New FCSS_NST_SE-7.4 Exam Preparation & FCSS_NST_SE-7.4 Hot Questions

The cost of registering for a certification FCSS - Network Security 7.4 Support Engineer (FCSS_NST_SE-7.4) exam is quite expensive, ranging between \$100 and \$1000. After paying such an amount, the candidate is sure to be on a tight budget. PracticeTorrent provides FCSS - Network Security 7.4 Support Engineer (FCSS_NST_SE-7.4) preparation material at very low prices compared to other platforms. We also assure you that the amount will not be wasted and you will not have to pay for the FCSS - Network Security 7.4 Support Engineer (FCSS_NST_SE-7.4) certification test for a second time.

Fortinet FCSS_NST_SE-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Routing: This part of the exam examines the expertise of Fortinet network and security professionals, in routing enterprise traffic effectively.
Topic 2	<ul style="list-style-type: none"> Security Profiles: This segment of the exam tests the skills of IT professionals, such as network administrators in handling and troubleshooting security profile-related challenges.
Topic 3	<ul style="list-style-type: none"> VPN: This section tests the knowledge of IT professionals, such as system engineers in diagnosing and resolving VPN-related issues. It emphasizes troubleshooting IPsec IKE versions 1 and 2 to ensure secure and reliable communication between networks or remote users.
Topic 4	<ul style="list-style-type: none"> Authentication: This section evaluates the proficiency of Fortinet network and security professionals in resolving both local and remote authentication issues.
Topic 5	<ul style="list-style-type: none"> System Troubleshooting: This part of the exam assesses the ability of Fortinet network and security professionals to diagnose and fix typical system-related problems within Fortinet solutions. It involves troubleshooting FortiGate-to-FortiGate Security Fabric issues, addressing automation stitch concerns, and detecting resource-related problems using integrated tools.

Fortinet FCSS - Network Security 7.4 Support Engineer Sample Questions (Q61-Q66):

NEW QUESTION # 61

In IKEv2, which exchange establishes the first CHILD_SA?

- A. IKE_Auth
- B. IKE_SA_INIT
- C. CREATE_CHILD_SA
- D. INFORMATIONAL

Answer: C

NEW QUESTION # 62

Refer to the exhibit, which shows the output of a BGP debug command.

```
# get router info bgp summary

VRF 0 BGP router identifier 0.0.0.117, local AS number 65117
BGP table version is 3
3 BGP AS-PATH entries
0 BGP community entries

Neighbor      V      AS MsgRcvd MsgSent  TblVer  InQ  OutQ  Up/Down  State/PfxRcd
10.125.0.60   4      65060   1698    256     103   0     0 03:02:49      1
10.127.0.75   4      65075   2206    2250    102   0     0 02:45:55      1
100.64.3.1    4      65501    101     115     0     0     0 never          Active

Total number of neighbors 3
```

What can you conclude about the router in this scenario?

- A. The BGP session with peer 10.127.0.75 is up.
- B. The router 100.64.3.1 needs to update the local AS number in its BGP configuration in order to bring up the BGP session with the local router.
- C. An inbound route-map on local router is blocking the prefixes from neighbor 100.64.3.1.
- D. All of the neighbors displayed are part of a single BGP configuration on the local router with the neighbor-range set to a value of 4.

Answer: A

NEW QUESTION # 63

Refer to the exhibits. An administrator is attempting to advertise the network configured on port3.

However, FGT-A is not receiving the prefix.

Which two actions can the administrator take to fix this problem? (Choose two.)

Exhibit 1

```
FGT-A # get router info bgp summary
...
Neighbor      V      AS  MsgRcvd  MsgSent  TblVer  InQ  OutQ  Up/Down  State/PfxRcd
192.168.37.202 4      65110    2500    2552      5     0     0 1d11h33m      0
```

Exhibit 2

```
FGT-B # show router bgp
config network
edit 1
set prefix 172.16.0.0 255.255.0.0
next
end
```

Exhibit 3

```
FGT-B # diagnose ip address list | grep port3
IP=172.16.54.115->172.16.54.202/255.255.255.0 index=5 devname=port3
```

- A. Manually add the BGP route on FGT-A.
- **B. Modify the prefix using the network command from 172.16.0.0/16 to 172.16.54.0/24.**
- **C. Use the set network-import-check disable command.**
- D. Restart BGP using a soft reset to force both peers to exchange their complete BGP routing tables.

