes templates, project timelines, and best practices to ensure a smooth implementation." data.lark.com Since SAP Activate is a toolset rather than a journey, it cannot be the correct choice for new SAP ERP customers.

Option D: ACCELERATE with SAP journey

This is incorrect because there is no transformation journey called ACCELERATE with SAP in SAP's official offerings. The term "accelerate" may be used in marketing materials to describe the speed of transformation (e.g., in RISE with SAP or GROW with SAP methodologies), but it is not a distinct journey. The provided search results and SAP documentation, including Positioning SAP Business Suite on learning.sap.com, do not reference an ACCELERATE with SAP journey, confirming that this is a fictitious option.

Summary:

The appropriate transformation journey for new SAP ERP customers is the GROW with SAP journey, as stated in Option C. This journey is designed for greenfield implementations, particularly for midmarket businesses or those new to SAP, providing a fast, standardized path to SAP S/4HANA Cloud, public edition within SAP Business Suite. Option A (RISE with SAP) is for existing SAP customers with legacy systems, Option B (ACTIVATE with SAP) is a methodology, not a journey, and Option D (ACCELERATE with SAP) does not exist. This aligns with SAP's strategy to support new customers with a cloud-native, scalable ERP solution, as validated by the provided search results and official documentation.
