

Valid 1Z0-182 Learning Materials | 1Z0-182 Practice Test

BTW, DOWNLOAD part of PremiumVCEDump 1Z0-182 dumps from Cloud Storage: https://drive.google.com/open?id=1cNFuJ7IJ581-GBZJP_L0kMfdgyEHXgZ5

The online 1Z0-182 practice exam has all specifications of the desktop software. It is compatible with Chrome, Firefox, MS Edge, Safari, Opera, etc. The Oracle Database 23ai Administration Associate (1Z0-182) practice exam will save your progress and give you an overview of your mistakes, which will benefit your overall preparation. All operating systems support this Oracle Database 23ai Administration Associate (1Z0-182) practice test.

We have a team of experts curating the real 1Z0-182 questions and answers for the end users. We are always working on updating the latest 1Z0-182 questions and providing the correct 1Z0-182 answers to all of our users. We provide free updates for one year from the date of purchase. You can benefit from the updates 1Z0-182 Preparation material, and you will be able to pass the 1Z0-182 exam in the first attempt.

Free PDF Oracle - 1Z0-182 - Pass-Sure Valid Oracle Database 23ai Administration Associate Learning Materials

Nowadays a lot of people start to attach importance to the demo of the study materials, because many people do not know whether the 1Z0-182 study materials they want to buy are useful for them or not, so providing the demo of the study materials for all people is very important for all customers. A lot of can have a good chance to learn more about the 1Z0-182 Study Materials that they hope to buy.

Oracle Database 23ai Administration Associate Sample Questions (Q29-Q34):

NEW QUESTION # 29

Which two statements describe how Optimizer Statistics are collected?

- A. Optimizer Statistics are collected in real-time as data is inserted, deleted, or updated.
- **B. Optimizer Statistics are collected automatically by an automatic maintenance job that runs during predefined maintenance windows.**
- C. Optimizer Statistics are collected by the Statistics Advisor.
- D. Optimizer Statistics are collected automatically by Automatic Workload Repository (AWR) Snapshot.
- **E. Optimizer Statistics can be manually collected at multiple levels using DBMS_STATS.GATHER_*_STATS PL/SQL procedures.**

Answer: B,E

Explanation:

Optimizer Statistics drive the cost-based optimizer's query plans. Let's dissect each option:

A . Optimizer Statistics are collected automatically by an automatic maintenance job that runs during predefined maintenance windows.

True. Oracle 23ai uses the AutoTask framework to gather stats automatically during maintenance windows (e.g., nightly 10 PM-2 AM). The GATHER_STATS_PROG job, managed by DBMS_AUTO_TASK_ADMIN, collects stats for stale or missing objects.

Mechanics: Controlled by STATISTICS_LEVEL=TYPICAL (default) and the DEFAULT_MAINTENANCE_PLAN. It prioritizes objects with >10% changes (stale stats) or no stats.

Practical Use: Ensures stats are current without manual intervention, critical for dynamic workloads.

Edge Case: Disabled if STATISTICS_LEVEL=BASIC or the job is manually disabled via DBMS_AUTO_TASK_ADMIN.DISABLE.

B . Optimizer Statistics are collected in real-time as data is inserted, deleted, or updated.

False. Stats aren't updated in real-time; this would be too resource-intensive. Instead, Oracle tracks changes (e.g., via DBA_TAB_MODIFICATIONS) and updates stats periodically via AutoTask or manually. Real-time stats exist in 23ai for specific cases (e.g., GATHER_TABLE_STATS with REAL_TIME_STATS), but it's not the default.

Why Incorrect: Real-time collection would degrade performance for OLTP systems, contradicting Oracle's batch approach.

C . Optimizer Statistics can be manually collected at multiple levels using DBMS_STATS.GATHER_*_STATS PL/SQL procedures.

True. The DBMS_STATS package offers granular control: GATHER_TABLE_STATS, GATHER_SCHEMA_STATS, GATHER_DATABASE_STATS, etc., allowing stats collection for tables, schemas, or the entire database.

Mechanics: Example: BEGIN DBMS_STATS.GATHER_TABLE_STATS('HR', 'EMPLOYEES'); END;. Options like ESTIMATE_PERCENT and DEGREE fine-tune the process.

Practical Use: Used for immediate stats updates post-DML or for custom schedules outside maintenance windows.

Edge Case: Overuse can lock stats (e.g., FORCE=TRUE), requiring careful management.

D . Optimizer Statistics are collected by the Statistics Advisor.

False. The Statistics Advisor (new in 23ai) analyzes and recommends stats improvements but doesn't collect them. Collection is still via DBMS_STATS or AutoTask.

Why Incorrect: It's a diagnostic tool, not an executor.

E . Optimizer Statistics are collected automatically by Automatic Workload Repository (AWR) Snapshot.

False. AWR snapshots capture performance metrics (e.g., wait times), not optimizer stats. Stats collection is a separate process via AutoTask or manual commands.

Why Incorrect: AWR and stats collection serve distinct purposes—monitoring vs. optimization.

