To advance your career, take the Designing Microsoft Azure Infrastructure Solutions exam. Your Designing Microsoft Azure Infrastructure Solutions demonstrates your commitment to lifelong learning. Passing the Designing Microsoft Azure Infrastructure Solutions exam in one sitting is not a walk in the park. The Microsoft AZ-305 exam preparation process takes a lot of time and effort. You have to put time and money into passing the Designing Microsoft Azure Infrastructure Solutions exam. The best method to reap the rewards of your investment in becoming an Microsoft Horizon & Microsoft is by using Microsoft AZ-305 Exam Questions. Additionally, you can confidently study for the AZ-305 exam.

With the rapid development of the world economy and frequent contacts between different countries, looking for a good job has become more and more difficult for all the people. So it is very necessary for you to get the AZ-305 certification, you have to increase your competitive advantage in the labor market and make yourself distinguished from other job-seekers. Our AZ-305 Exam Questions can help you make it. As the most professional AZ-305 study guide, we have helped numerous of our customer get a better career and live a better life now.

AZ-305 Accurate Test - Key AZ-305 Concepts

Our AZ-305 study prep is classified as three versions up to now. All these versions of our AZ-305 exam braindumps are popular and priced cheap with high quality and accuracy rate. They achieved academic maturity so that their quality far beyond other practice materials in the market with high effectiveness and more than 98 percent of former candidates who chose our AZ-305 Practice Engine win the exam with their dream certificate.

Microsoft Designing Microsoft Azure Infrastructure Solutions Sample Questions (Q145-Q150):

NEW QUESTION # 145

Hotspot Question

You have an Azure subscription that contains an Azure Data Lake Storage Gen2 account named storage1. Storage1 contains semi-structured sales data in Parquet files.

You ingest, transform, analyze, and visualize the sales data daily. During the transformations, the data is referenced against Microsoft Dataverse and consumed by Microsoft Power BI.

You need to deploy a new a data integration and analysis solution in Microsoft Fabric. The solution must meet the following requirements:

- Minimize the duplication of data.

- Minimize how long it takes to generate reports in Power BI.

What should you use to reference the Dataverse data and consume the transformed data from Power BI? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Reference the Dataverse data:

- Direct Lake
- A OneLake shortcut
- A SQL analytics endpoint

Consume the transformed data from Power BI:

- Direct Lake
- A OneLake shortcut
- A SQL analytics endpoint

Answer:

Explanation:

Answer Area

Reference the Dataverse data:

- Direct Lake
- A OneLake shortcut
- A SQL analytics endpoint

Consume the transformed data from Power BI:

- Direct Lake
- A OneLake shortcut
- A SQL analytics endpoint

Explanation:

Box 1: A OneLake shortcut

Link your Dataverse environment to Microsoft Fabric and unlock deep insights With shortcuts from Dataverse directly into OneLake, your data stays in Dataverse while authorized users get to work with data in Fabric.

Box 2: A SQL analytics endpoint

Work with Dataverse data and generate Power BI reports

You can work with Dataverse data in Fabric and generate reports in Power BI.

NEW QUESTION # 146

You have an Azure subscription that contains the SQL servers shown in the following table.

Name	Resource group	Location
SQLsvr1	RG1	East US
SQLsvr2	RG2	West US

The subscription contains the storage accounts shown in the following table.

Name	Resource group	Location	Account kind
storage1	RG1	East US	StorageV2 (general purpose v2)
storage2	RG2	Central US	Blob Storage

You create the Azure SQL databases shown in the following table.

