Mock 300-610 Exams - Latest 300-610 Test Labs

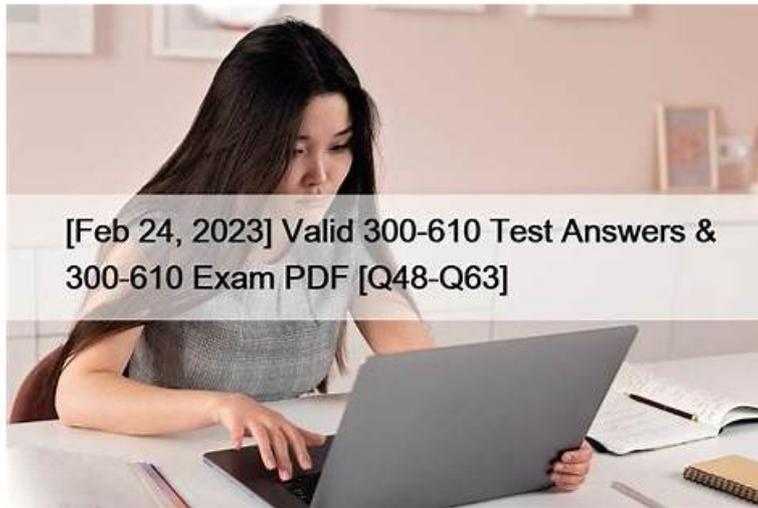

What's more, part of that Prep4away 300-610 dumps now are free: https://drive.google.com/open?id=1L2McNVvgSA1PA04HtT5L9FhS3xyiE-VI

The Cisco 300-610 Certification Exam gives you a chance to develop an excellent career. Prep4away provides latest Study Guide, accurate answers and free practice can help customers success in their career and with excellect pass rate. Including 365 days updates.

Career Prospects

Passing the Cisco 300-610 exam is always a challenge, especially when the associated certification is on the line. Therefore, choose the training tool that suits you best and start mastering the Data Center Infrastructure field. This will help you complete the test with flying colors and also kickstart your professional development. This means that you can become a Data Center Technician, a Data Center Engineer, a Technical Marketing Engineer, or a Customer Delivery Consulting Engineer. With the CCNP Data Center certificate on your resume, your average annual salary can be about $79,760, according to the ZipRecruiter website.

To prepare for the Cisco 300-610 Exam, candidates can take advantage of a variety of resources, including study guides, practice exams, and online training courses. Cisco offers a range of training options for candidates, including instructor-led training, e-learning, and virtual labs. Candidates can also find a wealth of study materials and practice exams online, as well as forums and discussion groups where they can connect with other IT professionals who are preparing for the exam.

100% Pass Quiz 2026 Unparalleled Cisco Mock 300-610 Exams

Our company concentrates on relieving your pressure of preparing the 300-610 exam. Getting the certificate equals to embrace a promising future and good career development. Perhaps you have heard about our 300-610 exam question from your friends or news. Why not has a brave attempt? You will certainly benefit from your wise choice. Now our 300-610 practice materials have won customers' strong support. Our sales volume is increasing every year. The great achievements benefit from our enormous input. First of all, we have done good job on researching the new version of the 300-610 exam question.

Cisco Designing Cisco Data Center Infrastructure Sample Questions (Q37-Q42):

NEW QUESTION # 37
What is the disadvantage of asynchronous storage replication as compared to synchronous storage replication in a disaster recovery design?

- A. potential data loss
- B. reduction in application performance

- C. distance limitations
- D. specific backup requirements

Answer: A

Explanation:
Section: Storage Network Design
Explanation/Reference: https://www.evidian.com/products/high-availability-software-for-application-clustering/synchronous-replication-vs-asynchronous-replication/

NEW QUESTION # 38

Refer to the exhibit. Due to power limitations at the customer data center, the engineering team must decommission one of the modular switches. In the new design, the customer must ensure that the OSPF process is fully protected on the remaining switch and minimize OSPF flapping in case of any module failure. Which solution fulfills the requirements for the new design?

- A. graceful restart
- B. routing summarization
- C. OSPF area separation
- D. LSA aging timer change

Answer: B

NEW QUESTION # 39

An engineer must design Layer 2 connectivity for a subnet between two data centers. The engineer must ensure seamless host mobility and optimal first-hop routing.
Which attribute must be synchronized across all data centers to achieve this goal?

- A. DCNM to manage both fabrics
- B. anycast gateway MAC
- C. multicast group
- D. NX-OS version

Answer: B

NEW QUESTION # 40

Refer to the exhibit. A Cisco engineer is configuring a Cisco UCS integrated infrastructure for SAP HANA that consists of 8 x Cisco UCS B/C480-M5 servers for SAP HANA and 4 x Cisco UCS C240-M5 C-Series rack mount servers for storage. The rack servers are equipped with Cisco VIC
1225T. The engineer plans to install RHEL8, but the boot process is interrupted at installation because the iSCSI LUNs are not recognized by the VIC adapter. After proper investigation, the engineer concludes that the initiator and target configuration that is programmed on the primary iSCSI VNIC to the operating system is missing. What is the reason for the issue?

- A. The storage system is not reachable
- B. The boot parameter ip=ibft is not set
- C. The Linux ISO image is not Cisco approved
- D. The network interfaces are not configured

Answer: B

NEW QUESTION # 41

Refer to the exhibit. FCoE is used in the topology between the SAN Storage devices and SAN-Core routers. After noticing traffic drops to hosts accessing SAN-B storage, the engineering team wants to reduce the oversubscription ratio in the topology. Which action must the team take?

- A. Configure QoS to prioritize SAN-A traffic
- B. Configure QoS to prioritize SAN-B traffic.
- C. Increase the bandwidth between the SAN-Coro and SAN-Edgo devices.
- D. Increase the bandwidth between SAN-A and SAN-B Storage toward the SAN-Core devices.

Answer: C

NEW QUESTION # 42

......

It is the right time to advance your professional career. You can do this easily after passing the Designing Cisco Data Center Infrastructure 300-610 certification exam. To pass the Cisco 300-610 exam the Cisco 300-610 Exam Practice test questions are the right choice. The updated and real Cisco Dumps are ready for download. Just download and start preparation.
