問題 #68

A company with multiple legal entities implements Dynamics 365 Finance.

You need to recommend options to ensure that you can provide customized financial reporting across the legal entities.

What are two possible ways to achieve the goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Create separate departments to manage functional areas.
- B. Create separate value streams for item management.
- C. Create separate cost centers to manage operations.
- D. Create separate business units.

答案: C,D

解題說明:

Operating units

An operating unit is an organization that is used to divide the control of economic resources and operational processes in a business. People in an operating unit have a duty to maximize the use of scarce resources, improve processes, and account for their performance.

The operating units in finance and operations apps are:

(B) Business unit - A semi-autonomous operating unit that is created to meet strategic business objectives. It is used for financial reporting that is based on industries or product lines that the organization serves independently of legal entities.

(C) Cost center - An operating unit in which managers are accountable for budgeted and actual expenditures. It is used for the management and operational control of business processes that span legal entities.

問題 #69

問題 #72

A company is implementing Dynamics 365 Supply Chain Management. The company has 11 legal entities.

Each entity uses a separate enterprise resource planning (ERP) system. A customer may have a unique customer number in each system because the systems are disconnected. One of the customer numbers will be used as the master number in Dynamics 365. The company plans to add entities to Supply Chain Management over time. Customer records will continue to be added to the ERP systems throughout the implementation lifecycle and must be kept up to date. The ERP systems will be decommissioned after go-live.

You need to create a strategy to migrate the customer data and ensure that new records are automatically mapped.

Which solution should you implement for each requirement? To answer, drag the appropriate solutions to the correct requirements. Each solution may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.