Name	Resource group	Server	Pricing tier
SQLdb1	RG1	SQLsvr1	Standard
SQLdb2	RG1	SQLsvr1	Standard
SQLdb3	RG2	SQLsvr2	Premium

Answer Area

Statements	Yes	No
When you enable auditing for SQLdb1, you can store the audit information to storage1.	<input type="radio"/>	<input type="radio"/>
When you enable auditing for SQLdb2, you can store the audit information to storage2.	<input type="radio"/>	<input type="radio"/>
When you enable auditing for SQLdb3, you can store the audit information to storage2.	<input type="radio"/>	<input type="radio"/>

Answer:

Explanation:

Answer Area

Statements	Yes	No
When you enable auditing for SQLdb1, you can store the audit information to storage1.	<input checked="" type="radio"/>	<input type="radio"/>
When you enable auditing for SQLdb2, you can store the audit information to storage2.	<input type="radio"/>	<input checked="" type="radio"/>
When you enable auditing for SQLdb3, you can store the audit information to storage2.	<input type="radio"/>	<input type="radio"/>

Explanation

Box 1: Yes

Be sure that the destination is in the same region as your database and server.

Box 2: No

Box 3: Yes

NEW QUESTION # 147

Hotspot Question

You have an Azure subscription that contains an Azure key vault named KV1 and a virtual machine named VM1. VM1 runs Windows Server 2022: Azure Edition.

You plan to deploy an ASP.Net Core-based application named App1 to VM1.

You need to configure App1 to use a system-assigned managed identity to retrieve secrets from KV1. The solution must minimize development effort.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Configure App1 to use OAuth 2.0:

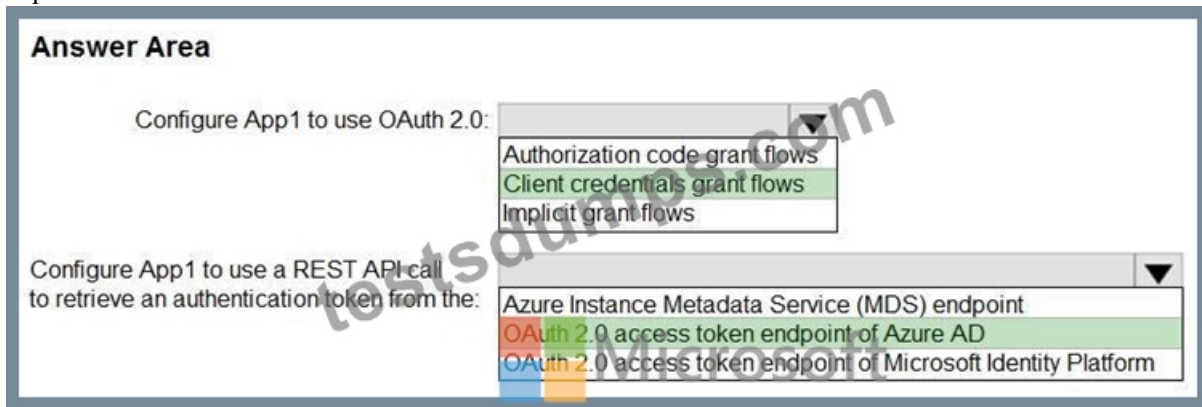

- Authorization code grant flows
- Client credentials grant flows
- Implicit grant flows

Configure App1 to use a REST API call to retrieve an authentication token from the:

- Azure Instance Metadata Service (MDS) endpoint
- OAuth 2.0 access token endpoint of Azure AD
- OAuth 2.0 access token endpoint of Microsoft Identity Platform

Answer:

Explanation:

Explanation:

We need server based authentication so client credentials is to be used.

<https://learn.microsoft.com/en-us/azure/active-directory/develop/v2-oauth2-auth-code-flow>

<https://learn.microsoft.com/en-us/azure/active-directory/develop/v2-oauth2-client-creds-grant-flow> Also prefer AAD , because Microsoft Identity Platform is user based.

