Change management in this phase focuses onbuilding awareness, defining structure, and planning- not yet detailed change execution.

Step 2 - Evaluate Each Option

A). Develop and align the change network strategy

* During the Prepare phase, one of the first organizational change activities is todesign the change network- a group of change agents and champions who support adoption across business areas.

* The strategy defines roles, responsibilities, and communication lines for this network.

* This early setup enables effective stakeholder engagement during later phases.

Result:Correct - The change network strategy is initiated and aligned in the Prepare phase.

B). Identify the key stakeholders and conduct a stakeholder analysis

* Early stakeholder identification is acore taskin the Prepare phase.

* The project team identifies business and IT stakeholders who influence or are impacted by the project.

* Astakeholder analysis then performed to understand their interests, influence, and readiness levels.

* This ensures targeted communication and support planning for each group.

Result:Correct - Stakeholder analysis is a standard activity of the Prepare phase.

C). Facilitate the role mapping process

* Role mapping links system roles to business users and is typically performed later - in theExplore or Realize phase, once business process requirements and system access needs are clearly defined.

* It is not a primary OCM activity in the Prepare phase.

Result:Incorrect - Conducted later in the project.

D). Conduct a detailed change impact analysis

* Detailed change impact analysis requires finalized process design, which occurs after Fit-to-Standard workshops in theExplore phase.

* In the Prepare phase, teams may perform onlyinitial impact identification, not a detailed analysis.

Result:Incorrect - Performed during Explore.

E). Develop an initial change plan for the cloud project

* Ahigh-level change planis developed in the Prepare phase to outline change management goals, key activities, milestones, and success criteria.

* This plan serves as the foundation for detailed OCM execution plans in subsequent phases.

Result:Correct - Initial change plan development is a key Prepare phase deliverable.
