Salesforce B2B Commerce for Administrators Accredited Professional Sample Questions (Q97-Q102):

NEW QUESTION # 97

An Administrator is analyzing requirements around a customer's category hierarchy for a multi-language site. They have a set of 110 categories which contain many child categories.

Which consideration should the Administrator keep in mind prior to implementation?

- A. There is a limit of 50 categories total across all languages
- **B. There is a depth limit for the number of child categories**
- C. There is a limit of 100 categories total across all languages
- D. Only 50 categories can be localized per language

Answer: B

Explanation:

When implementing a category hierarchy for a multi-language site with many child categories, an important consideration is C. There is a depth limit for the number of child categories. Salesforce B2B Commerce imposes limits on the depth of the category hierarchy, affecting how deeply nested child categories can be structured within the overall category architecture.

NEW QUESTION # 98

A client would like to customize the Store so certain groups of buyers see personalized information.

Which three criteria types can an Administrator use to create an audience for a component on a Store page?

- **A. User's Location**
- **B. Profile**
- C. Product Category
- **D. Permission Set**
- E. Active Cart Total Value

Answer: A,B,D

Explanation:

To create personalized experiences for different groups of buyers, an Administrator can use the following criteria types to create audiences for a component on a Store page:

B) Permission Set: This allows for content personalization based on the permissions granted to the user, enabling targeted content delivery.

C) Profile: Users with different profiles can be presented with tailored content, ensuring relevance and enhancing the user experience.

E) User's Location: Personalizing content based on the user's geographical location can significantly improve relevance and engagement.

NEW QUESTION # 99

What does an Administrator need to do in order to target CMS content at a particular store?

- A. Import the content into the community via Workbench
- **B. Create CMS content and assign it in Experience Builder**
- C. Create a CMS channel for the community and assign it to the workspace
- D. Import the content into the community via Data Loader

Answer: B

Explanation:

To target CMS content at a particular store, an Administrator needs to B. Create CMS content and assign it in Experience Builder.

This involves creating content within the CMS workspace and then using Experience Builder to place and assign this content to specific pages or components within the store, ensuring it appears in the desired location.

NEW QUESTION # 100

What is the limit on the category hierarchy in terms of child records in B2B Commerce?

Choose 7 option.

Send a comment about this question

- A. 4.0
- B. 2.0
- C. 5.0
- D. 3.0

Answer: C

Explanation:

The limit on the category hierarchy in terms of child records in B2B Commerce is C. 5.0. This means that within the category structure, a parent category can have up to five levels of child categories beneath it. This hierarchical structure allows for organizing products into categories and subcategories, providing a clear and navigable structure for users.

NEW QUESTION # 101

A company wants their homepage to have a different look and feel for a user that has logged into the site versus a guest user. What should an Administrator create to allow the targeted specific user segments for the home page?

- A. An Audience
- B. A custom component
- C. Page variations
- D. A Brand Set

Answer: C

Explanation:

To target specific user segments for the homepage, an Administrator should create Page Variations (D). Page variations allow for the customization of content and layout based on audience segments, such as logged-in users versus guest users, providing a personalized experience based on the user's status or other criteria.

NEW QUESTION # 102

.....
