SAP Certified Associate - SAP SuccessFactors People Analytics: Reporting Sample Questions (Q46-Q51):

NEW QUESTION # 46

When you share a canvas report, from where can the user access that report? Note: There are 2 correct answers to this question.

- A. Home Page
- B. **Reporting Menu**
- C. Metrics Panel
- D. Report Center

Answer: B,D

Explanation:

- * Reporting Menu (A):
- * Users can access shared canvas reports directly from the Reporting Menu in SAP SuccessFactors.
- * Report Center (D):
- * The primary location for managing and accessing all types of reports, including shared canvas reports, is the Report Center.

NEW QUESTION # 47

In a Story, which of the following would make it possible for a filter to update multiple charts using linked analysis? Note: There are 2 correct answers to this question.

- A. The charts should have the same data source.
- B. The data sources for the charts should contain linked dimensions.
- C. The charts should use the same measures.
- D. The chart should use the same aggregation.

Answer: A,B

Explanation:

To enable a filter to update multiple charts using linked analysis in a Story report:

* Same Data Source (C):

* All the charts must share the same data source to allow consistent filtering and updates across the visuals.

* Linked Dimensions in Data Sources (D):

* If the charts use different data sources, those sources must contain linked dimensions to allow the filter to propagate changes.

NEW QUESTION # 48

When you use a column of type text as a measure in a pivot query, which of the following pivot functions are available? Note: There are 2 correct answers to this question.

- A. Distinct Count
- B. Max
- C. Sum
- D. Concatenate

Answer: A,D

Explanation:

* Concatenate (B):

* Text columns can be concatenated, combining multiple values into a single string.

* Distinct Count (D):

* This function counts the number of unique entries in the text column.

NEW QUESTION # 49

You are building a performance report with the Story report type. In reviewing the Performance Management schema, you notice that the 2019 Performance Review Table is listed in the Available Data section. You begin the query by adding the Basic User Information table from the User schema. You notice that the 2019 Performance Review Table is NO longer listed in the Available Data section. Why is the 2019 Performance Review table NOT in the list?

- A. Only related or joined tables appear as available.
- B. You do NOT have the data access permission to the schema.
- C. You do NOT have RBP permission to the fields of the table.
- D. The table does NOT have a Report Object Configuration Entity record.

Answer: A

Explanation:

* Schema and Table Relationships

* In SAP SuccessFactors Story Reporting, tables are only displayed in the Available Data section if they have a direct relationship or join with the selected starting table (in this case, Basic User Information).

* Why the 2019 Performance Review Table is Missing

* Since the Basic User Information table is selected, only tables directly related to it will appear.

The 2019 Performance Review Table is likely not joined directly to the User schema.

* Why Other Options are Incorrect

* B (No Report Object Configuration Entity record): The table is present in the schema, so it must have a valid ROCE record.

* C (No RBP permission): This would prevent any access to the table but does not explain its absence from the Available Data section.

* D (No data access permission): This would restrict data access, not the visibility of the table.

* SAP SuccessFactors Story Reporting Guide

NEW QUESTION # 50

What is a prerequisite for using the SuccessFactors standard canvas report templates?

- A. The customer must have enabled the templates in Provisioning.
- B. The templates must have been loaded within Report Center.

- C. The templates must have been downloaded from the Success Store.
- D. The customer must have licensed SuccessFactors Employee Central

Answer: A

Explanation:

- * Enabling Templates in Provisioning:
* SuccessFactors standard canvas report templates must be enabled in Provisioning by an implementation partner or SAP administrator before they can be used.

NEW QUESTION # 51
