PMI Project Management Office Certified Professional Sample Questions (Q104-Q109):

NEW QUESTION # 104
An experienced PMO professional is tasked with establishing guidelines and procedures to ensure effective decision-making and accountability throughout the project life cycle in a large-scale project management environment. The PMO professional needs to facilitate the establishment of structured guidelines and procedures to govern project activities and promote organizational alignment. Which action should the PMO professional prioritize?

- A. Collaborate with project stakeholders to define roles and responsibilities to ensure clarity and accountability.

- B. Conduct regular audits to evaluate compliance with established guidelines and identify areas for improvement.
- C. Implement a performance measurement framework to assess project progress and outcomes against metrics of past projects.
- D. Establish a centralized repository for project documentation and knowledge sharing to ensure transparency and accessibility.

Answer: A

Explanation:
Cleardefinition of roles and responsibilitiesis foundational to effective governance, decision-making, and accountability. PMI-PMOCP highlights that collaboration with stakeholders to establish this clarity prevents confusion, duplication, and gaps in project execution and control.
Documentation repositories (option A), audits (option C), and performance frameworks (option D) support governance but rely on defined roles and accountability as a prerequisite.

NEW QUESTION # 105
A PMO professional is acting as the PMO leader temporarily in a well-established and mature PMO unit. In this role, a PMO professional receives an escalation from the portfolio manager that a new business stakeholder's activity is overlapping with key portfolio management functions.
What should the PMO professional do to resolve this issue?

- A. Review the adopted PMO charter with the portfolio manager and the new stakeholder.
- B. Train the new business stakeholder on the organization's key values.
- C. Assess the conflict resolution portion of the compliance code of conduct.
- D. Refer the portfolio manager to the approved project charter.

Answer: A

Explanation:
The PMO charter defines the PMO's roles, responsibilities, and boundaries. PMI-PMOCP stressesreviewing the charter with involved partiesto clarify roles and resolve overlaps or conflicts, reinforcing governance and accountability.
Training on values (A), conflict resolution codes (C), or project charters (D) are less direct for resolving PMO governance overlap issues.

NEW QUESTION # 106
An enterprise PMO (EPMO) in a large telecommunications company is overwhelmed with service requests from various departments. With limited resources, the EPMO cannot serve all customers and meet their expectations in the short term.
Which action should the PMO professional take to ensure efficient delivery?

- A. Escalate the issue to the executive team and request additional resources.
- B. Prioritize and assign service requests based on their strategic impact.
- C. Allocate PMO resources to incoming requests based on their experience.
- D. Educate customers on service-level agreements (SLAs) for each service.

Answer: B

Explanation:
The PMI-PMOCP Lifecycle Management domain guides PMOs toprioritize resources and services based on strategic impact, ensuring that limited capacity is allocated to initiatives that deliver the highest organizational value.
Escalation (Option A) may be necessary eventually but is not the immediate corrective action. Allocating resources by experience (Option B) ignores strategic prioritization. Educating customers on SLAs (Option D) is useful but secondary to prioritization decisions.
This prioritization approach helps the EPMO maximize impact, manage expectations, and optimize service delivery under constraints.

NEW QUESTION # 107

After identifying the needs and expectations of PMO customers, the PMO professional recommends introducing a new service to effectively meet these needs within the specified timeframe. However, new regulations were recently introduced, and the company must comply with them before launching the new PMO service, which will affect the timeline for its implementation.
What should the PMO professional do?

- A. Assess the impact of the new regulations on the timeline and communicate changes to PMO customers.
- B. Proceed with the original timeline in order to meet the PMO customer expectations.
- C. Cancel the service implementation altogether to avoid any potential compliance risks.
- D. Delay the introduction of the service until the regulations are fully implemented.

Answer: A

Explanation:
PMO professionals must ensure compliance with regulations while managing stakeholder expectations. The best approach is toassess the impact of the new regulations on the project timeline and proactively communicate these changes to PMO customers(Option B). This maintains transparency, manages expectations, and supports compliance.
Delaying the service indefinitely (Option A) or canceling it outright (Option C) may be unnecessarily restrictive. Proceeding without adjustments (Option D) risks non-compliance.
PMI-PMOCP Governance principles emphasizerisk and compliance management coupled with effective stakeholder communication.

NEW QUESTION # 108

A company aims to build a series of nuclear power plants and wants to establish a PMO to support its large- scale and high-risk strategy. The PMO professional has already developed the PMO vision, mission, and high- level strategy.
What should the PMO professional do next?

- A. Outline the expected benefits of the program's strategy.
- B. Determine the most common risks and pain points in the energy sector.
- C. Identify critical factors that shape PMOs across the energy industry.
- D. Define the PMO scope, authority, roles, and responsibilities.

Answer: D

Explanation:
After establishing vision and strategy, the PMO professional mustdefine the PMO scope, authority, roles, and responsibilities. PMI-PMOCP stresses that clear definition of the PMO's mandate enables effective governance, service delivery, and stakeholder alignment, especially in complex, high-risk industries like nuclear energy.
Understanding risks (option A), benefits (option C), or industry factors (option D) are important but follow the foundational establishment of PMO scope and structure.
