100% Pass Quiz 2026 Realistic Juniper New JN0-363 Dumps Free

The PrepAwayETE acknowledges that Juniper aspirants are continuously juggling a couple of responsibilities, so JN0-363 questions are ideal for short practise. Candidates can access those questions everywhere and at any time, the usage of any clever device,

which allows them to examine at their very own tempo. The JN0-363 Questions are portable and you can also print them

Juniper Service Provider Routing and Switching, Specialist (JNCIS-SP) Sample Questions (Q32-Q37):

NEW QUESTION # 32

Click the Exhibit.

```
[edit routing-options static]
user@router# show
route 0.0.0/0 next-hop 10.0.1.1;
route 192.168.5.0/24{
  qualified-next-hop 172.16.1.2{
    preference 8;
    metric 5;
  }
  qualified-next-hop 172.16.1.3 {
    preference 5;
    metric 8;
  }
}
```

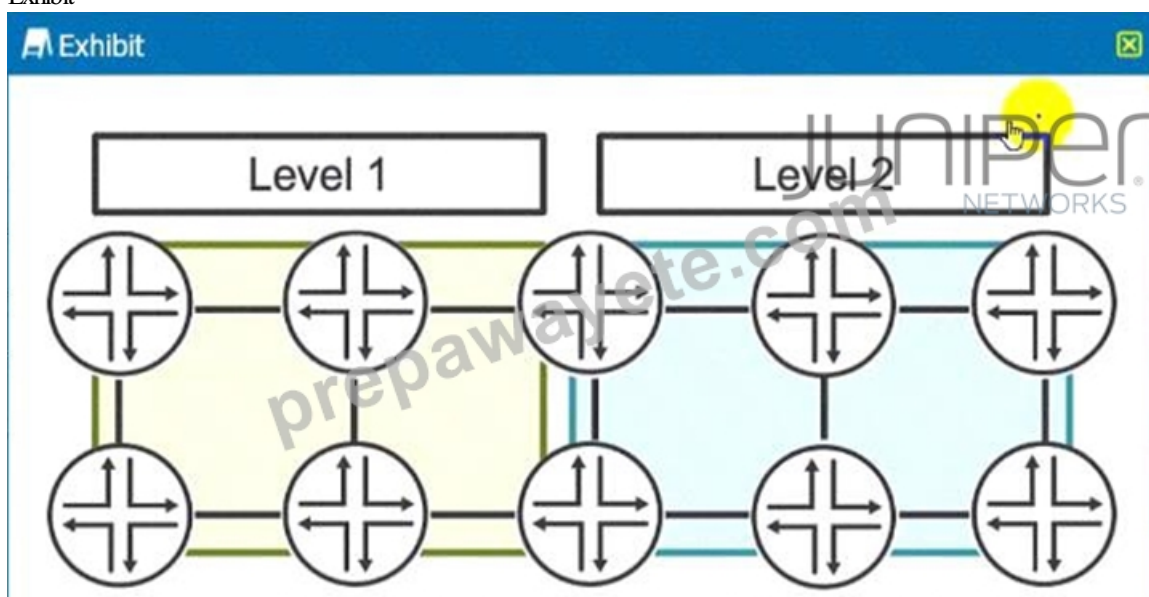

Referring to the configuration shown in the exhibit, which statement is true?

- A. Traffic destined to address 192.168.5.1 will take next-hop 10.0.1.1.
- **B. Traffic destined to address 192.168.5.1 will take next-hop 172.16.1.3.**
- C. Traffic destined to address 192.168.5.1 will alternate between next-hops 172.16.1.2 and 172.16.1.3
- D. Traffic destined to address 192.168.5.1 will take next-hop 172.16.1.2.

Answer: B

NEW QUESTION # 33

Exhibit

Referring to the exhibit, which two statements are correct? (Choose two.)

- A. Prefixes in Level 2 will be not redistributed to Level 1.
- B. Prefixes in Level 1 will be redistributed to Level 2.
- C. Prefixes in Level 1 will not be redistributed to Level 2.
- D. Prefixes in Level 2 will be redistributed to Level 1.

