You need to ensure that users can only enroll devices that meet the following requirements:

- Android devices that support the use of work profiles.
- iOS devices that run iOS 11.0 or later.

Which two restrictions should you modify? To answer, select the restrictions in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Box 1: Android device administrator, Platform Block

Restrict devices running on the following platforms:

Android device administrator

Android Enterprise work profile

iOS/iPadOS

macOS

Windows

Note: If you allow both Android platforms for the same group, devices that support work profile will enroll with a work profile.

Devices that don't support it will enroll on the Android device administrator platform. Neither work profile nor device administrator enrollment will work until you complete all prerequisites for Android enrollment.
