You can also customize your time and the kinds of Salesforce Education-Cloud-Consultant Exam Questions of the Salesforce Education-Cloud-Consultant practice test. Prep4sureExam has formulated Education-Cloud-Consultant PDF questions for the convenience of Salesforce Education-Cloud-Consultant test takers.

Salesforce Certified Education Cloud Consultant Exam Sample Questions (Q160-Q165):

NEW QUESTION # 160

A high school recently implemented the K-12 Architecture Kit and wants to track student absences from class and midyear grades. Which two objects should the consultant use to address these requirements?
Choose 2 answers.

- A. Behavior Involvement
- **B. Term Grade**
- C. Program Enrollment
- **D. Attendance Event**

Answer: B,D

Explanation:

Term Grade and Attendance Event are two objects that the consultant should use to address the requirements of tracking student absences from class and midyear grades. Term Grade is an object that stores the grades that a student receives for a course offering in a specific term. Attendance Event is an object that stores information about a student's attendance or absence for a course offering or a course connection. Behavior Involvement and Program Enrollment are not objects that can track student absences from class and midyear grades. References:

NEW QUESTION # 161

An Admissions Department is evaluating data analytics tools to help determine the likelihood that accepted students will enroll at its school.

Which solution should the consultant recommend?

- A. Advisor Link Pathways
- B. Einstein Next Best Action
- C. Tableau Prep Builder
- **D. Einstein Prediction Builder**

Answer: D

Explanation:

Explanation

Einstein Prediction Builder is a solution that the consultant can recommend to help the Admissions Department determine the likelihood that accepted students will enroll at its school. Einstein Prediction Builder is a feature that allows users to create custom predictions based on their Salesforce data, using artificial intelligence. Einstein Prediction Builder can be used to predict various outcomes, such as churn, retention, conversion, or enrollment. The Admissions Department can use Einstein Prediction Builder to create a prediction field on the Opportunity object that indicates the probability of an accepted student enrolling at the school. Advisor Link Pathways, Tableau Prep Builder, and Einstein Next Best Action are not solutions that can help the Admissions Department determine the likelihood that accepted students will enroll at its school.

NEW QUESTION # 162

A university to use Salesforce for its recruitment and admissions process and needs to integrate it with the Student Information System (SIS).

Which step should the consultant take initially?

- A. Disable Trigger Handler records.
- **B. Identify Integration layers.**
- C. Use the Data Import Wizard.

Answer: B

Explanation:

The first step that the consultant should take when integrating Salesforce with the Student Information System (SIS) is to identify the integration layers, which are the components that define how data is exchanged between the systems, such as the data model, the data format, the data transport, and the data security. This will help the consultant understand the scope and complexity of the integration project and choose the appropriate tools and methods. Disabling Trigger Handler records and using the Data Import Wizard are steps that can be taken later in the project execution or testing phase, not initially. Reference:

https://help.salesforce.com/s/articleView?id=sf.data_loader_disable_triggers_workflow.htm&type=5

https://help.salesforce.com/s/articleView?id=sf.data_importer.htm&type=5

NEW QUESTION # 163

Alumni Relations is using Salesforce with the Education Data Architecture (EDA). The department is holding an event that features a faculty member as the guest speaker. The events manager wants a report of all alumni who took a course from that faculty member. How should the consultant create this report?

- **A. Create a custom Report Type with Courses, Course Offerings, and Course Connections.**
- B. Add a Course Connections cross filter to the Program Enrollments with Contact report.
- C. Use the Course Connections with Contact 's Academic Program Report Type.

Answer: A

Explanation:

The consultant should create a custom Report Type with Courses, Course Offerings, and Course Connections to create a report of all alumni who took a course from that faculty member for the Alumni Relations office that is using Salesforce with EDA. A custom Report Type is a type of report that shows information about one or more objects and their fields, filters, and relationships. A custom Report Type with Courses, Course Offerings, and Course Connections can help the Alumni Relations office create a report

of all alumni who took a course from that faculty member by showing the relationship between the Contact object and the Course object through the Course Offering object and the Course Connection object. The consultant can add fields and filters to the custom Report Type to show only the alumni who took a course from that faculty member. Using the Course Connections with Contact's Academic Program Report Type, adding a Course Connections cross filter to the Program Enrollments with Contact report, or creating a custom Report Type with Contacts, Accounts, and Affiliations are not ways to create a report of all alumni who took a course from that faculty member for the Alumni Relations office that is using Salesforce with EDA. References:
https://help.salesforce.com/s/articleView?id=sf.reports_builder_create_report_type.htm&type=5

NEW QUESTION # 164

The new director of Admissions plans to use Salesforce for its recruitment and admissions process. The director wants to increase the school's ranking and application yield by 15%. The President's Office and dean are supportive and ready to launch the project. What should the consultant confirm?

- A. The director has leadership support for the project.
- B. The project has a measurable goal.
- C. The director has end-user support for the project.
- D. The project has a specific vision.

Answer: A

NEW QUESTION # 165

.....
