Newest New 3V0-32.23 Test Tips | Easy To Study and Pass Exam at first attempt & Well-Prepared 3V0-32.23: Cloud Management and Automation Advanced Design

Compared to other products in the industry, our 3V0-32.23 actual exam has a higher pass rate. If you really want to pass the exam, this must be the one that makes you feel the most suitable and effective. According the data which is provided and tested by our loyal customers, our pass rate of the 3V0-32.23 Exam Questions is high as 98% to 100%. It is hard to find such high pass rate in the market. And the quality of the 3V0-32.23 training guide won't let you down.

VMware Cloud Management and Automation Advanced Design Sample Questions (Q88-Q93):

NEW QUESTION # 88

Which of the following are design principles commonly associated with VMware Validated Solutions (VVS) and VMware Cloud Foundation? (Select all that apply)

- A. Simplified management through a unified software stack.
- B. Integration of multiple public cloud providers.
- C. Pre-tested and validated configurations for consistent performance.
- D. Emphasis on proprietary, closed-source software solutions.
- E. Flexibility to use any hardware vendor's equipment.

Answer: A,C

NEW QUESTION # 89

An architect is designing a VMware Cloud Management solution for a vSphere-based private cloud with the following requirements: The costs should be visible for all deployments.

A one-time charge must be added only to deployments in the Finance project.

Which two design decisions should the architect include? (Choose two.)

- A. Create a new pricing card for the Cloud Zone used by the Finance project.
- B. Integrate VMware Aria Automation with VMware Aria Costs powered by CloudHealth.
- C. **Create a dedicated pricing card for the Finance project.**
- D. **Integrate VMware Aria Operations with VMware Aria Automation.**
- E. Create a default pricing card for all unassigned projects.

Answer: C,D

Explanation:

Integrating VMware Aria Operations with VMware Aria Automation ensures cost visibility for all deployments. Creating a dedicated pricing card for the Finance project allows you to apply a one-time charge specifically to deployments in that project, meeting the requirement for project-specific cost adjustments.

NEW QUESTION # 90

When designing a mixed Cloud Management environment (on-prem and SaaS), which two combinations of products are supported? (Choose two.)

- A. **VMware Aria Automation on-prem and VMware Aria Operations SaaS**
- B. VMware Aria Operations on-prem and VMware Aria Operations for Loqs SaaS
- C. VMware Aria Automation SaaS and VMware Aria Operations on-prem
- D. **VMware Aria Automation SaaS and VMware Aria Operations SaaS**
- E. VMware Aria Automation on-prem and VMware Aria Operations on-prem

Answer: A,D

Explanation:

These combinations are supported for hybrid (mixed on-prem and SaaS) cloud management environments, providing flexibility in deployment models while maintaining integration and management capabilities.

NEW QUESTION # 91

An architect is designing a vRealize Log Insight cluster for an organization.

The organization has the following requirements:

- No requirement for archival data
- Support a log data retention period of 14 days

How will the log data be handled in this vRealize Log Insight cluster after the 14-day retention period?

- A. Old log messages are automatically and periodically retired on least accessed basis.
- B. **Old log messages are automatically and periodically retired on a first-come-first-retired basis.**
- C. The user needs to manually select and delete specific old log messages to free up space.
- D. A variable sized chunk of old log messages is deleted to free up space based on the data age basis.

Answer: B

NEW QUESTION # 92

A bank has requested assistance with developing a backup design for its vRealize Automation platform. They would like system backups to be crash-consistent in the event of an outage.

What are three guidelines that should be followed when planning these backups? (Choose three.)

- A. When backing up the complete system, back up all instances of the vRealize Automation appliance one at a time to preserve availability.
- B. **Create a backup of instances of the vRealize Automation appliance and the IaaS components when updating certificates.**
- C. For non-virtual workloads, back up installation directories as required.

- D. When backing up the complete system, back up all instances of the vRealize Automation appliance and databases as close to each other as possible, preferably within seconds.
- E. Minimize the number of active transactions before beginning a backup. Plan a regular backup for when the system is least active.

Answer: B,D,E

NEW QUESTION # 93

.....

With the help of the 3V0-32.23 practice exam questions and preparation material offered by ExamcollectionPass, you can pass any 3V0-32.23 certifications exam in the first attempt. You don't have to face any trouble, and you can simply choose to do a selective 3V0-32.23 brain dumps to pass the exam. We offer guaranteed success with 3V0-32.23 Dumps Questions on the first attempt, and you will be able to pass the 3V0-32.23 exam in short time. You can always consult our 3V0-32.23 certified professional support if you are facing any problems.
