C01 exam questions for up to 365 days after buying Tableau Certified Data Analyst (TDA-C01) dumps. We guarantee that nothing will stop you from earning the esteemed Tableau Certification Exam on your first attempt if you diligently prepare with our Tableau in TDA-C01 real exam questions.

Tableau Certified Data Analyst Sample Questions (Q58-Q63):

NEW QUESTION # 58
You have the following dataset.

Which Level of Detail (LOD) expression should you use to calculate tie grand total of all the regions?

- A. {FIXED: [Region] SUM Sales}
- B. {FIXED: SUM Sales}
- C. {FIXED: TOTAL (Sales)}
- D. {Fixed: [Region]: TOTAL Sales}

Answer: B

Explanation:
The correct Level of Detail (LOD) expression to calculate the grand total of sales across all regions would be {SUM(Sales)}. The FIXED expression is not needed here because we are not computing the sum at the level of each region, but rather the total sum across all regions. The FIXED keyword is typically used to aggregate at a certain level regardless of the view.
https://help.tableau.com/current/pro/desktop/en-us/functions_functions_tablecalculation.htm#TOTAL

NEW QUESTION # 59
You have the following tiled dashboard that has one sheet.
You want to replace the sheet with Sheet2.
What should you do?

- A. Select Sheet3 and click the Swap Sheet button next to Sheet2.
- B. From the context menu of Sheet3. select Deselect
- C. Right-click Sheet2 and select Add to Dashboard.
- D. Drag Sheet2 to the dashboard.
- E. From the context menu of Sheet3. select Remove Dashboard item

Answer: D

Explanation:
In Tableau, to replace a sheet on a dashboard, you can simply drag the desired sheet (Sheet2 in this case) from the sheets list onto the dashboard area where the current sheet (Sheet3) resides. This action will replace the existing sheet with the new one. Right-clicking and adding to the dashboard adds an additional sheet rather than replacing, and the context menu options mentioned in the other choices are not the standard methods for replacing sheets within a dashboard.

NEW QUESTION # 60
You have the following box plot that shows the distribution of average profits made in every state by region.

Which region has the smallest distribution of profits?

- A. West
- B. Cast
- C. Central
- D. South

Answer: D
