1Z0-1032-26 Related Exams - Pdf 1Z0-1032-26 Version

This document of 1Z0-1032-26 exam questions is very convenient. Furthermore, the Oracle 1Z0-1032-26 PDF questions collection is printable which enables you to study without any smart device. This can be helpful since many applicants prefer off-screen study. All these features of Oracle 1Z0-1032-26 Pdf Format are just to facilitate your preparation for the 1Z0-1032-26 examination.

Oracle Responsys Marketing Platform 2026 Implementation Professional Sample Questions (Q50-Q55):

NEW QUESTION # 50

You have received requirements to create Connect Event Data Feed exports for two different integration projects. The client wishes to create two CED feeds, both including the Sent feed.

What should you do?

- A. Go back to the team that developed the requirements and tell them that the Sent feed can only be used in one actively scheduled Connect export job at one time. Determine if the same Sent feed can be sent to different file locations.
- **B. Create the two separate exports and use the Sent value for one export and the SentX value for the second export.**
- C. Go back to the team that developed the requirements and see if you can schedule the exports on different days. Responsys will allow the use of the same Sent value to be used in two different active exports if they are scheduled for different days of the week.
- D. Create the two separate exports and ensure they both have the Sent value in them.

Answer: B

NEW QUESTION # 51

You need to comment your RPL code so that it doesn't get generated in the source HTML for a campaign.

- A. `<comment>` and `</comment>`
- B. `<<-- !~ -->`
- **C. `<#-- and -->`**
- D. `<!-- and -->`

Answer: C

NEW QUESTION # 52

In every email, your client wants to provide a link so customers can download their latest menu. They want to serve this from the Responsys content library, updating the document periodically.

How can they accomplish this?

- A. Your client must host and update the document from their own content server and provide the URL to Responsys. In the Responsys email documents, use the ServeURL function to reference the document as needed.
- **B. Upload the document into the Content Library. From the document pull-down menu, select Create Embeddable URL and copy the URL into every email. Upload and overwrite this document with the most current version as needed.**
- C. Upload the document into Manage Hosted Content, then publish. Insert this URL into every email document. To update, unpublish the document, upload the current version with the same name, and publish.
- D. Upload the document into the Content Library. Right-click the document and select Copy Link. Insert this link into every email document. Upload and overwrite this document as needed.

Answer: B

NEW QUESTION # 53

How can you share a copy of a campaign with key stakeholders at live launch time?

- A. Use the RPL `proofLaunch()` method with each of the recipient's email addresses as a parameter.
- B. Export the campaign from Message Designer, then copy and paste the source HTML in an email to send to them.
- C. Create a ProofList with their email addresses and then use the Seed List feature in the Campaign Workbook.
- **D. Create a Seed Group with their email addresses. In the Audience Selection section of the Campaign Workbook, select this group as your Seed List.**
- E. Create a filter for these individuals and then use the Seed List feature in the Campaign Workbook.

Answer: D

You are designing a messaging campaign that needs personalization data for your contacts from a supplemental data source. How should you join or reference data from the table?

- Answer: D**
