EC-COUNCIL EC-Council Certified CISO (CCISO) Sample Questions (Q51-Q56):

NEW QUESTION # 51
When would it be more desirable to develop a set of decentralized security policies and procedures within an enterprise environment?

- A. When it results in an overall lower cost of operating the security program.
- B. When there is a variety of technologies deployed in the infrastructure.
- C. When there is a need to develop a more unified incident response capability.
- D. When the enterprise is made up of many business units with diverse business activities, risks profiles and regulatory

Answer: D

Explanation:
When Decentralized Policies Are Beneficial:
* In organizations with varied business units, a one-size-fits-all approach may not be effective.
Decentralized policies allow tailoring to specific risks, operations, and regulatory demands of individual units.
Advantages of Decentralization:
* Greater flexibility to meet unit-specific needs.
* Improved compliance with diverse regulatory environments.
Why Other Options Are Incorrect:
* A. Unified Incident Response: Requires centralized, not decentralized, coordination.
* C. Technology Variety: Centralized policies ensure consistency in handling diverse technologies.
* D. Cost Efficiency: Decentralization may lead to higher costs due to duplication of efforts.
References:
EC-Council supports decentralization in cases where organizational diversity necessitates tailored policies and procedures for effective risk management.

NEW QUESTION # 52
Which of the following most commonly falls within the scope of an information security governance steering committee?

- A. Interviewing candidates for information security specialist positions
- B. Vetting information security policies
- C. Approving access to critical financial systems
- D. Developing content for security awareness programs

Answer: B

Explanation:
Role of Governance Steering Committees:Information security governance steering committees oversee the creation, approval, and maintenance of security policies. They ensure that policies align with organizational objectives and regulatory requirements.
Policy Vetting as a Core Function:
* Ensures policies are comprehensive, relevant, and enforceable.
* Addresses the balance between security and operational efficiency.
Why Other Options Are Incorrect:
* A. Approving Access: This is typically handled by access control processes or data owners.
* B. Security Awareness Programs: Content development is operational, not governance.
* C. Interviewing Candidates: Staffing decisions are usually outside the committee's scope.
References:EC-Council underscores policy governance as a fundamental responsibility of information security steering committees

NEW QUESTION # 53
The process of identifying and classifying assets is typically included in the_____.

- A. Threat analysis process
- B. Asset configuration management process
- C. Disaster Recovery plan
- D. Business Impact Analysis

Answer: D

NEW QUESTION # 54
SCENARIO: A CISO has several two-factor authentication systems under review and selects the one that is most sufficient and least costly. The implementation project planning is completed and the teams are ready to implement the solution. The CISO then discovers that the product it is not as scalable as originally thought and will not fit the organization's needs.
The CISO is unsure of the information provided and orders a vendor proof of concept to validate the system's scalability. This demonstrates which of the following?

- A. A methodology-based approach to ensure authentication mechanism functions
- B. An approach providing minimum time impact to the implementation schedules
- C. An approach that allows for minimum budget impact if the solution is unsuitable
- D. A risk-based approach to determine if the solution is suitable for investment

Answer: D

NEW QUESTION # 55
What is the primary reason for performing a return on investment analysis?

- A. To decide between multiple vendors
- B. To decide is the solution costs less than the risk it is mitigating
- C. To determine the current present value of a project
- D. To determine the annual rate of loss

Answer: B

NEW QUESTION # 56
......
