Latest MB-330 Exam Vce, MB-330 Latest Test Braindumps

The ITCertMagic offers latest Microsoft Dynamics 365 Supply Chain Management Functional Consultant MB-330 exam questions and answers, with Microsoft MB-330 exam practice test questions you can ace your Microsoft MB-330 exam preparation simply and quickly and pass the final MB-330 Exam easily. The Microsoft MB-330 exam practice test questions will assist you in Microsoft MB-330 exam preparation.

Microsoft MB-330 certification exam is an essential step for individuals who want to demonstrate their proficiency in Dynamics 365 Supply Chain Management functionality and solution capabilities. Microsoft Dynamics 365 Supply Chain Management Functional Consultant certification is valuable for functional consultants who work with supply chain management processes and who want to enhance their career prospects. By passing the MB-330 Exam, candidates can demonstrate their expertise in Dynamics 365 Supply Chain Management and provide their organization with a competitive advantage.

Microsoft Dynamics 365 Supply Chain Management Functional Consultant Sample Questions (Q124-Q129):

NEW QUESTION # 124

You are the quality supervisor for a company. You receive 100 units of item C0001.

You find defects in some units. You move the items to quarantine for further inspection. Fifty units fail inspection.

You need to scrap the defective units.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:

Explanation:

- 1 - From the Quarantine order, select the Split function.
- 2 - Enter a split quantity 50.
- 3 - Select the scrap function
- 4 - Enter a scrap quantity 50.

NEW QUESTION # 125

You need to implement location directives in Dynamics 365 for Finance and Operations.

Which objects should you use? To answer, drag the appropriate objects to the correct permissions. Each object may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation

NEW QUESTION # 126

You are a functional consultant for a company named Contoso Entertainment System USA (USMF).

You plan to manage safety stock level.

You need to configure a minimum stock level of 1,500 units for an item named StandardSpeakerUpSel in warehouse number 13. To complete this task, sign in to Dynamics 365 portal.

Answer:

Explanation:

See explanation below.

Explanation:

Select Product information management > Products > Released products and then select the product (StandardSpeakerUpSel), and then on the Action Pane, in the Plan tab, in the Coverage group, select Item coverage to open the Item coverage page.

Select Min/Max in for the Coverage code and enter the value 1,500 for the Minimum value.

NEW QUESTION # 128

Case Study 5 - Trey Research

Background

Trey Research is a multinational manufacturer of health and dietary supplements based in Seattle, Washington. The company is

experiencing a rapid expansion not only in its supplements but as a lifestyle brand that also sells apparel. The supplements and apparel businesses operate independently but manufacture and operate in the same legal entity.

Current environment

Technology

Trey Research is migrating from an outdated, on-premises version of Dynamics AX to Dynamics 365 Supply Chain Management. The company wants to retain a lot of its current data structures and processes but adopt new efficiencies when the benefit is obvious. The company uses a third- party e-commerce site that is custom developed by an internal developer.

Current environment. Items

Product numbering

All items are numbered by using a smart numbering format: [Product SKU+Size+Color+Style].

For reporting, items are queried for sales and inventory reports by using the first six digits of the item number or until the first dash is encountered.

- A t-shirt could be 01001-S-Red for item 1001 in a size small with the color red.
- A single energy drink could be 02001-12oz or 02001-20oz for the different sizes that product 02001 is sold in.

Product attributes

- All clothing shares the same set of product attributes.
- Supplements may share the same Product SKU but can have different attributes for the different size, color, or style variations of the product.
- Product attributes that are unnecessary for an item should be excluded from the item

Pricing

- All items always have a default price. This price will not expire.
- An item will have four different prices created for it every month, one for each customer tier, as detailed later in this section. The pricing expires at the end of the month. If no special pricing is created, the default item price will be used.
- The monthly sales price in which the additional price breaks are determined is based on the estimated cost of the manufactured items.
- Customers are categorized into four pricing tiers (A, B, C, and D) based on sales volume over the past 12 months.
- Customers can negotiate special pricing for items in 30-day, 60-day, and 90-day increments.

Quantity restrictions may be placed, depending on the item discount and promotion.

- Promotional pricing is not used today. Pricing is restricted to monthly prices and customer- specific contract pricing.