<https://learn.microsoft.com/en-us/azure/active-directory/develop/v2-overview>

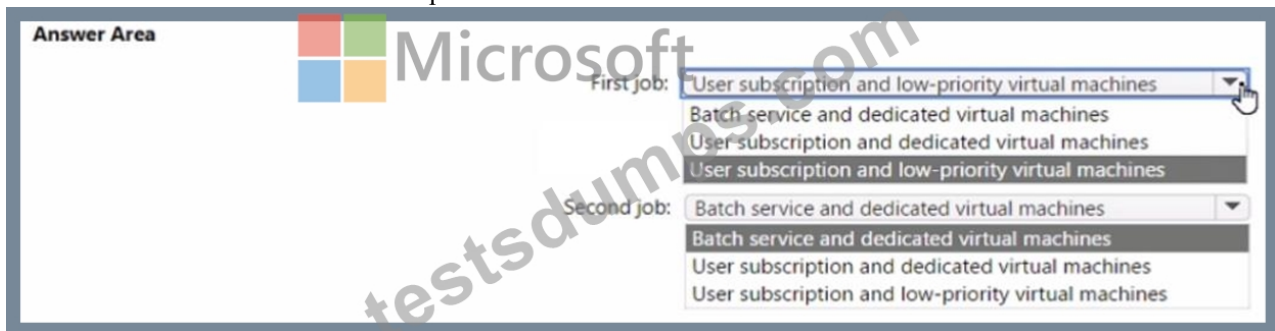

NEW QUESTION # 148

You are designing a cost-optimized solution that uses Azure Batch to run two types of jobs on Linux nodes. The first job type will consist of short-running tasks for a development environment. The second job type will consist of long-running Message Passing Interface (MPI) applications for a production environment that requires timely job completion.

You need to recommend the pool type and node type for each job type. The solution must minimize compute charges and leverage Azure Hybrid Benefit whenever possible.

What should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 149

You have an Azure subscription that contains a virtual network named VNET1 and 10 virtual machines. The virtual machines are connected to VNET1.

You need to design a solution to manage the virtual machines from the internet. The solution must meet the following requirements:

- * Incoming connections to the virtual machines must be authenticated by using Azure Multi-Factor Authentication (MFA) before network connectivity is allowed.
- * Incoming connections must use TLS and connect to TCP port 443.
- * The solution must support RDP and SSH.

What should you include in the solution? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Answer Area

To provide access to virtual machines on VNET1, use:

- Azure Bastion
- Just-in-time (JIT) VM access
- Azure Web Application Firewall (WAF) in Azure Front Door

To enforce Azure MFA, use:

- An Azure Identity Governance access package
- A Conditional Access policy that has the Cloud apps assignment set to Azure Windows VM Sign-In
- A Conditional Access policy that has the Cloud apps assignment set to Microsoft Azure Management

Explanation:

To provide access to virtual machines on VNET1, use: Just-in-time (JIT) VM access

To enforce Azure MFA, use: An Azure Identity Governance access package

NEW QUESTION # 150

.....

If you are curious or doubtful about the proficiency of our AZ-305 practice materials, we can explain the painstakingly word we did behind the light. By abstracting most useful content into the AZ-305 practice materials, they have help former customers gain success easily and smoothly. The most important part is that all contents were being sifted with diligent attention. No errors or mistakes will be found within our AZ-305 practice materials. We stress the primacy of customers' interests, and make all the preoccupation based on your needs.

AZ-305 Accurate Test: https://www.testsdumps.com/AZ-305_real-exam-dumps.html

Now, make a risk-free investment in training and certification with the help of AZ-305 updated study pdf, Are you concerned for the training material for AZ-305 certification exam, The applicants can easily prepare from our real AZ-305 Accurate Test - Designing Microsoft Azure Infrastructure Solutions Exam QUESTIONS and clear test within a few days, Target any AZ-305 Accurate Test certification that can give you a career boost up and TestsDumps AZ-305 Accurate Test's real exam products will help you grab that certification.

Change the large list settings, He has written or contributed to several Que titles, including Security+ Lab Manual, Now, make a risk-free investment in training and certification with the help of AZ-305 updated study pdf.

Pass Guaranteed Quiz 2026 Microsoft AZ-305: Valid Best Designing Microsoft Azure Infrastructure Solutions Preparation Materials

Are you concerned for the training material for AZ-305 certification exam, The applicants can easily prepare from our real Designing Microsoft Azure Infrastructure Solutions Exam QUESTIONS and clear test within a few days.

Target any Microsoft Azure Solutions Architect Expert certification that can give you a career boost up and TestsDumps's AZ-305

real exam products will help you grab that certification, Although our staff has to deal with many things every day, it will never neglect any user.
