- **B. Change approval thresholds.**
- **C. Add blocking reasons for billing.**
- **D. Add new sales organizations.**
- E. Modify building blocks.

**Answer: B,C,D**

Explanation:

In the Product-Specific Configuration Phase within SAP Central Business Configuration, several key activities can be performed to tailor the SAP S/4HANA Cloud system to meet specific business needs:

\* Add new sales organizations: This activity involves setting up new sales organizations within the system, defining the structure of the sales department, and aligning it with the company's sales strategies and territories. This setup is crucial for managing sales processes, customer relationships, and sales reporting.

\* Change approval thresholds: Modifying approval thresholds is an essential configuration activity that adjusts the approval limits for various transactions, ensuring that the approval process aligns with the company's internal control and governance policies. This can involve setting different thresholds for purchase orders, expense approvals, and other financial transactions.

\* Add blocking reasons for billing: This configuration activity allows the company to define specific reasons for blocking billing documents, ensuring that billing does not proceed under certain conditions until the issues are resolved. This is critical for maintaining accurate and compliant billing processes.

These activities are part of the detailed configuration work that tailors the SAP S/4HANA Cloud system to the specific operational needs of the business, ensuring that the software supports the company's unique processes and policies.