NEW QUESTION # 30

Which three statements are true about resumable space allocation in Oracle databases?

- A. All sessions must have the same timeout value when waiting for resumable space allocations.
- **B. Resumable space allocation may be enabled for some sessions and not others.**
- C. Resumable space allocation is only possible with locally managed tablespaces.
- **D. A user's session may be suspended even if the user has the UNLIMITED TABLESPACE system privilege.**
- E. The AFTER SUSPEND event trigger can itself be suspended due to space conditions.
- **F. A user's session may be suspended and resumed multiple times.**

Answer: B,D,F

Explanation:

A . True. Enabled per session with ALTER SESSION ENABLE RESUMABLE.

- B .True. Multiple suspensions can occur in one session.
- C .False. Works with dictionary-managed tablespaces too.
- D .False. Timeout is session-specific.
- E .True. Privilege doesn't prevent suspension; quota limits do.
- F .False. Triggers execute but can't suspend themselves.

NEW QUESTION # 31

Which four statements are true about the Oracle Server architecture?

- A. A connection represents the state of a user's login to an instance.
- B. A person or program can have more than one session with an instance by logging in with different users.
- C. A session represents the state of a user's login to an instance.
- D. A person or program can have more than one session with an instance by logging in with the same user.
- E. Each server process or background process has their own Program Global Area (PGA).
- F. The buffer cache and the redo log buffer are held in the large pool.

Answer: B,C,D,E

Explanation:

- A .True. Multiple sessions with different users are possible.
- B .False. Buffer cache and redo log buffer are in SGA, not large pool.
- C .True. Session tracks login state.
- D .True. Each process has its own PGA.
- E .False. Connection is the network link; session is the state.
- F .True. Same user can have multiple sessions (e.g., via different terminals).

NEW QUESTION # 32

Which two statements are true about the UNLIMITED TABLESPACE system privilege and space quota?

- A. It allows a user to have unlimited space only in their default permanent tablespace.
- B. It allows a user to have unlimited space in any tablespace in the database.
- C. By default, users have no quota on their default permanent tablespace.
- D. It allows a role to have unlimited space in any tablespace in the database.
- E. It is overridden by a space quota specified for the user.

Answer: B,E

Explanation:

- A .True. Grants unlimited space across all tablespaces.
- B .True. Explicit quotas override the privilege.
- C .False. Not limited to default tablespace.
- D .False. Roles can't have this privilege directly.
- E .False. Default is zero quota unless specified.

NEW QUESTION # 33

Which three statements are true about a dedicated server configuration?

- A. A dedicated server process communicates directly with a client or middle-tier process once the session is established.
- B. Each dedicated server process has its own dispatcher process.
- C. The DBA configures the maximum number of dedicated server processes that can share the same dispatcher process.
- D. A dedicated server process can be spawned without a listener when using local clients.
- E. A dedicated server process can be spawned by the listener when using local clients.
- F. A dedicated server process may be reused by a new session after the session using that process terminates.

Answer: A,D,E

Explanation:

- A .False. Dispatchers are for shared servers, not dedicated.

- B .False. Dedicated processes die with the session.
- C .True. Direct client-server communication occurs.
- D .False. No dispatchers in dedicated mode.
- E .True. Listener spawns for local/remote clients.
- F .True. Local logins (e.g., sqlplus /) bypass the listener.

NEW QUESTION # 34

.....

As long as you need the exam, we can update the Oracle certification 1Z0-182 exam training materials to meet your examination needs. PremiumVCEDump's training materials contain many practice questions and answers about Oracle 1Z0-182 and they can 100% ensure you pass Oracle 1Z0-182 exam. With the training materials we provide, you can take a better preparation for the exam. And we will also provide you a year free update service.

1Z0-182 Practice Test: <https://www.premiumvcedump.com/Oracle/valid-1Z0-182-premium-vce-exam-dumps.html>

Oracle Valid 1Z0-182 Learning Materials With our network of professional connections, we have these changes on our fingertips as soon as they go live, Oracle Valid 1Z0-182 Learning Materials If you fail exams with our products, we will full refund to you unconditionally, Drag you out of the confusion for 1Z0-182 pass4sure exam test, We sincerely hope that you can pay more attention to our 1Z0-182 study questions.

Directions: This section asks you to analyze and critique 1Z0-182 an argument that is presented, I believe digital will ultimately completely replace film as a capture medium;

With our network of professional connections, we have these changes Valid 1Z0-182 Learning Materials on our fingertips as soon as they go live, If you fail exams with our products, we will full refund to you unconditionally.

Pass 1Z0-182 Exam with Reliable Valid 1Z0-182 Learning Materials by PremiumVCEDump

Drag you out of the confusion for 1Z0-182 Pass4sure exam test, We sincerely hope that you can pay more attention to our 1Z0-182 study questions, Their abilities are unquestionable, besides, 1Z0-182 exam questions are priced reasonably with three kinds: the PDF, Software and APP online.
