We are going to show our 2V0-32.24 Guide braindumps to you. We can sure that our product will help you get the certificate easily. If you are wailing to believe us and try to learn our 2V0-32.24 exam torrent, you will get an unexpected result.

VMware 2V0-32.24 Exam Syllabus Topics:

Topic	Details

Topic 1	<ul style="list-style-type: none"> Administrative and Operational Tasks: This section of the exam measures skills of Cloud Administrators and covers daily operational tasks such as content and environment management in vRealize Suite Lifecycle Manager. It also includes managing licensing, alert systems, dashboards, metrics, cost assessments, capacity optimization, workload planning, and system monitoring. Additionally, it explores access control, patching, and retention settings in vRealize Log Insight, ensuring ongoing operational excellence across VMware tools.
Topic 2	<ul style="list-style-type: none"> Performance-tuning, Optimization, and Upgrades: This section has no testable objectives and therefore is not directly assessed in the exam
Topic 3	<ul style="list-style-type: none"> Planning and Designing: This section of the exam measures the skills of Cloud Architects and covers the architectural models and sizing requirements for vRealize Operations and vRealize Log Insight. It evaluates the ability to choose between standalone, clustered, and high-availability setups, and to plan appropriately based on scenario-based requirements for capacity and deployment type, ensuring well-designed cloud solutions.

VMware Cloud Operations 8.x Professional V2 Sample Questions (Q42-Q47):

NEW QUESTION # 42

When setting up the vRealize Log Insight integration within vRealize Operations what do administrators configure within vRealize Operations?

- A. The vRealize Log Insight troubleshooting dashboard
- B. The vRealize Log Insight management pack**
- C. The vRealize Log Insight content pack
- D. The vRealize Log Insight collector group instance

Answer: B

Explanation:

When setting up vRealize Log Insight integration within vRealize Operations, administrators configure the vRealize Log Insight management pack in vRealize Operations. This management pack allows vRealize Operations to integrate with vRealize Log Insight, enabling the collection and analysis of log data from vRealize Log Insight within the vRealize Operations platform. It provides enhanced visibility and monitoring for logs, allowing users to correlate performance data with log data.

NEW QUESTION # 43

A user reports that when browsing to the vRealize Operations (vROps) user interface a 503 error is displayed.

An administrator determines that the vROps cluster is offline.

Drag and drop the three correct actions the administrator must complete to troubleshoot the issue from the action list on the left and place the action into the correct sequence on the right. (Choose three.)

ACTION LIST

- 0 Log In to the vROps Master node
VM console in vCenter
- 0 Log In to the Admin UI on the vROps Master node
- 0 Verify that the vROps service is not running via the command line
- 0 Execute a start of the vROps service via the command line
- 0 Bring the vROps cluster back online
- 0 Verify that the vROps cluster is offline

SEQUENTIAL ORDER

1	0
2	0
3	0

Answer:

Explanation:

Action List

- 0 Log In to the vROps Master node
VM console in vCenter
- 0 Log In to the Admin UI on the vROps Master node
- 0 Verify that the vROps service is not running via the command line
- 0 Execute a start of the vROps service via the command line
- 0 Bring the vROps cluster back online
- 0 Verify that the vROps cluster is offline

Sequential Order

1	0 Log In to the vROps Master node VM console in vCenter
2	0 Verify that the vROps service is not running via the command line
3	0 Execute a start of the vROps service via the command line

Action List

- Log In to the vROps Master node
VM console in vCenter
- Log In to the Admin UI on the vROps Master node
- Verify that the vROps service is not running via the command line
- Execute a start of the vROps service via the command line
- Bring the vROps cluster back online
- Verify that the vROps cluster is offline

Sequential Order

1	Log In to the vROps Master node VM console in vCenter
2	Verify that the vROps service is not running via the command line
3	Execute a start of the vROps service via the command line

NEW QUESTION # 44

When setting up the vRealize Log Insight integration within vRealize Operations what do administrators configure within vRealize Operations?

- A. The vRealize Log Insight troubleshooting dashboard
- B. **The vRealize Log Insight management pack**
- C. The vRealize Log Insight content pack
- D. The vRealize Log Insight collector group instance

Answer: B

Explanation:

When setting up vRealize Log Insight integration within vRealize Operations, administrators configure the vRealize Log Insight management pack in vRealize Operations. This management pack allows vRealize Operations to integrate with vRealize Log Insight, enabling the collection and analysis of log data from vRealize Log Insight within the vRealize Operations platform. It provides enhanced visibility and monitoring for logs, allowing users to correlate performance data with log data.

NEW QUESTION # 45

An Administrator needs to create a new alert in vRealize Log Insight that will send email notifications to a distribution list based on the defined query.

Drag and drop the five actions the administrator must complete in order to create the alert from the action list on the left and place the actions into the correct sequence on the right. (Choose five.)

Action List

- 0 Select the button called Create Alert from Query.
- 0 Select the Email check-box and type the e-mail distribution list to which vRealize Log Insight should send the notifications.
- 0 Run the query for which the notification should be send.
- 0 Switch to Interactive Analytics in vRealize Log Insight.
- 0 Specify the alert details including a name.

Sequential Order

1	
2	
3	
4	
5	

Answer:

Explanation:

Action List	Sequential Order
Select the button called Create Alert from Query.	1 Switch to Interactive Analytics in vRealize Log Insight.
Select the Email check-box and type the e-mail distribution list to which vRealize Log Insight should send the notifications.	2 Run the query for which the notification should be send.
Run the query for which the notification should be send.	3 Select the button called Create Alert from Query.
Switch to Interactive Analytics in vRealize Log Insight.	4 Specify the alert details including a name.
Specify the alert details including a name.	5 Select the Email check-box and type the e-mail distribution list to which vRealize Log Insight should send the notifications.

Action List	Sequential Order
Select the button called Create Alert from Query.	1 Switch to Interactive Analytics in vRealize Log Insight.
Select the Email check-box and type the e-mail distribution list to which vRealize Log Insight should send the notifications.	2 Run the query for which the notification should be send.
Run the query for which the notification should be send.	3 Select the button called Create Alert from Query.
Switch to Interactive Analytics in vRealize Log Insight.	4 Specify the alert details including a name.
Specify the alert details including a name.	5 Select the Email check-box and type the e-mail distribution list to which vRealize Log Insight should send the notifications.

NEW QUESTION # 46

Which statement represents a use case for VMware Skyline?

- A. Provide a single management pane of glass for customer's assets across multiple VMware cloud solutions.
- B. Collect and analyze logs from VMware products and automatically notify the customer about any potential issues.
- C. Proactively identify potential problems and help improve the resolution time by collecting, aggregating, and analyzing product usage data.
- D. Provide a single point of management for customer's licenses across different VMware on-premises and cloud products.

Answer: C

Explanation:

VMware Skyline is designed to proactively identify potential issues by collecting and analyzing product usage data from VMware environments. It helps improve resolution times by providing actionable insights and recommendations, allowing administrators to address issues before they escalate. This predictive capability enhances system performance and reduces downtime.

NEW QUESTION # 47

.....

TroytecDumps's web-based VMware 2V0-32.24 practice test also contains mock exams just like the desktop practice exam software with some extra features. As this is a web-based software, this is accessible through any browser like Opera, Safari, Chrome, Firefox and MS Edge with a good internet connection.
