MB-700 - Authoritative Microsoft Dynamics 365: Finance and Operations Apps Solution Architect Lab Questions

Preparation for the professional Microsoft Dynamics 365: Finance and Operations Apps Solution Architect (MB-700) exam is no more difficult because experts have introduced the preparatory products. With Real4Prep products, you can pass the Microsoft MB-700 Exam on the first attempt. If you want a promotion or leave your current job, you should consider achieving a professional certification like Microsoft Dynamics 365: Finance and Operations Apps Solution Architect (MB-700) exam.

Microsoft MB-700 Certification Exam is recognized worldwide and is highly valued by organizations that use the Dynamics 365 platform. Microsoft Dynamics 365: Finance and Operations Apps Solution Architect certification is proof that the candidate has the skills and knowledge required to design and implement solutions that meet the business requirements of clients using Microsoft Dynamics 365: Finance and Operations Apps. Microsoft Dynamics 365: Finance and Operations Apps Solution Architect certification also opens up new career opportunities and provides a competitive edge in the job market.

Identifying Licensing Needs & Costs

- Estimating the long-term costs for a solution.
- Setting the licensing requirements for third-party operations, apps & services, as well as finance apps.
- Approximating ongoing as well as upfront Cloud services and infrastructure costs.
- Estimating the cost and understanding the benefits of each solution option.

Microsoft Dynamics 365: Finance and Operations Apps Solution Architect Sample Questions (Q112-Q117):

NEW QUESTION # 112

A company plans to implement Dynamics 365 Supply Chain Management.

The company's employees have been using the same system and processes for many years. Employees are reluctant to change the old processes.

You need to create an adoption plan and measure the effectiveness of the plan.

In which phase does each activity belong? To answer, drag the appropriate phases to the correct activities.

Each phase may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:
Explanation:
Box 1: Onboard
Phase two: Onboard
Work with your key stakeholders to build and launch your adoption plan. Prepare your environment and test your adoption approach with Early Adopters. Use feedback to make adjustments before scaling to the business. In this phase, you will:
Build your adoption plan.
Launch to Early Adopters.
Adjust your plan.
Box 2: Drive value
Phase three: Drive value
Full-scale deployment and business success depend on usage and satisfaction. This requires planning through the Envision and Onboard phases plus ongoing operational excellence. In this phase, you will:
Monitor end-user adoption.
Measure and report usage.
Encourage ongoing engagement.

NEW QUESTION # 113

You need to solve User1's issue.
What should you create?

- A. Business Process Modeling Notation (BPMN) with Power Automate
- B. GitHub Solution Blueprint template
- C. Data Migration framework data packages
- D. GitHub Cutover template

Answer: C

Explanation:
Data migration is a key success factor in almost every implementation. A primary concern of some customers is the speed that data can be migrated at, especially if there are vast amounts of data and a small cutover window. The Data migration framework is also used to move data as part of business requirements and operations.
A data package for a Dynamics 365 Finance and Operations app can consist of one or many data entities. A typical data package consists of a group of entities for a specific task, process, or function.
Note: A mock cutover was conducted. It was unsuccessful due to lack of coordination across the countries.
The lack of success created timing issues with data uploads from centralized IT and validation at the country level. User1 must use a standard template to prevent the mock cutover issue happening at go-live.

NEW QUESTION # 114

A company is implementing Dynamics 365 Supply Chain Management. The company is enrolled in the FastTrack program.

A project manager who is building a project plan needs to know which workshops discuss specific topics.

You need to identify the workshops in which each topic discussed.

Which workshop is used for each topic? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:
