

Latest New VMware 2V0-32.24 Dumps - Right Preparation Method [2026]

DOWNLOAD the newest Free4Torrent 2V0-32.24 PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=15pd6RZnhMYB4dO68FX8E8BcZyT81vt9Y>

Customizable VMware Cloud Operations 8.x Professional V2 (2V0-32.24) practice tests (desktop and web-based) of Free4Torrent are made to ensure excellent practice of applicants. Users can take multiple 2V0-32.24 practice exams. And the previous exam progress can be saved, so candidates can track it easily whenever they want to see the mistakes. The exam is tough to pass, and that's why 2V0-32.24 provides our customers with all the best VMware 2V0-32.24 exam dumps to pass the exam on the first try.

VMware 2V0-32.24 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Planning and Designing: This section of the exam measures the skills of Cloud Architects and covers the architectural models and sizing requirements for vRealize Operations and vRealize Log Insight. It evaluates the ability to choose between standalone, clustered, and high-availability setups, and to plan appropriately based on scenario-based requirements for capacity and deployment type, ensuring well-designed cloud solutions.
Topic 2	<ul style="list-style-type: none"> Performance-tuning, Optimization, and Upgrades: This section has no testable objectives and therefore is not directly assessed in the exam.
Topic 3	<ul style="list-style-type: none"> Administrative and Operational Tasks: This section of the exam measures skills of Cloud Administrators and covers daily operational tasks such as content and environment management in vRealize Suite Lifecycle Manager. It also includes managing licensing, alert systems, dashboards, metrics, cost assessments, capacity optimization, workload planning, and system monitoring. Additionally, it explores access control, patching, and retention settings in vRealize Log Insight, ensuring ongoing operational excellence across VMware tools.
Topic 4	<ul style="list-style-type: none"> Troubleshooting and Repairing: This section of the exam measures skills of Support Engineers and covers the diagnosis and resolution of common performance and configuration issues in vRealize Operations, Log Insight, and Lifecycle Manager. It also includes cluster management options, log bundle generation, password handling, and changing authentication settings, equipping professionals to ensure system reliability.

Latest 2V0-32.24 Exam Tips - Exam 2V0-32.24 Cram

Free4Torrent is a wonderful study platform that can transform your effective diligence in to your best rewards. By years of diligent work, our experts have collected the frequent-tested knowledge into our 2V0-32.24 exam materials for your reference. So our practice materials are triumph of their endeavor. By resorting to our 2V0-32.24 Exam Materials, we can absolutely reap more than you have imagined before. We have clear data collected from customers who chose our 2V0-32.24 practice materials, and the passing rate is 98-100 percent.

VMware Cloud Operations 8.x Professional V2 Sample Questions (Q26-Q31):

NEW QUESTION # 26

Which three factors determine the size of vRealize Operations deployment? (Choose three.)

- A. Number of Objects
- B. Number of Agents
- C. Number of Metrics
- D. Size of attached Cloud Proxies
- E. Size of monitored vCenter Servers
- F. Number of Remote Collectors

Answer: A,B,C

Explanation:

Number of Objects

vRealize Operations sizing is fundamentally driven by how many infrastructure and application objects (VMs, hosts, datastores, etc.) are being monitored - each additional object consumes CPU, memory, and storage resources on the cluster.

Number of Agents

When using Application Remote Collectors, the total count of agents (for OS and application#level metrics) per node directly affects capacity planning, as each agent connection incurs processing and storage overhead.

Number of Metrics

The volume of distinct metrics collected (across all adapters and agents) determines database size and I/O load; sizing guidelines specify maximum collected#metric counts per node to ensure performance.

NEW QUESTION # 27

Forty days ago, an administrator provisioned a Virtual Machine (vm-01) in preparation for a new project. The project has now been delayed due to budgetary constraints. As part of the monthly service management checks, a second administrator executes the reclaim action on all idle virtual machines and vm-01 is listed.

The second administrator accidentally reclaims all idle virtual machines including vm-01.

What action can the administrator complete to prevent this scenario from happening again?

- A. Increase the default value of the Exclude VM provisioned in the last x days setting.
- B. Create a dynamic group with membership based on vSphere tags so that all new virtual machines are included and then exclude the entire group from reclaim analysis.
- C. Create a new policy that disables the capacity reclamation on the policy and apply the policy to the parent object hosting new virtual machines.
- D. Disable Capacity reclamation on the policy applied to new virtual machines.

Answer: A

Explanation:

To prevent virtual machines like vm-01 from being reclaimed too early, the administrator can increase the default value of the Exclude VM provisioned in the last x days setting. This ensures that newly provisioned VMs, like vm-01, will be excluded from the reclamation process for a longer period (e.g., 30, 60, or more days), preventing accidental reclamation of VMs that are still in use or under consideration for future projects.

This action directly addresses the issue of accidentally reclaiming recently provisioned virtual machines.

NEW QUESTION # 28

Which statement is correct about the deployment process for vRealize Log Insight using vRealize Suite Lifecycle Manager?

- A. VMware Identity Manager (VIDM) is not a mandatory requirement.
- B. A DHCP address can be used for vRealize Log Insight worker nodes.

- C. A cluster Virtual IP (VIP) address is a mandatory requirement.
- D. Federal Information Processing Standard (FIPS) is enabled by default.

Answer: B

Explanation:

In the deployment process for vRealize Log Insight using vRealize Suite Lifecycle Manager, DHCP addresses can be used for vRealize Log Insight worker nodes. This allows the flexibility to use dynamic IP addresses for worker nodes, simplifying network configuration in some environments.

NEW QUESTION # 29

Which two types of pre-configured content are provided when deploying a content packs in vRealize Log Insight? (Choose two.)

- **A. Reports**
- B. Recommendation
- C. Extracted fields
- **D. Dashboards**
- E. Custom scripts

Answer: A,D

Explanation:

When deploying a content pack in vRealize Log Insight, the following pre-configured content is typically provided:

Dashboards: Content packs often come with pre-configured dashboards that allow users to quickly visualize log data and gain insights based on predefined queries and metrics.

Reports: Content packs may also include pre-configured reports that summarize log data, helping users quickly generate and view key information from the logs.

NEW QUESTION # 30

What is the purpose of using Collector Groups in vRealize Operations?

- A. Collect and upload environment data to VMware for customer experience improvement.
- **B. Achieve adapter load distribution by distributing the number of monitored objects across different remote collectors.**
- C. Achieve adapter resiliency when the remote collector experiences network interruption or becomes unavailable.
- D. Expand vRealize Operations cluster capacity by adding more data storage and compute power.

Answer: B

Explanation:

Collector Groups in vRealize Operations are used to distribute the load of monitored objects across different remote collectors. This helps balance the workload and ensures that no single collector becomes overwhelmed. By distributing the monitoring tasks, Collector Groups improve performance, scalability, and overall efficiency in large environments.

NEW QUESTION # 31

.....

It is universally acknowledged that the pass rate is the most persuasive evidence to prove how useful and effective a kind of 2V0-32.24 practice test is. In terms of our 2V0-32.24 training materials, the pass rate is one of the aspects that we take so much pride in because according to the statistics from the feedbacks of all of our customers, under the guidance of our 2V0-32.24 Preparation materials, the pass rate among our customers has reached as high as 98% to 100%, which marks the highest pass rate in the field. So just feel rest assured to buy our 2V0-32.24 study guide!
