BONUS!!! Download part of NewPassLeader NCP-CI-Azure dumps for free: https://drive.google.com/open?id=1jduPmukdQE_DSSaTrDxETzcBQCIQ4XVD

We are the fastest to pursue acquiring NCP-CI-Azure certification; we are the highest to pursue protecting your benefits. Our NewPassLeader ensures the accuracy and the most coverage of NCP-CI-Azure Certification Exam Dumps. If you purchase NCP-CI-Azure certification exam dumps, we will ensure that you can get free update service in one year.

Our NCP-CI-Azure Study Materials are compiled by domestic first-rate experts and senior lecturer and the contents of them contain all the important information about the test and all the possible answers of the questions which maybe appear in the test. You can use the practice test software to check your learning outcomes. Our NCP-CI-Azure study materials' self-learning and self-evaluation functions, the statistics report function, the timing function and the function of stimulating the test could assist you to find your weak links, check your level, adjust the speed and have a warming up for the real exam. You will feel your choice to buy Nutanix Certified Professional (NCP) study materials are too right.

Reliable NCP-CI-Azure Exam Cost | Standard NCP-CI-Azure Answers

NCP-CI-Azure practice exam takers can even access the results of previous attempts which helps them in knowing and overcoming their mistakes before appearing in the NCP-CI-Azure final test. There are thousands of students that bought NewPassLeader's NCP-CI-Azure Practice Exam and got success on their initial tries. We guarantee that if you take our provided Nutanix NCP-CI-

Azure exam dumps you will crack the NCP-CI-Azure Exam in a single try.

Nutanix NCP-CI-Azure Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Managing an NC2 on Azure Environment: This section relates to skills in identifying management tasks for nodes and clusters. Candidates will monitor cluster health and cloud resource performance, ensuring that all components function efficiently. Understanding these management tasks is vital for maintaining operational integrity in a hybrid cloud environment.
Topic 2	<ul style="list-style-type: none">Planning an NC2 on Azure Deployment: This section of the exam measures the skills of IT Administrators and covers the preparation of the Azure cloud environment, including determining the appropriate Azure account and node types. It also involves subscribing to the NC2 service, which requires knowledge of authentication methods and organization naming conventions. Additionally, candidates must determine implementation requirements by evaluating deployment use cases and redundancy needs. Identifying networking requirements is crucial, focusing on connectivity options like VPN and CIDR ranges.
Topic 3	<ul style="list-style-type: none">Deploying an NC2 on Azure Environment: This section assesses the skills of Nutanix Cloud Operators and focuses on deploying the cloud cluster within the Azure environment. Candidates will learn to configure cloud provider networking effectively, ensuring that all necessary resources are correctly set up for deployment.
Topic 4	<ul style="list-style-type: none">Configuring an NC2 on Azure Environment: This section evaluates the skills of IT Administrators and emphasizes modifying cloud networking security to protect resources. Candidates will configure Nutanix networking settings and troubleshoot connectivity issues to ensure seamless communication within the cloud environment.

Nutanix Certified Professional - Cloud Integration - Azure (NCP-CI-Azure v6.7) Sample Questions (Q62-Q67):

NEW QUESTION # 62

What is the purpose of an organization in the NC2 console?

- A. To map the on-premises Prism Central environment
- B. To link with NC2 subscription plans
- C. To segregate clusters based on specific requirements
- D. To Link with a Public Cloud account

Answer: C

Explanation:

* Purpose of an Organization in NC2: In the NC2 console, an organization serves to manage and segregate clusters based on specific requirements such as departmental needs, project goals, or security policies.

* Cluster Management: This segregation allows administrators to apply unique configurations, permissions, and policies to different clusters within the same environment, providing flexibility and control over resource allocation and management.

* Best Practices for Managing NC2 Clusters

NEW QUESTION # 63

An administrator is tasked with providing User VMs in Azure that are hosted within a Flow NAT network outbound internet connectivity.

In which order would the traffic flow through each component?

- A. User VM > Delegated Subnet > Flow Gateway > Floating IP Address > Azure LB
- B. User VM > Delegated Subnet > Flow Gateway > Floating IP Address > Azure NAT GW

- C. User VM > Floating IP Address > Flow Gateway > Azure LB
- D. User VM > Flow Gateway > Floating IP Address > Azure NAT GW

Answer: B

Explanation:

- * User VM: The initial source of the traffic within the Azure environment.
- * Delegated Subnet: Traffic from the User VM flows through the delegated subnet, which is configured to handle specific network traffic.
- * Flow Gateway: The Flow Gateway manages and routes the traffic from the delegated subnet, providing network services and connectivity.
- * Floating IP Address: The Flow Gateway assigns a floating IP address for the outbound traffic, facilitating NAT operations.
- * Azure NAT Gateway: The traffic is then routed through the Azure NAT Gateway, which provides outbound internet connectivity for the User VMs, ensuring secure and efficient routing.

