- D. project cost management by making incremental payments on contracts.

**Answer: C**

#### **NEW QUESTION # 100**

During the implementation of a story, a scrum team notifies the scrum master of a technical challenge that is causing a delay. What should the scrum master advise the team to do?

- A. Implement the story since the team is running behind schedule.
- **B. Create a spike to finalize the story's technical approach.**
- C. Transfer the story to a scrum team experienced in solving similar problems.
- D. Ask the product owner to reduce the story's priority and wait until more technical details are available.

**Answer: B**

#### **NEW QUESTION # 101**

Hotspot Question

Organizations that implement agile project management focus on upgrading existing products and services through cost reductions, time savings, or quality enhancements for existing customers (i.e., operational agility). Organizations need to realize that the major financial gains from agile project management will result from the practice of what? (Select answer from dropdown)

**Answer:**

Explanation:

#### **NEW QUESTION # 102**

An agile project has three more iterations before the release. There is a lot of report functionality to be created and defects to be cleared. During a daily scrum, a team member suggests a timebox spike to find a more efficient way to deliver reports. What should the project leader do?

- A. Direct the team to defer the spike until the next release and add the action on the backlog for prioritization.
- B. Encourage the team to complete their just existing work since the team velocity indicates they are already struggling to meet the release goal.
- **C. Encourage the team to self-organize and determine how to best complete their existing work and this spike.**
- D. Direct the team to work on the spike immediately given the importance of reporting functionality to complete the iteration.

**Answer: C**

#### **NEW QUESTION # 103**

A product's scope and acceptance criteria have been defined, and the product is planned for release at the end of the next quarter. What should the project team do next?
