NEW QUESTION # 27

What activities are applied to the entire system and cannot be changed after confirmation in SAP Central Business Configuration? Note: There are 2 correct answers to this question

- **A. Fiscal year variant**
- **B. Group currency**
- C. Scoping
- D. Configuration activities

Answer: A,B

Explanation:

Fiscal year variant and group currency are activities that are applied to the entire system and cannot be changed after confirmation in SAP Central Business Configuration. These activities are part of the system provisioning step, which is the first step in the implementation process. Once the system provisioning is completed and confirmed, the system is locked for these activities and any changes would require a new system provisioning. Scoping and configuration activities, on the other hand, are not applied to the entire system and can be changed later on in the project experience step, which is the second step in the implementation process. Scoping and configuration activities allow the user to adapt the preconfiguration content to their company's needs and extend the configuration for areas not equipped with preconfiguration content. NEW QUESTION # 28

- A. 2025.2
- B. 2025.2.2
- **C. 2502.2**
- D. 0

Answer: C

Explanation:

The release code for SAP S/4HANA Cloud Public Edition follows the format YYYY.MM.X, where YYYY is the year, MM is the month, and X is the feature delivery number. The first feature delivery is always in February, and the second feature delivery is always in May. Therefore, the release code for the second feature delivery in February 2025 is 2502.2. - A. Create a company code.
- **B. Rename the deployment target.**
- C. Define the group currency.
- **D. Assign a different deployment target.**

Answer: B,D

Explanation:

You can rename or assign a different deployment target in SAP Central Business Configuration before completing the Confirm Scoping milestone. This allows you to change the system tenant that will be used for the initial deployment of the content. However, you cannot define the group currency or create a company code before confirming the scoping, as these are configuration activities that require a deployed system.
