AD0-E125参考書 & AD0-E125日本語版トレーニング

AD0-E125の学習質問は、文化レベルの種類に関係なく、さまざまなレベルのユーザーに適しています。たとえ文化レベルが高くても、AD0-E125トレーニング資料で自分に合ったものを見つけることができます。学習方法。それで、AD0-E125学習教材のすべてのユーザーにとって、絶好の機会であり、さまざまなタイプから選択できます。また、ますます多くの学生がAD0-E125テストガイドを選択します。Adobe Experience Manager Forms Developer Expertの学習質問を選択してください!

Adobe Experience Manager Forms Developer Expert 認定 AD0-E125 試験 問題 (Q36-Q41):

質問 # 36

An adaptive form originally created in English must be published in Dutch ("nl" locale). Which process should be used to add support for the localization of the adaptive form using "nl" locale?

- A. Add new form "nl" locale dictionary, add global dictionary new entries, create XFA client library with "nl" category name, restart AEM Forms server, and use parameter afAcceptLang=nl.
- B. Add "nl" locale to GuideLocalizationService, add XFA client library, add adaptive form client library for "nl", add locale support for the dictionary, and restart AEM Forms server.
- C. Add new form "nl" Dictionary, add global dictionary new message entries, restart AEM Forms server, create XFA client

library, and change browser settings to use "nl" locale.

- D. Since "nl" locale is a default supported locale in AEM Forms, only adding new adaptive form "nl" dictionary and creating XFA client library with "nl" category name are needed.

正解: B

質問 # 37

A customer wants to create a contract management solution using Interactive Communication. The customer has long and complex documents that the Editor will not complete at the same time.

The Forms Developer needs to save the data of this Interactive Communication to allow the Editor to continue working on that document later.

How should the Forms Developer meet this requirement?

- A. Enable the Save as a Draft feature to save a draft
- B. Configure an automatic data retention workflow
- C. Prefill the new document with the submitted data DraftId
- D. Place the Save button into the relevant document template

正解: A

質問 # 38

Which methods can be used to debug an Adaptive Form issue?

(Choose three)

- A. Enable logging in the OSGi Web Console
- B. Disable caching for Adaptive Forms
- C. Use the GuideBridge API to log form data
- D. Modify the AEM Forms database schema
- E. Inspect errors using browser developer tools

正解: A、C、E

質問 # 39

Which security measures should be implemented when delivering Interactive Communication documents?

(Choose two)

- A. Implement user authentication before document access
- B. Store documents in a public JCR repository
- C. Disable all authentication for faster processing
- D. Enable SSL encryption for all communications

正解: A、D

質問 # 40

A Forms Developer is tasked with constructing a Forms portal from a Site page. The Site page (built from a static template) is NOT set by default and needs to be configured as a first step.

After the Developer logs into their instance and opens the AEM Sites page, they click any component (with a blue border) and then click (paragraph image) to select the paragraph system that contains the current component. Next, in the paragraph system, they click the (wrench tool) to open the Edit dialog for the paragraph system.

What additional steps must be taken to successfully convert the Sites page into a Forms portal?

- A. In the page header, click (dropdown) > Select "Design" to open the page in Design mode.
- B. Enable Forms Service Predicates in Page Properties
- C. In the page header, click (dropdown) > Select "Developer" to open the page in Developer mode.
- D. In the page header, click (dropdown) > Select "Edit" to open the page in Edit mode.