Cost

Items use a FIFO costing model today in their current Dynamics AX 2009 environment; however, using the FIFO costing method has created problems.

Current environment. Warehouse and inventory

- Warehouse requirements are simplistic. There is only one site. The site has two warehouses.
- Trey Research needs to make sure that any energy drinks and nutritional supplements are manufactured and packaged with the highest standards. Trey Research automatically inspects products when all products are reported as finished. All products are inspected again when the items are picked.
- Energy drinks require independent tests to check for dents in packaging, carbonation levels, and fill level.
- Nutritional supplements require separate tests for packaging, expiration date, product seal, and product labeling.
- Government compliancy and consistency testing are handled outside of the Enterprise Resource Planning (ERP) system.
- Resalable products are placed on one of two racks in the warehouse.

Requirements

Requirements. Technology

Trey Research will integrate all pricing and discount capabilities to its e-commerce website.

Requirements. Items

- Reporting on products should be streamlined as much as possible.
- The item numbering does not have to equate to the actual item number.
- The future costing methods adopted must be commonly accepted for manufacturers.
- Inventory costing should be done after a full inventory valuation is complete. It should take into consideration the direct materials, direct labor, and overhead that goes into an item.
- Any costing method used needs the ability to track cost records about an item, cost categories, and calculation formulas for indirect costs.
- The profitability for nutritional supplements manufacturing processes needs to be expressed in terms of the cost categories for routing operations and the calculation formulas for manufacturing overheads.
- If a vendor can no longer deliver the raw materials for the energy drinks due to supply chain issues, the costs for using an alternative vendor to source the raw materials should be used to determine the impact on profits.
- Apparel items will not be upgraded to the new costing method until after the go-live date due to resourcing and implementation limitations from the apparel team.

Requirements. Pricing

Trey Research plans to do promotional pricing. Certain products will receive special pricing during the hours of extreme sporting events that Trey Research sponsors. Before or after the event, normal pricing will resume.

Requirements. White labeling

- Trey Research wants to start white labeling its products under the brands of major nutritional retail store brands. These products would only be sold to specific customers.
- Trey Research will provide and maintain a 'Compare to' price for customers to use to compare the white-labeled products. This Compare to price will also be the default item price for the customer if the customer accidentally lets a contract price expire.
- The configuration of these restrictions must be applied automatically when creating new products for those customers.

Requirements. Warehouse and inventory

- If products in the warehouse must be blocked from transactions for a specific reason, such as a health and safety review, warehouse users should be able to block the products quickly from the ERP system.
- All product quality tests should be processed in a uniform and consistent manner.
- Creation of any quality processes for products inbound to the warehouse, from the production line, or outbound from the warehouse to consumers should be automatically created to facilitate execution.

Testing requirements:

Requirement 1: 100 percent of all nutritional supplements and 50 percent of all energy drinks must be tested when production orders are completed. After a product is in testing, 100 percent of all tests must be completed.

Requirement 2: 75 percent of all nutritional supplements and energy drinks should be tested against their required tests during an outbound process.

Damaged products must be placed in one of four bins (based on product type) during the inspection process.

You must define quarantine zones to optimize product visibility throughout the testing process.

Hotspot Question

You need to configure the pricing for the white-labeled products.

Which system object should you configure? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Box 1: Price Group

Note: Requirements. White labeling

- Trey Research will provide and maintain a 'Compare to' price for customers to use to compare the white-labeled products. This Compare to price will also be the default item price for the customer if the customer accidentally lets a contract price expire.

Price Group

In Microsoft Dynamics AX, price groups can be used to specify a set of prices that you want apply to a group of customers, vendors, or items.

* For item transactions, prices are derived from price groups that are referenced in trade agreements in the Sales and marketing module.

Box 2: Trade allowance

Note: Customers are categorized into four pricing tiers (A, B, C, and D) based on sales volume over the past 12 months.

Promotional fund and Trade allowance agreement

A trade allowance agreement is an incentive program where pay-for-performance monetary rewards are offered to customers that achieve specific volume targets and/or behavioral goals.

Promotional funds are budgeted expenditures. In that way, the promotional campaigns can be captured.

Box 3: Price Group
