NREMT EMT考試指南 - EMT考古題

想要通過NREMT的EMT考試並取得EMT的認證資格嗎？KaoGuTi可以保證你的成功。準備考試的時候學習與考試相關的知識是很有必要的。但是，更重要的是，要選擇適合自己的高效率的工具。KaoGuTi的EMT考古題就是適合你的最好的學習方法。這個高品質的考古題可以讓你看到不可思議的效果。如果你擔心自己不能通過考試，快點擊KaoGuTi的網站瞭解更多的資訊吧。

最新的 Medical Technicians EMT 免費考試真題 (Q46-Q51):

問題 #46

Defusing sessions should do which of the following in order to be successful? Select the two correct options.

- A. Force all providers to provide feedback
- **B. Be held immediately following an incident**
- **C. Allow the open sharing of information**
- D. Take place 72 hours or more following an incident
- E. Have mental health experts present during the session

答案：B,C

解題說明:

Comprehensive and Detailed Explanation From Exact Extract:

Defusing is an informal, short-term intervention after a critical incident. It should:

- * Occur within hours of the event (ideally the same shift)

- * Encourage voluntary open discussion in a confidential setting

It is not a full debrief or counseling session and doesn't require mental health professionals present. Forcing participation or waiting too long (e.g., 72+ hours) can reduce its effectiveness.

問題 #47

An 84-year-old patient has a sudden onset of weakness to one side of the body. The patient has a history of hypertension and high cholesterol. The vital signs are BP 176/94 mmHg, P 108/min, R 18/min, and SpO₂ 97% on room air. For which of the following additional symptoms should the EMT assess? Select the three correct options.

- A. Slurred speech
- B. Tremors
- C. Miosis
- D. Syncopal episodes
- E. Arm drift
- F. Facial droop

答案: A,E,F

解題說明:

Comprehensive and Detailed Explanation From Exact Extract:

The symptoms described are classic for a stroke (CVA). Additional hallmark findings include:

- * Arm drift (motor weakness or hemiparesis)

- * Facial droop (Cranial nerve VII involvement)

- * Slurred speech (dysarthria or aphasia)

These form the basis of prehospital stroke assessment tools like FAST:

- * Face drooping

- * Arm weakness

- * Speech difficulty

- * Time to call 911

Miosis (pupil constriction) and tremors are not associated with stroke in EMS context. Syncope is an isolated event and not a reliable CVA symptom.

問題 #48

Which of the following elements proves tort negligence in a court of law?

- A. Abandonment
- B. Assault and battery
- C. Causation
- D. False imprisonment

答案: C

問題 #49

An 83-year-old patient is unresponsive and lying on the floor. The patient has a large bruise and laceration on the forehead. The patient's vital signs are BP 90/60, P 126, and R 0. Which of the following conditions should the EMT most suspect?

- A. Commotio cordis
- B. Brain herniation
- C. Spine injury
- D. Open pneumothorax

答案：C

解題說明：

Comprehensive and Detailed Explanation From Exact Extract:

Given fall with head trauma and absent respirations, the most concerning cause is spinal injury, particularly a cervical spine fracture.

A high cervical injury (C1-C4) can paralyze the diaphragm, leading to apnea despite a beating heart.

Brain herniation can also depress respirations but often presents with unequal pupils, posturing, and Cushing's triad (not described here). Commotio cordis is sudden cardiac arrest from blunt chest trauma (not head).

Open pneumothorax affects chest mechanics, not directly linked here.

問題 #50

You have consulted with on-line medical direction to terminate resuscitation of a 74-year-old female.

How should you inform her family of this decision?

- A. "She didn't make it."
- B. "She has died."
- C. "She has passed."
- D. "She is at peace."

答案：C

解題說明：

Comprehensive and Detailed Explanation From Exact Extract:

EMS professionals are expected to use empathetic yet clear language when communicating a death. The phrase "She has passed" is both respectful and commonly accepted as an appropriate way to convey death compassionately without being overly clinical or harsh. "Died" may sound too blunt in an emotional moment, while "didn't make it" and "at peace" can feel vague or dismissive. Clear, empathetic communication is critical for patient dignity and family support during death notifications.
