

# Interactive SPLK-2002 Testing Engine - New SPLK-2002 Dumps Questions

P.S. Free 2026 Splunk SPLK-2002 dumps are available on Google Drive shared by PassSureExam: <https://drive.google.com/open?id=1qHCl6laqqlZTYpN5U4GfgfnlkVUQHNeT>

The SPLK-2002 study guide to good meet user demand, will be a little bit of knowledge to separate memory, every day we have lots of fragments of time, such as waiting in line to take when you eat, or time in buses commute on the way by subway every day, but when you add them together will be surprised to find a day we can make use of the time is so much debris. We have three version of our SPLK-2002 Exam Questions which can let you study at every condition so that you can make full use of your time. And you will get the SPLK-2002 certification for sure.

There are three different versions provided by our company. Every version is very convenient and practical. The three different versions of our SPLK-2002 study torrent have different function. We believe that you must find the version that is suitable for you. Now I am willing to show you the special function of the PDF version of SPLK-2002 test torrent. If you prefer to read paper materials rather than learning on computers, the PDF version of our Splunk Enterprise Certified Architect guide torrent must be the best choice for you. Because the study materials on the PDF version are printable, you can download our SPLK-2002 study torrent by the PDF version and print it on papers. We believe that it will be very helpful for you to protect your eyes. In addition, the PDF version also has many other special functions. If you use the PDF version of our SPLK-2002 test torrent, you will find more special function about the PDF version.

## New SPLK-2002 Dumps Questions & SPLK-2002 Vce Test Simulator

The price for SPLK-2002 study materials is quite reasonable, no matter you are a student at school or an employee in the company, you can afford it. Just think that you just need to spend some money, you can get the certificate. What's more, SPLK-2002 exam materials are compiled by skilled professionals, and they cover the most knowledge points and will help you pass the exam successfully. We have online and offline chat service stuff, they have the professional knowledge about SPLK-2002 Exam Dumps, and you can have a chat with them if you have any questions.

## Splunk Enterprise Certified Architect Sample Questions (Q170-Q175):

### NEW QUESTION # 170

A customer has installed a 500GB Enterprise license. They also purchased and installed a 300GB, no enforcement license on the same license master. How much data can the customer ingest before the search is locked out?

- A. 800GB. After this limit, the search is locked out.
- B. Search is not locked out. Violations are still recorded.
- C. 500GB. After this limit, the search is locked out.
- D. 300GB. After this limit, the search is locked out.

**Answer: B**

Explanation:

Search is not locked out when a customer has installed a 500GB Enterprise license and a 300GB, no enforcement license on the same license master. The no enforcement license allows the customer to exceed the license quota without locking search, but violations are still recorded. The customer can ingest up to 800GB of data per day without violating the license, but if they ingest more than that, they will incur a violation. However, the violation will not lock search, as the no enforcement license overrides the enforcement policy of the Enterprise license. For more information, see [No enforcement licenses] and [License violations] in the Splunk documentation.

**NEW QUESTION # 171**

What does the deployer do in a Search Head Cluster (SHC)? (Select all that apply.)

- A. Bootstraps a clean Splunk install for a SHC.
- B. Distributes runtime knowledge object changes made by users across the SHC.
- C. Distributes non-search related and manual configuration file changes.
- D. **Distributes apps to SHC members.**

**Answer: D**

Explanation:

Explanation/Reference: <https://docs.splunk.com/Documentation/Splunk/7.3.2/DistSearch/SHCdeploymentoverview>

**NEW QUESTION # 172**

Which of the following configuration attributes must be set in server.conf on the cluster manager in a single-site indexer cluster?

- A. replication\_factor
- B. site
- C. **master\_uri**
- D. site\_replication\_factor

**Answer: C**

Explanation:

The correct configuration attribute to set in server.conf on the cluster manager in a single-site indexer cluster is master\_uri. This attribute specifies the URI of the cluster manager, which is required for the peer nodes and search heads to communicate with it1. The other attributes are not required for a single-site indexer cluster, but they are used for a multisite indexer cluster. The site attribute defines the site name for each node in a multisite indexer cluster2. The replication\_factor attribute defines the number of copies of each bucket to maintain across the entire multisite indexer cluster3. The site\_replication\_factor attribute defines the number of copies of each bucket to maintain across each site in a multisite indexer cluster4. Therefore, option A is the correct answer, and options B, C, and D are incorrect.

1: Configure the cluster manager 2: Configure the site attribute 3: Configure the replication factor 4: Configure the site replication factor

**NEW QUESTION # 173**

A new Splunk customer is using syslog to collect data from their network devices on port 514. What is the best practice for ingesting this data into Splunk?

- A. Use a Splunk forwarder to collect the input on port 514 and forward the data.
- B. Configure syslog to send the data to multiple Splunk indexers.
- C. **Configure syslog to write logs and use a Splunk forwarder to collect the logs.**
- D. Use a Splunk indexer to collect a network input on port 514 directly.

**Answer: C**

Explanation:

The best practice for ingesting syslog data from network devices on port 514 into Splunk is to configure syslog to write logs and use

a Splunk forwarder to collect the logs. This practice will ensure that the data is reliably collected and forwarded to Splunk, without losing any data or overloading the Splunk indexer. Configuring syslog to send the data to multiple Splunk indexers will not guarantee data reliability, as syslog is a UDP protocol that does not provide acknowledgment or delivery confirmation. Using a Splunk indexer to collect a network input on port 514 directly will not provide data reliability or load balancing, as the indexer may not be able to handle the incoming data volume or distribute it to other indexers. Using a Splunk forwarder to collect the input on port 514 and forward the data will not provide data reliability, as the forwarder may not be able to receive the data from syslog or buffer it in case of network issues. For more information, see [Get data from TCP and UDP ports] and [Best practices for syslog data] in the Splunk documentation.

#### NEW QUESTION # 174

Which server.conf attribute should be added to the master node's server.conf file when decommissioning a site in an indexer cluster?

- A. site\_mappings
- B. site\_search\_factor
- C. site\_replication\_factor
- D. available\_sites

#### Answer: A

Explanation:

The site\_mappings attribute should be added to the master node's server.conf file when decommissioning a site in an indexer cluster. The site\_mappings attribute is used to specify how the master node should reassign the buckets from the decommissioned site to the remaining sites. The site\_mappings attribute is a comma-separated list of site pairs, where the first site is the decommissioned site and the second site is the destination site. For example, site\_mappings = site1:site2,site3:site4 means that the buckets from site1 will be moved to site2, and the buckets from site3 will be moved to site4. The available\_sites attribute is used to specify which sites are currently available in the cluster, and it is automatically updated by the master node. The site\_search\_factor and site\_replication\_factor attributes are used to specify the number of searchable and replicated copies of each bucket for each site, and they are not affected by the decommissioning process

#### NEW QUESTION # 175

.....

The key trait of our product is that we keep pace with the changes the latest circumstance to revise and update our SPLK-2002 study materials, and we are available for one-year free updating to our customers. Our company has established a long-term partnership with those who have purchased our SPLK-2002 exam guides. We have made all efforts to update our product in order to help you deal with any change, making you confidently take part in the exam. We will inform you that the SPLK-2002 Study Materials should be updated and send you the latest version of our SPLK-2002 exam questions in a year after your payment.
