Exam Dumps UiPath-TAEPv1 Zip | Latest UiPath-TAEPv1 Study Guide

What's more, part of that ActualVCE UiPath-TAEPv1 dumps now are free: https://drive.google.com/open?id=19YcB6OVi8RF5Aa0jz4ptUuTEjdfokMX2

Passing UiPath-TAEPv1 exam is not very simple. UiPath-TAEPv1 exam requires a high degree of professional knowledge of IT, and if you lack this knowledge, ActualVCE can provide you with a source of IT knowledge. ActualVCE's expert team will use their wealth of expertise and experience to help you increase your knowledge, and can provide you practice questions and answers UiPath-TAEPv1 certification exam. ActualVCE will not only do our best to help you pass the UiPath-TAEPv1 Certification Exam for only one time, but also help you consolidate your IT expertise. If you select ActualVCE, we can not only guarantee you 100% pass UiPath-TAEPv1 certification exam, but also provide you with a free year of exam practice questions and answers update service. And if you fail to pass the examination carelessly, we can guarantee that we will immediately 100% refund your cost to you.

It is not hard to know that UiPath-TAEPv1 study materials not only have better quality than any other study materials, but also have more protection. On the one hand, we can guarantee that you will pass the exam easily if you learn our UiPath-TAEPv1 study materials; on the other hand, once you didn't pass the exam for any reason, we guarantee that your property will not be lost. Our UiPath-TAEPv1 Study Materials have a high quality which is mainly reflected in the pass rate. Our product can promise a higher pass rate than other study materials.

Quiz High Hit-Rate UiPath - UiPath-TAEPv1 - Exam Dumps UiPath Test Automation Engineer Professional v1.0 Zip

For years our company is always devoted to provide the best UiPath-TAEPv1 study materials to the clients and help them pass the test UiPath-TAEPv1 certification smoothly. Our company tried its best to recruit the famous industry experts domestically and dedicated excellent personnel to compile the UiPath-TAEPv1 Study Materials and serve for our clients wholeheartedly. Our company sets up the service tenet that customers are our gods and the strict standards for the quality of our UiPath-TAEPv1 study materials and the employee's working abilities and attitudes toward work.

UiPath UiPath-TAEPv1 Exam Syllabus Topics:

Topic	Details
Topic 1	- Environments, Applications, and - or Tools: This section of the exam measures the skills of RPA Developers and evaluates comfort with various tools and environments commonly used with UiPath. These include Microsoft Excel, JSON, XML, ERPs, web elements, browsers, virtual machines, version control systems, and UiPath components such as Studio, Orchestrator, and Robots.
Topic 2	UiPath Robot: This section of the exam measures the skills of RPA Developers and explains the role of testing robots and their connectivity with UiPath Orchestrator. It discusses the execution of test cases using both on-premises and cloud-based robots and highlights how different robot types support automation testing in a scalable environment.
Topic 3	Testing Process: This section of the exam measures the skills of Test Automation Engineers and focuses on applying best practices in test case design and execution. It outlines the importance of structured application testing in UiPath and emphasizes quality assurance through automation.
Topic 4	UiPath Studio - Data-driven Testing: This section of the exam measures the skills of RPA Developers and centers around managing test data variations using data-driven testing approaches. It explains how to add test data through queues, activities, or data sources, and how to create reusable test cases based on this data. The section also highlights connecting UiPath Studio projects to Test Manager to enhance traceability and visibility of test progress.
Topic 5	UiPath Test Suite – Orchestrator: This section of the exam measures the skills of Test Automation Engineers and covers how to manage test sets in UiPath Orchestrator. It includes creating, executing, scheduling, and deleting test sets, using test data queues, and analyzing results from the Test Execution page. It also discusses re-executing tests and linking test sets for better orchestration of test activities.
Topic 6	UiPath Studio - Testing Panels and Templates: This section of the exam measures the skills of RPA Developers and focuses on how to work with testing panels in UiPath Studio. It includes how to create, import, and manage test cases, along with the use of Test Explorer for analyzing test outcomes. It also covers Descriptor and Activity Coverage panels used for examining object recognition and checking redundancy in test cases. The section further explains testing project templates, the Test Automation Framework, and how to customize execution and test case templates.
Topic 7	UiPath Studio - Test Activities and Workflow Best Practices: This section of the exam measures the skills of Test Automation Engineers and evaluates knowledge of using verification activities and test-specific functions within UiPath Studio. It involves working with test data generation, document attachments in test cases, and applying workflow analyzer rules for stable collaboration. It also includes mock testing to isolate test case components and ensure focused validations.
Topic 8	UiPath Test Suite Architecture and API Integrations: This section of the exam measures the skills of Test Automation Engineers and covers the fundamental capabilities of UiPath Test Suite in automating different types of testing such as UI, API, and data-driven testing. It includes an overview of Test Suite tools and how they integrate with each other, as well as with third-party application lifecycle management (ALM) tools through APIs. Candidates are expected to understand API testing concepts and how external tools can be connected for requirement synchronization, defect management, and test case tracking.

