NEW QUESTION # 95

You have the following map.

You need the map to appear as shown in the following visualization.

What should you do?

- A. Change the mark type to Map
- B. Drag Location to Size on the Marks card
- C. Change the opacity to 75%
- **D. Drag Population to Size on the Marks card**
- E. Change the mark type to Density

Answer: D

NEW QUESTION # 96

You have the following dashboard that contains two visualizations.

You want to show only visualization at time. Users must be able to switch between visualizations.

What should you do?

- A. Dashboard actions
- B. Worksheet actions
- C. Showhide buttons
- **D. A parameter and a calculated field**

Answer: D

Explanation:

Showhide buttons are a feature that allows you to show or hide a layout container on a dashboard. You can use showhide buttons to create a toggle effect that switches between two visualizations. You need to place each visualization in a separate layout container and then add a showhide button for each container. You can customize the appearance and behavior of the buttons to suit your needs. NEW QUESTION # 97

You have the following box plot that shows the distribution of average profits made in every state by region.

Which region has the smallest distribution of profits?

- A. East
- B. West
- C. Central
- **D. South**

Answer: D

Explanation:

The box plot visualization displays the distribution of average profits by region. The distribution of profits is represented by the range of the box (interquartile range) and the whiskers (which often represent the total range excluding outliers). From the image provided, the South region has the smallest visible range within its box and the shortest whiskers, indicating the smallest distribution of average profits among the choices provided.
