Salesforce Certified Advanced Administrator certification is ideal for professionals who are looking to take their Salesforce skills to the next level and demonstrate their expertise in areas such as automation, data management, security, and advanced reporting.

## How to study the Advanced-Administrator Exam

There are two main types of resources for preparation of certification exams first there are the study guides and the books that are detailed and suitable for building knowledge from ground up then there are video tutorial and lectures that can somehow ease the pain of through study and are comparatively less boring for some candidates yet these demand time and concentration from the learner. Smart Candidates who want to build a solid foundation in all exam topics and related technologies usually combine video lectures with study guides to reap the benefits of both but there is one crucial preparation tool as often overlooked by most candidates the practice exams. Practice exams are built to make students comfortable with the real exam environment. Statistics have shown that most students fail not due to that preparation but due to exam anxiety the fear of the unknown. BootcampPDF expert team recommends you to prepare some notes on these topics along with it don't forget to practice **Salesforce Advanced-Administrator Exam Dumps** which been written by our expert team, Both these will help you a lot to clear this exam with good marks.

### NEW QUESTION # 218

At Ursa Major Solar, there is a custom object called Galaxy. The sales director wants users to only see certain field market. What Lightning will satisfy this requirement?

- A. Record Detail Component
- B. Fields component
- C. Path Component
- D. Highlights Panel Component

**Answer: B**

Explanation:

Explanation

The Fields component is a Lightning component that allows administrators to display fields from a record on a Lightning page based on certain conditions or criteria. For example, administrators can use filter logic to show or hide fields based on field values or user profiles. In this case, the administrator can use the Fields component to display fields that only apply to condos based on the value of a field that indicates the type of property. References:
