CBCI Valid Test Registration - Valid CBCI Test Registration

Consider sitting for an Certificate of the Business Continuity Institute (CBCI) exam and discovering that the practice materials you've been using are incorrect and useless. The technical staff at PrepAwayPDF has gone through the BCI certification process and knows the need to be realistic and exact. Hundreds of professionals worldwide examine and test every BCI CBCI Practice Exam regularly. These practice tools are developed by professionals who work in fields impacting BCI Certificate of the Business Continuity Institute (CBCI), giving them a foundation of knowledge and actual competence. Our BCI CBCI exam questions are created and curated by industry specialists.

BCI Certificate of the Business Continuity Institute (CBCI) Sample Questions (Q43-Q48):

NEW QUESTION # 43
A strategic plan:

- A. May contain procedures for coordinating the transportation of personnel to alternate facilities
- B. Should identify viable options to coordinate efforts of the operational teams
- C. May be supported by a separate crisis communications plan
- D. Should contain procedures for responding to emergencies, including threats to life, or the environment

Answer: C

Explanation:
Strategic plans set the overarching framework and objectives for Business Continuity and are often supported by separate tactical or crisis communication plans tailored to communication needs during disruptions. The CBCI 7.0 course clarifies that while strategic plans guide overall responses, detailed emergency procedures and logistics coordination typically reside in operational or tactical plans, ensuring clarity and focus at different planning levels.
Reference:CBCI 7.0 Study Guide, Module 5: Solutions Design and Planning, pages 100-103.

NEW QUESTION # 44
Which of the following is NOT correct in relation to the purpose of defining the scope of the Business Continuity Management System (BCMS)?

- A. It defines the BCMS on the organization's products, services, and activities
- B. It ensures a clear understanding of the areas of the organization that are, and are not, covered by the BCMS
- C. It makes the best use of available time and finances
- D. It establishes permanent parameters for the BCMS

Answer: D

Explanation:
The CBCI 7.0 course explains thatdefining the BCMS scope is a dynamic process, which means that the parameters set are not necessarily permanent and may be reviewed and revised as organizational needs, risks, and priorities evolve. While the scope provides clarity on which parts of the organization, products, services, and activities are included, it must remain flexible to adapt to change. Permanent or fixed parameters risk locking the BCMS into outdated or incomplete coverage, reducing effectiveness. Efficient use of time and resources is a benefit of appropriate scoping, but permanence is not a characteristic of good scope definition.
Reference:CBCI 7.0 Study Guide, Module 1: Scope and Context, pages 27-30.

NEW QUESTION # 45
One of the steps in the risk management process is to establish the risk treatment required. The purpose of risk treatment is to:

- A. Ensure that a named person within the organization takes responsibility for the monitoring and management of the risk
- B. Ensure that regular updates on the current status of the risk are presented to top management
- C. Mitigate each risk identified by reducing the likelihood of the risk occurring or by lowering the impact of disruption
- D. Calculate a risk score based on the combination of the likelihood of the risk occurring and the consequences of this happening

Answer: C

Explanation:
Risk treatment is a fundamental phase within the risk management process, focusing on how identified risks will be managed to reduce their potential impact or likelihood. The CBCI 7.0 course clarifies that risk treatment involves selecting and implementing measures to either prevent risks from occurring or to minimize their adverse effects on the organization. This step is critical to building resilience, as it directly influences the mitigation of unacceptable risks that could disrupt key business activities. While assigning responsibility, scoring risks, and reporting are important supporting actions, the core purpose of risk treatment is to apply controls and strategies that reduce risk exposure effectively, thereby enhancing continuity readiness.
Reference:CBCI 7.0 Study Guide, Module 3: Risk Management and Risk Treatment, pages 50-53.

NEW QUESTION # 46
The Recovery Time Objective (RTO), competency of team members, and complexity of the processes to be recovered are factors that will play a role in determining the level of detail contained in:

- A. Operational plans
- B. Strategic plans
- C. Emergency response plans
- D. Crisis communication plans

Answer: A

Explanation:
Operational plans require detailed instructions tailored to the recovery needs of specific activities. The CBCI 7.0 course explains that factors such as the RTO, the skills of recovery teams, and process complexity influence the granularity of these plans. Shorter RTOs or complex processes demand more detailed operational plans to guide recovery actions precisely and minimize delays. Strategic plans set high-level direction and are less detailed; crisis communication and emergency response plans focus on information and immediate safety rather than detailed recovery steps.
Reference:CBCI 7.0 Study Guide, Module 5: Plans and Procedures, pages 85-88.

NEW QUESTION # 47
Which of the following statements about the methods used to collect information following an exercise is correct?

- A. Only senior level exercise participants should provide opinions during the debrief
- B. One-on-one interviews with all exercise participants should be conducted within one month following the exercise
- C. A hot debrief should be conducted within one month after the conclusion of an exercise
- D. Surveys are especially effective if an exercise and its participants are spread out over multiple locations

Answer: D

Explanation:
Surveys are a practical and efficient way to collect feedback from participants who may be geographically dispersed or involved in staggered exercise sessions. The CBCI 7.0 course emphasizes that surveys enable broad participation and timely input collection, which can be crucial when participants cannot all meet in person or at the same time. Hot debriefs are typically immediate post-exercise discussions, not extended over a month. One-on-one interviews and limiting input to senior personnel restrict breadth and may delay feedback.
Reference:CBCI 7.0 Study Guide, Module 6: Exercising and Validation, pages 125-128.

NEW QUESTION # 48
.....

Do you want to prove your ability in IT field? Do you want to get more recognition and employment opportunities? So CBCI exam certification will be an important evidence to prove yourself. Almost all those who are working in the IT field know how important to get CBCI exam certification. As we know, everyone's energy is limited, if you want to pass the important CBCI Certification Exam in such short time, the exam software provided by our PrepAwayPDF will be a good helper for your preparation for the exam. The complete questions and exam software created in accordance with the laws of the people's memory will help you succeed in the CBCI exam.