Topic 9	• CI • CD Implementation: This section of the exam measures the skills of RPA Developers and introduces the concepts of Continuous Integration and Continuous Delivery (CI • CD). It covers how to implement pipelines and perform tasks using the UiPath Command Line Interface (CLI) for streamlined and automated deployments of test workflows and processes.

UiPath Test Automation Engineer Professional v1.0 Sample Questions (Q111-Q116):

NEW QUESTION # 111
What happens once a Test Set execution starts in Test Manager?

- A. A test execution container is created without a name, and an empty test result entry, called a test case log. is added for each Test Case.
- B. An empty test result, called a Test Case log. is created, but no test execution container is formed.
- C. A test execution container with the same name as the Test Set is created, and for each Test Case, an empty test result entry, called a test case log. is added.
- D. A Test Case log is created for each executed Test Case, and an empty test result entry is added to an unnamed test execution container.

Answer: C

Explanation:
Once a Test Set execution starts in UiPath Test Manager, a test execution container with the same name as the Test Set is created. Additionally, for each Test Case in the Test Set, an empty test result entry, called a test case log, is added. This structure helps track the execution results for each individual test case under the overall test set.

NEW QUESTION # 112
Given a Verify activity that has the ContinueOnFailure property set to False, what will the outcome be if the verification performed fails?

- A. Test case execution continues and any subsequent verification is skipped.
- B. Test case execution is stopped and an exception is thrown.
- C. Test case execution is stopped and the applications used are closed gracefully.
- D. Test case execution is stopped and any subsequent verification is failed.

Answer: B

Explanation:
If a Verify activity has ContinueOnFailure set to False and the verification fails, the test case execution stops immediately and an exception is thrown. This ensures that failures are treated as critical and halt further execution.

NEW QUESTION # 113
According to best practices, how should the renaming, moving, or deleting of test cases in the project be handled?

- A. Test cases should be renamed or moved outside of Studio and then re-imported.
- B. Test cases can be renamed, moved or deleted outside of Studio.
- C. Do not rename move or delete the test cases outside of Studio.
- D. The renaming, moving or deleting of test cases can be handled either inside or outside Studio, there is no preferred way.

Answer: C

Explanation:
According to best practices, test cases should not be renamed, moved, or deleted outside of UiPath Studio. Making such changes externally can lead to discrepancies in the project structure and potentially break links or references within the testing framework. Performing these actions within Studio ensures that all changes are properly tracked and synchronized across the test suite.

NEW QUESTION # 114

What factors influence the calculation of coverage in the Descriptor Coverage feature in UiPath?

- A. The number of selectors that have been manually verified.
- B. The number of times a selector has been successfully executed.
- C. The total number of selectors available in the Object Repository.
- D. The total number of selectors in a test case execution.

Answer: B

Explanation:
In Descriptor Coverage, the calculation is influenced by the number of times a selector has been successfully executed during test case runs. It helps evaluate how thoroughly the UI elements defined in the Object Repository are being tested.

NEW QUESTION # 115

Which activity enables retrieving random data from a defined set of test data?

- A. Random String
- B. Random Range
- C. Random Text
- D. Random Value

Answer: D

Explanation:
The Random Value activity enables retrieving random data from a defined set of test data. It can be used to generate random values based on the specified data set, which is useful in data-driven testing scenarios.

NEW QUESTION # 116

......

For the quick and complete UiPath-TAEPv1 exam preparation the ActualVCE UiPath-TAEPv1 practice test questions are the ideal selection. With the UiPath UiPath-TAEPv1 PDF Questions and practice test software, you will get everything that you need to learn, prepare and pass the difficult UiPath UiPath-TAEPv1 Exam with good scores.