Answer: B,C

Explanation:

BGP's network statement only advertises prefixes that exactly match routes in the RIB by default.

Since port3 is 172.16.54.0/24, changing the prefix to 172.16.54.0/24 ensures it's in the routing table and will be advertised.

You can disable the network import check global (or per prefix) setting so FortiGate will advertise the 172.16.0.0/16 prefix even though no matching route exists in the RIB.

NEW QUESTION # 64

An administrator wants to capture encrypted phase 2 traffic between two FortiGate devices using the built-in sniffer.

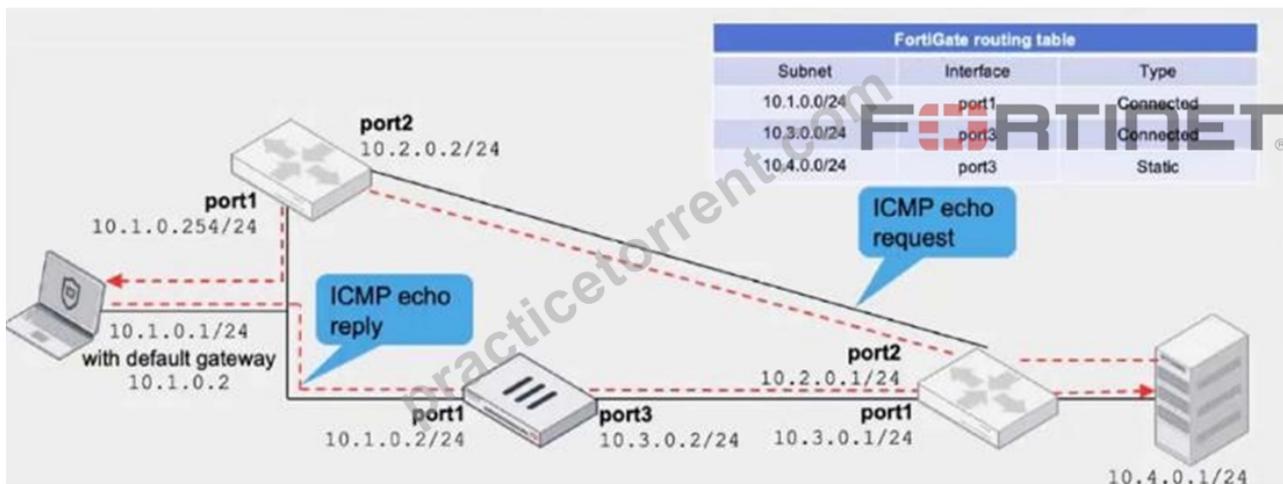

If the administrator knows that there is no NAT device located between both FortiGate devices, which command should the administrator run?

- A. diagnose sniffer packet any 'udp port 500'
- **B. diagnose sniffer packet any 'ip proto 50'**
- C. diagnose sniffer packet any 'ah'
- D. diagnose sniffer packet any 'udp port 4500'

Answer: B

NEW QUESTION # 65

Refer to the exhibit, which a network topology and a partial routing table.

FortiGate has already been configured with a firewall policy that allows all ICMP traffic to flow from port1 to port3. Which changes must the administrator perform to ensure the server at 10.4.0.1/24 receives the echo reply from the laptop at 10.1.0.1/24?

- A. Change the configuration from strict RPF check mode to feasible RPF check mode.
- B. A firewall policy that allows all ICMP traffic from port3 to port1.
- C. Modify the default gateway on the laptop from 10.1.0.2 to 10.2.0.2.
- **D. Enable asymmetric routing under config system settings.**

Answer: D

NEW QUESTION # 66

.....

With precious time passing away, many exam candidates are making progress with high speed and efficiency. You cannot lag behind and with our FCSS_NST_SE-7.4 preparation materials, and your goals will be easier to fix. So stop idling away your precious time and begin your review with the help of our FCSS_NST_SE-7.4 learning quiz as soon as possible. By using our FCSS_NST_SE-7.4 exam questions, it will be your habitual act to learn something with efficiency.
