NEW QUESTION # 67

Your client wishes to use amount-based line items when they are ordering a service, for example, they might order \$5000 of consulting services over the next year.

Which two fields can be defaulted in from the purchase order line?

- A. Unit of Measure (UOM)
- B. Category Name
- C. Context Prompt
- D. Catalog
- E. Functional Area

Answer: A,B

NEW QUESTION # 68

To improve usability and reduce errors, you have set a default negotiation template for each document type when creating or editing a negotiation style.

This feature is always enabled but you do not always see the template that was set on the negotiation style defaulting in. What could be two reasons for this?

- A. It is a private template where only the template owner can use it.
- B. The template is active at the time of creating the negotiation.
- C. The template is inactive at the time of creating the negotiation.
- D. It is a public template.
- E. It is a global template and the negotiation is created in the same BU as the template.

Answer: A,C

Explanation:

The default negotiation template for each document type is only applied when creating or editing a negotiation style if the template is active and public. If the template is inactive or private, the template will not be defaulted in. Therefore, the two reasons why you do not always see the template that was set on the negotiation style defaulting in are:

* The template is inactive at the time of creating the negotiation. An inactive template cannot be used for creating or editing negotiations, and it will not be displayed in the list of available templates. You need to activate the template before you can use it as a default template.

* It is a private template where only the template owner can use it. A private template is only visible and accessible to the user who created it, and it will not be shared with other users. You need to make the template public if you want to use it as a default template for all users.

NEW QUESTION # 71

You want to send your purchasing documents from a specific organization-wide email address. What task would you use to set this up?

- A. Manage Purchasing Profile Messaging Options
- **B. Manage Purchasing Profile Options**
- C. Manage Purchasing Application Core Messages
- D. Manage Purchasing Value Sets
- E. Manage Purchasing Messages

Answer: B

Explanation:

To send your purchasing documents from a specific organization-wide email address, you need to use the task Manage Purchasing Profile Options. This task allows you to configure various profile options that control the behavior and functionality of the Purchasing application. One of these profile options is PO: Email Sender Address, which specifies the email address that appears in the From field of the email notifications sent to suppliers and internal users. You can set this profile option at the site level to apply it to all business units, or at the product level to apply it to a specific business unit.
