ISTQB Certified Tester Advanced Level - Test Manager Sample Questions

(Q209-Q214):

NEW QUESTION # 209

Following identification of a number of costly system performance failures late in the development lifecycle, your organisation has introduced a more rigorous review process for system design documents and source code to enhance phase containment. There will be subsequent checks to see if the improved review process detects/prevents these types of performance defects which are likely to have the highest impact on the technical behavior of the system. You have been tasked with evaluating the current defect management tool that will be used to support the reviews and dynamic testing, to ensure that the correct defect data attributes will be captured to enable these checks to be done.

Which three of the following attributes would be MOST effective?

- a) Phase of introduction
- b) Severity
- c) Steps to reproduce the failure
- d) Resolution details
- e) Phase of detection

SELECT ONE OPTION

- A. b, c and d.
- B. a, b and c.
- C. a, b and e.
- D. b, d and e.

Answer: C

NEW QUESTION # 210

Which of the following would be the TWO most appropriate examples of entry criteria documented in the system integration test plan? 2 credits

- A. The availability of the latest version of the capture-replay tool (for testing the interface with the newly developed test management tool).
- B. The percentage of requirements coverage achieved during system integration test.
- C. The percentage of acceptance test procedures scheduled for execution.
- D. The sign-off of a performance test software release note (test item transmittal report) by both development and testing showing that system performance meets the specified acceptance criteria.
- E. The percentage of decision coverage achieved during unit testing.

Answer: A,E

NEW QUESTION # 211

Refer to SCENARIO 1

Week 4 of test execution has been completed and the following test report has been produced

□ Review this report against the organisational Test Strategy, what is the status of the Test Strategy objectives?

SELECT ONE OPTION

- A. Test strategy objective 1 and 2 have been met. Test strategy objective 3 has NOT been met.

NEW QUESTION # 212

Which of the following phases in the fundamental test process is considered to deliver a document which can be used as a major input for test process improvement? 1 credit

- A. Test project closure
- B. Test implementation & execution

- C. Test planning and control
- D. Evaluating exit criteria and reporting

Answer: A

Explanation:

Topic 9, Scenario 9 "Test Management Documentation"

A software house is concerned about the number of defects found in software released to its customers. They are starting to plan a new software product. In the past, releases have often been stopped due to poor planning and too many defects found during high level testing. You have been recruited to the newly created position of test manager and asked to develop a test strategy, manage the testing of the project and organize the resources needed to carry out the testing.

NEW QUESTION # 213

Comparing TMMi and TPI, which is not a valid reason for choosing either TPI or TMMi? 2 credits

- A. If the organization is already applying CMMI, TMMi may be preferred since it has the same structure and uses the same terminology. TMMi addresses management commitment very strongly and is therefore more suitable to support a top-down improvement process.
- B. If the scope of test performance improvement covers all test levels, TMMi is preferred since TPI focusses mainly on black-box testing.
- C. TPI is much more a bottom-up model that is suitable for addressing test topics for a specific (test) project.
- D. TMMi can only be used with the traditional V model, whereas TPI can be used with all types of software life cycles.

Answer: D
