### Microsoft Managing Microsoft Teams Sample Questions (Q161-Q166):

#### NEW QUESTION # 161

Your company uses Teams.

You have a team named Team1.

You need to prevent guest users from accessing files in Team1. The solution must NOT affect external collaboration with any other teams.

What should you do?

- A. From the Microsoft Entra admin center, create a Conditional Access policy.
- B. From the Microsoft Entra admin center, configure the External collaboration settings for guest users.
- C. From the Microsoft Teams admin center, set external access to Block all external domains.
- **D. From the SharePoint admin center, edit the External sharing settings for the associated site.**
- E. From the Microsoft Teams admin center, set Allow guest access in Teams to Off.

**Answer: D**

#### NEW QUESTION # 162

Your company has a Microsoft 365 subscription.

You attempt to review call quality by location.

When you sign in to the Microsoft Call Quality Dashboard, you discover that no locations are defined.

You need to ensure that all the call quality information in the dashboard is segmented by location.

What should you do first?

- A. From the Microsoft Teams admin center, run the Network Planner.
- B. Run the PowerShell cmdlet Set-CsQoEConfiguration.
- **C. From the Microsoft Teams admin center, configure reporting labels.**
- D. Run the Network Testing Companion by using administrator privileges.

**Answer: C**
