HPE6-A86 Test Cram - Real HPE6-A86 Exam

Maybe most of people prefer to use the computer when they are study, but we have to admit that many people want to learn buy the paper, because they think that studying on the computer too much does harm to their eyes. HPE6-A86 test questions have the function of supporting printing in order to meet the need of customers. A good deal of researches has been made to figure out how to help different kinds of candidates to get HPE Network Switching Associate Exam certification. We revise and update the HPE6-A86 Test Torrent according to the changes of the syllabus and the latest developments in theory and practice.

HPE Network Switching Associate Exam Sample Questions (Q93-Q98):

NEW QUESTION # 93

A Network Technician has been given a list of `show` commands to validate the configuration of a newly installed HPE Aruba Networking CX switch. The technician needs to verify the status of all IP- configured interfaces on the switch, including VLAN interfaces (SVIs) and the out-of-band management port.

The technician wants a single command that produces a table-like output, with one line per interface, showing the interface name, its IP address, and its status. Which of the following validation commands is the best tool for this specific purpose?

- A. `show ip route`
- B. `show ip interface brief`
- C. `show interface brief`
- D. `show running-config`

Answer: B

NEW QUESTION # 94

Which two transport layer protocols operate at Layer 4? (Choose two.)

- A. TCP
- B. UDP
- C. ICMP
- D. IP

Answer: A,B

Explanation:

Both TCP (Transmission Control Protocol) and UDP (User Datagram Protocol) operate at the Transport Layer (Layer 4) of the OSI model. These protocols are responsible for managing the end-to-end communication and flow of data between devices on a network.

A). TCP (Transmission Control Protocol): TCP is a connection-oriented protocol that provides reliable, ordered, and error-checked delivery of data between applications. It ensures that data packets are delivered correctly and in the correct order.

B). UDP (User Datagram Protocol): UDP is a connectionless protocol that does not guarantee reliable delivery or ordering of data packets. It is used in applications where speed is more important than reliability, such as streaming media or online gaming.

NEW QUESTION # 95

Which component of the AAA framework involves checking what a user is allowed to do?

- A. Authorization
- B. Authentication
- C. Accounting
- D. Availability

Answer: A

NEW QUESTION # 96

A Junior Network Engineer is setting up a switch in a lab environment for a pre-boot execution environment (PXE). A server needs to download its boot file from the switch without the overhead of authentication or encryption. The process needs to be as simple as possible.

Which protocol is most suitable for this scenario?

- A. SFTP
- B. SNMPv2
- C. TFTP (Trivial File Transfer Protocol)
- D. FTP

Answer: C

NEW QUESTION # 97

Which firewall port needs to be opened between your Network Monitoring System and HPE Aruba Networking CX switches to collect monitoring data using SNMP?

- A. TCP 162
- B. UDP 1157
- C. TCP 1156
- D. UDP 161

Answer: D

Explanation:

The correct answer is D. UDP 161. SNMP uses different UDP ports depending on the monitoring function.

When a Network Monitoring System collects or polls monitoring data from a CX switch, it communicates with the SNMP agent on the switch. HPE Aruba Networking AOS-CX SNMP documentation shows the SNMP agent port as UDP 161. This is the port used for SNMP polling and monitoring responses. This differs from SNMP traps or alerts, which are sent by the switch to a

monitoring system on UDP 162. The question specifically asks about the Network Monitoring System collecting monitoring data from CX switches, so the required firewall allowance is UDP 161 from the monitoring system to the switch. Option A is incorrect because TCP 162 is not the standard SNMP polling port. Option B and option C are incorrect because UDP 1157 and TCP 1156 are not the SNMP polling ports used for this purpose.

NEW QUESTION # 98

.....

First and foremost, we have high class operation system so we can assure you that you can start to prepare for the HPE6-A86 exam with our HPE6-A86 study materials only 5 to 10 minutes after payment. Second, once we have compiled a new version of the HPE6-A86 test question, we will send the latest version of our HPE6-A86 Training Materials to our customers for free during the whole year after purchasing. Last but not least, our worldwide after sale staffs will provide the most considerate after sale service on HPE6-A86 training guide for you in twenty four hours a day, seven days a week.