References:

- * Azure Virtual Network NAT Documentation
- * Nutanix NC2 Configuration Guide

NEW QUESTION # 64

An administrator is tasked to identify the firewall requirement and submit the port request to the requirement team before the clusters deployment.

Which requirement should the administrator ensure is implemented on the corporate firewall?

- A. ICMP and connectivity can be disabled between the CVMs, Prism Element, and Prism Central
- B. ICMP can be disabled but the connectivity should be enabled between the CVMs, Prism Element, and Prism Central.
- C. Allow uni-directional internet Control Message Protocol (ICMP) traffic between the CVMs, Prism Element, and Prism Central.
- **D. Allow bi-directional Internet Control Message Protocol (ICMP) traffic between the CVMs, Prism Element, and Prism Central.**

Answer: D

Explanation:

- * ICMP Traffic: ICMP is essential for network diagnostics and troubleshooting, such as ping and traceroute, which help in monitoring the connectivity and health of the network.
- * Bi-Directional Traffic: Allowing bi-directional ICMP traffic ensures that all nodes (CVMs, Prism Element, and Prism Central) can both send and receive diagnostic messages, which is crucial for maintaining proper communication and network stability.

- * Nutanix Networking and Connectivity Requirements
- * Corporate Firewall Configuration Guidelines

NEW QUESTION # 65

Native Azure VMs exist in a subnet (10.20.80.0/20) in the Prism Central VNet that need access to the workload running on the Nutanix User.

What needs to be modified to allow access from the native Azure VMs to the workloads running in the Nutanix User VPC?

- **A. Adjust the Inbound Network Security Group on the Flow Gateway VM Internal NIC to allow traffic 10.20.80.0/20.**
- B. Adjust the Inbound Network Security Group on the Flow Gateway VM External NIC to allow traffic 10.20.80.0/20.
- C. Remove the ERP value on the transit VPC and Nutanix User VPC.
- D. Change the ERP value to the subnet range of the native Azure VMs (10.20.80.0/20) on the Transit VPC and the Nutanix User VPC.

Answer: A

Explanation:

To allow access from the native Azure VMs to the workloads running in the Nutanix User VPC, the administrator needs to:

- * Adjust the Inbound Network Security Group (NSG) on the Flow Gateway VM's Internal NIC.
- * Specifically, allow traffic from the subnet range of the native Azure VMs (10.20.80.0/20) in the Inbound rules of the NSG

associated with the Internal NIC of the Flow Gateway VM.

This configuration change permits the desired network traffic, ensuring that the native Azure VMs can communicate with the workloads in the Nutanix User VPC. References

NEW QUESTION # 66

A company has just adopted Nutanix as their technology of choice and is preparing to deploy Nutanix Cloud Clusters (NC@). Which step must be taken first to gain access to the NC2 console?

- **A. Create a My Nutanix account.**
- B. Open a support case with Nutanix.
- C. Navigate to doud.nutanix.com.
- D. Start a free trial via Billing Portal.

Answer: A

Explanation:

- * Initial Access: To gain access to the NC2 console, users need to create an account on the Nutanix platform.
- * My Nutanix Account: Creating a My Nutanix account provides access to the Nutanix console, support, and other resources.
- * Free Trial and Billing Portal: Starting a free trial or accessing the billing portal can be subsequent steps but require an initial account.
- * Support Case: Opening a support case is not necessary for initial access but might be needed for specific issues later.
- * Conclusion: Creating a My Nutanix account is the first step to accessing the NC2 console and other Nutanix services.

NEW QUESTION # 67

.....

Our company provides three different versions to choice for our customers. The software version of our NCP-CI-Azure exam question has a special function that this version can simulate test-taking conditions for customers. If you feel very nervous about exam, we think it is very necessary for you to use the software version of our NCP-CI-Azure guide torrent. The simulated tests are similar to recent actual exams in question types and degree of difficulty. By simulating actual test-taking conditions, we believe that you will relieve your nervousness before examination. So hurry to buy our NCP-CI-Azure Test Questions, it will be very helpful for you to pass your exam and get your certification.