Answer: B,D

Explanation:

In IS-IS, Level 1 routes are usually contained within the same area and Level 2 routes are used to interconnect different areas. By default, routes from Level 1 are redistributed into Level 2, and vice versa, to ensure reachability between areas.

References

Juniper Networks Technical Documentation on IS-IS

By default, IS-IS protocol leaks routing information from a Level 1 area to a Level 2 area. However, to leak routing information from a Level 2 area to a Level 1 area, an export policy must be explicitly configured.

NEW QUESTION # 34

You want to share routes between two routing instances that you have configured?

What are two ways to accomplish this task? (Choose two.)

- A. Create a forwarding instance.
- B. Configure an instance import policy
- C. Use a non-forwarding instance.
- D. Use a RIB group.

Answer: B,D

Explanation:

static route with a next-hop of next-table pointing to the appropriate routing table which contains more accurate information rib-groups to mirror routing information from one route-table to another. However, in many cases, in order to make this work, interface-routes also need to be mirrored. RIB Group policy can be used to constrain the routing information instance-import and instance-export statements configured within the individual routing-instances to leak routes from one table to another. Again, policy can be used here to constrain the routing information. This method is more straightforward than the rib-group method A final approach is to use physical interfaces or logical-tunnels to stitch routing-instances and use a routing protocol or static routes across this connection between the two routing-instances.

To share routes between two routing instances on a Junos device, you can configure an instance import policy in one or both instances to import routes from the other instance. Alternatively, a RIB (Routing Information Base) group can be used to share routes between instances.

Reference::

Routing Instances Overview, Juniper Networks Documentation

RIB Groups Configuration Guide, Juniper Networks Documentation

NEW QUESTION # 35

Referring to the exhibit, you have an established RSVP LSP between R1 and R4 when you experience a link failure between R2 and R3. Which two statements are correct? (Choose two.)

- A. R2 sends a PathTear message upstream to R1 signaling the link failure.
- B. R3 sends a ResvTear message downstream to R4 signaling the link failure.
- C. R3 sends a PathTear message downstream to R4 signaling the link failure.
- D. R2 sends a ResvTear message upstream to R1 signaling the link failure.

Answer: C,D

NEW QUESTION # 36

Exhibit.

The screenshot shows a Juniper router configuration window titled "Exhibit". It displays the configuration for an aggregate route. The configuration is as follows:

```
[edit routing-options]
user@router# show
aggregate {
  route 172.21.0.0/22;
}

[edit routing-options]
user@router# run show route protocol aggregate

inet.0: 21 destinations, 21 routes (20 active, 0 holdown, 1 hidden)
inet6.0: 10 destinations, 10 routes (10 active, 0 holdown, 0 hidden)

[edit routing-options]
user@router# run show route hidden

inet.0: 21 destinations, 21 routes (20 active, 0 holdown, 1 hidden)
+ = Active Route, - = Not Active, * = Both
172.21.0.0/22      [Aggregate] 00:12:09
                   Reject
inet6.0: 10 destinations, 10 routes (10 active, 0 holdown, 0 hidden)
```

Referring to the exhibit, you have configured an aggregate route that represents the 172.21.0.0/24, 172.21.1.0/24, and 172.21.2.0/24 networks. However, when you view the routing table, your new route hidden.

Which action would you perform to determine the problem?

- A. Verify that you have defined a metric value for the aggregate route.
- B. Verify that you have active contributing routes on the device.
- **C. Verify that you have set the preference to a lower default value.**
- D. Verify that you have configured a policy on the device to accept aggregate routes.

Answer: C

NEW QUESTION # 37

.....

Our Service Provider Routing and Switching, Specialist (JNCIS-SP) test torrent has been well received and have reached 99% pass rate with all our dedication. As a powerful tool for a lot of workers to walk forward a higher self-improvement, our JN0-363 certification training continued to pursue our passion for advanced performance and human-centric technology. Only 20-30 hours are needed for you to learn and prepare our JN0-363 test questions for the exam and you will save your time and energy. No matter you are the students or the in-service staff you are busy in your school learning, your jobs or other important things and can't spare much time to learn. But you buy our JN0-363 Exam Materials you will save your time and energy and focus your attention mainly on your most important thing. You only need several hours to learn and prepare for the exam every day.
